Circuit Court #3277

Drainage Record Book #2-Pages 31 ~~10-9~~ - Cleaning and straighting out of
Buck Creek. Building levees along Creek.

Approx. Length -- 7100 Feet

Plan and Profile in Drawer #17 - Perry Township Folder

LEGAL DESCRIPTION: Commencing on or near the East line of the West Quarter
of Section 11-14-3 and extending along the North side
or bank of Buck Creek in a Westerly direction to a point
at or near the East line of the Southwest Quarter of
Section 9-14-3.

Checked in 1965

AMERICAN TOWN LOT CO. - DRAIN

LAWRENCE

County Commissioners Court, January Term 1929

Located at 46th and 47th Streets, ~~East~~ ^{West Richardt Street} of ~~Shadeland~~ Avenue

Specification's File #455

Filed in Lawrence Township Ditches #1

Length - Approx. 2,820 Feet 12" tile

Built by Hans Christian - July 30, 1929 - Total cost: \$1,984.20

Now entirely in the City of Lawrence

Checked in 1965

Beginning at a certain eighteen inch (18") tile ditch at the intersection of the east line of Cherry Avenue (now Richardt Street) with the north line of Forty-seventh (47th) Street in Shadeland Terrace Addition in the City of Lawrence, Indiana the plat of which is recorded in Plat Book 21, pages 101-102; and running thence South along the east line of said Cherry Avenue to approximately the line between Lots 158 and 159 in said Addition, if extended eastward; and then by a segment of a circle to its intersection with the utility strip running east and west through the south side of said Addition to the east property line of said Addition; and continuing in an westerly direction along said utility strip to its intersection with the north and south utility strip halfway between Homelawn Avenue (now Kercheval Drive) and Calumet Avenue (now Kingman Drive) in said Shadeland Terrace Addition. Also by the construction of another or second branch; beginning at approximately the same point hereinbefore designated as the beginning point for the first tile drain and running thence Westward along said Forty-seventh (47th) Street on the north side of said Shadeland Terrace Addition to the intersection of said Forty-seventh Street with the west line, if extended, of said Homelawn Avenue in said Addition.

NOTE: This entire ditch is now within the City Limits of Lawrence, and evidently discharged into a lateral (not of record) of the Henry A. Newhouse Ditch.

A Tributary of Little White Lick Creek - Shown on Wayne Township Map

NO DESCRIPTION AVAILABLE

NOTE: Drainage Record #3, page 45 shows allotments totaling 7,340'. The plan of this ditch is missing from the files although it has been indexed. The C.C.C. & St. L. Ry. Valuation map #10, shows this ditch running from the north to the R/W of the railroad. Since these maps show only one culvert, (Bridge #14, 48" cast iron pipe at station 370+91) it is evident that the ditch must have been diverted down the north side ditch of the railroad to this culvert.

BOEHNING TILES :

1946

WARREN

Tile Drains in Boehning Addition PB26, P. 105; PB 27, P. 133
Built by Subdivider in 1946

See Warren Township Ditches, #12

The tiles are located on the west side of Post Road and in the center of Boehning Street. These tiles start at points approximately 700' North of 9th Street (Michigan Street) and approximately 1,400' South of 9th Street and drain towards a tile in the center of 9th Street which drains Easterly into the Kuhn Ditch on the east side of Post Road. There are short laterals, which run west of Post Road and east and west of Boehning Street, along the utility strip south of Tenth Street.

LAWRENCE TWP.

Sec. 29-17-5

Sec. 30-17-5

County Commissioners Court

Drainage Record Book 1, pages 426-427

Length - Open 1,374'

LEGAL DESCRIPTION: Beginning at a point 90 feet north of the south line and 260 feet West of the East line of the S.E. 1/4 Sec. 19, T. 17N., R. 5E; thence S. 47 1/2° E. 100 feet; thence S. 87 1/2° E. 1,081 feet; thence S. 24° E. 93 feet; thence S. 6° E. 50 feet to Fall Creek at a point 145 feet South of the North line and 960 feet East of the West line of the N.W. 1/4 of Sec. 29, T. 17N., R. 5E.

This ditch superceded the John Emery Ditch. The ditch was relocated when the Evans Road (now 79th Street) was relocated and the steel bridge over Fall Creek was moved. The ditch then began at the outlet of the culvert under Fall Creek Road, immediately south of 79th Street, and ran easterly parallel with 79th Street until it neared Fall Creek when its course veered southeasterly into Fall Creek. The ditch was a part of the project for the new bridge on 79th Street over Fall Creek built in 1966 as Lawrence Twp. Bridge No. 27.

The original relocation of the Evans Road from Fall Creek Road to Indian Lake Road, was