

Rocky Ripple Flood Damage Risk Reduction Project

Public Meeting

November 2022

Indianapolis DPW Updates

Welcome and Introductions

- Welcome to tonight's meeting
- Purpose
 - Provide project status and schedule updates
- Introductions
- Meeting plan and room layout
 - Short project update
 - Breakout tables around the room
- Thank you for coming!

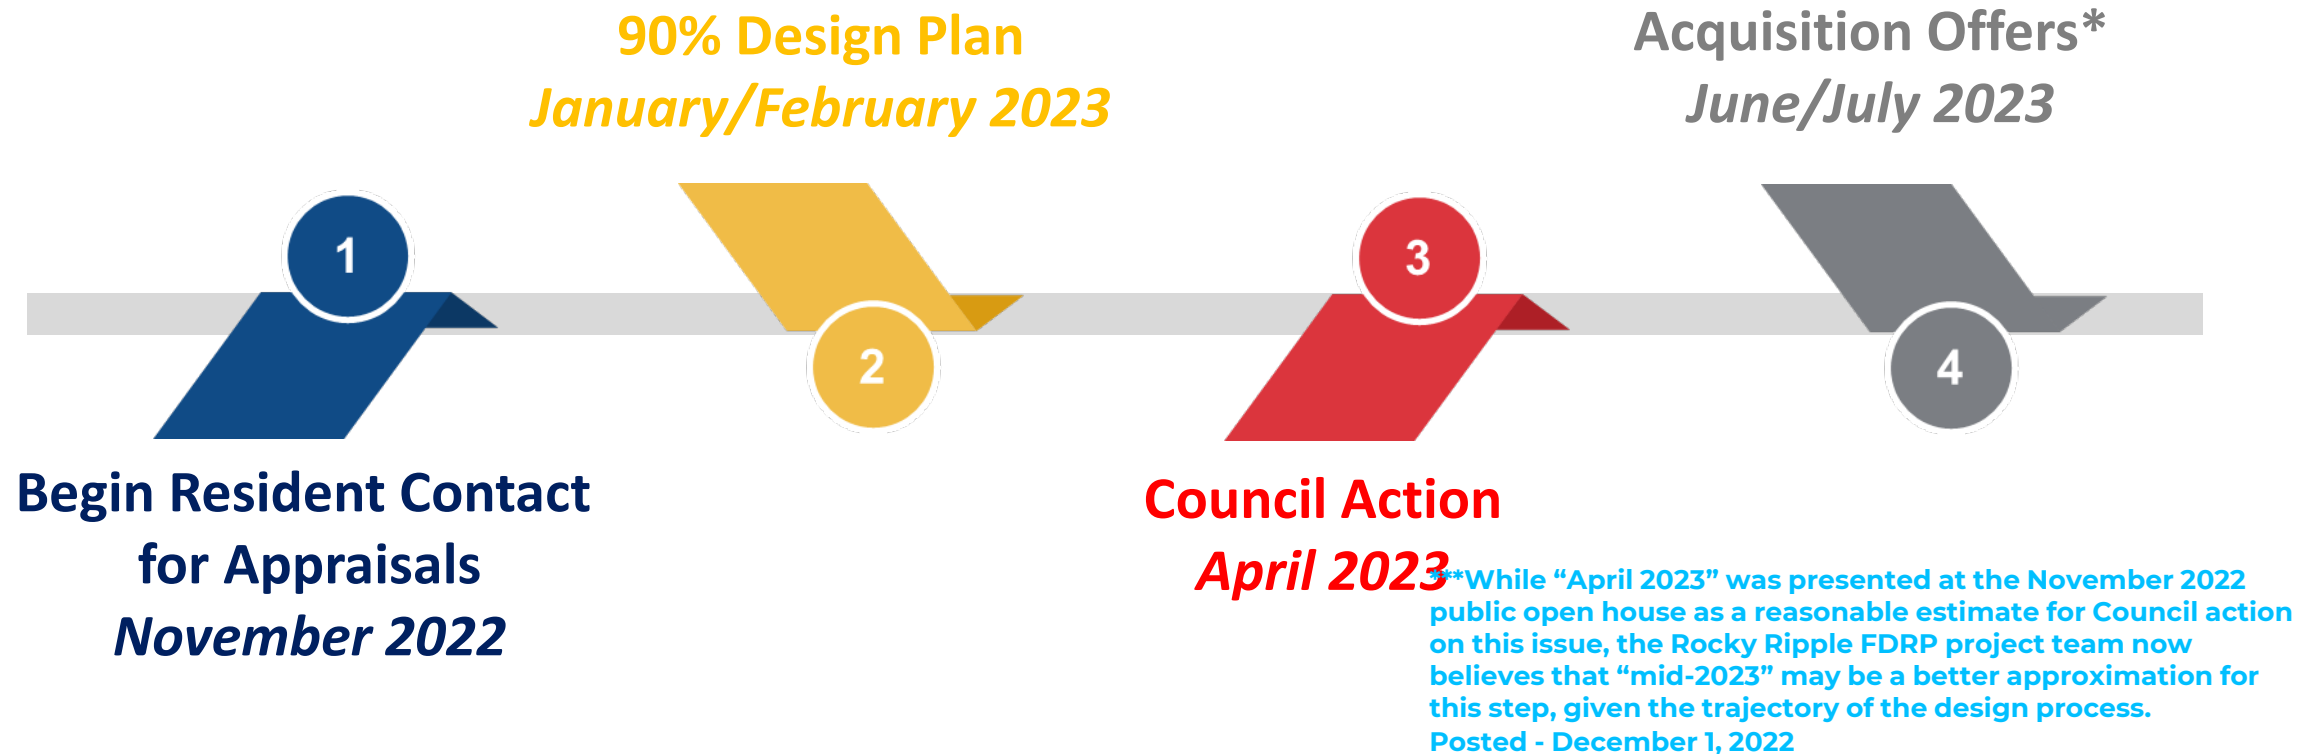

Project Status

- **Interlocal Agreement (ILA)**
 - Draft has been delivered to the Town Board for review
 - A PCA being prepared for Butler University
- **Design**
 - 60% design plans in internal review
 - 90% plans will be prepared January/February 2023
- **Acquisition**
 - Relocation specialist information meetings complete
 - Appraisal efforts underway – resident contacts may begin before the end of the month
 - In-structure visits are voluntary; considered an advantage
- **Environmental Permitting and Mitigation**
 - Preliminary discussions with agencies complete
 - Aware of intent to mitigate local – impacts will identify limitations

Project Update (cont'd)

- **Town Hall**
 - Rendering at the table
 - Architects identifying details
 - The Town to identify location
- **Rocky Ripple Interior Drainage**
 - Being carried out separately but in conjunction with flood works design for economies of scale
 - Addresses the potential for interior flooding for coincidental events – consideration for LOMR

Schedule

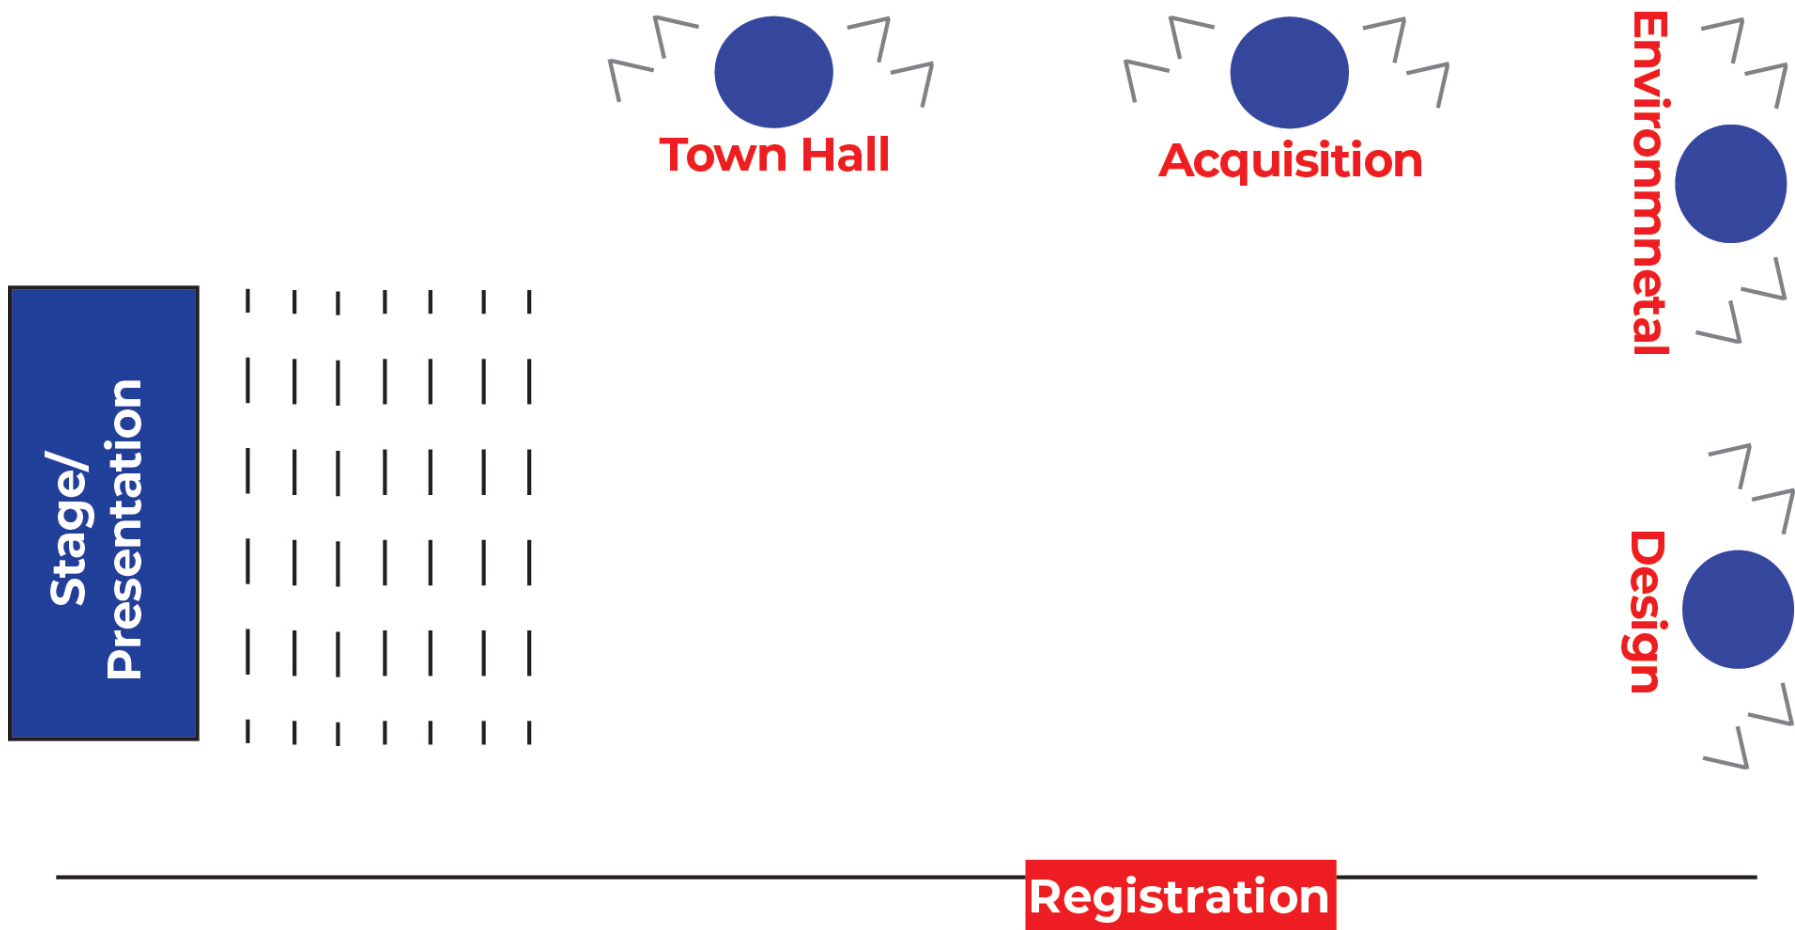

*Non-Council action easement offers will occur earlier

Tonight's Breakout Tables

- **Design**
 - What will the project look like?
- **Acquisition**
 - What is the impact to my property?
 - What is the schedule for acquisition?
- **Environmental Permitting and Mitigation**
 - What are the environmental concerns and how does the team plan to mitigate them?
- **Town Hall**
 - What will the new Town Hall look like?
- **Public Involvement and other team members around the room**

Room Layout

Thank you
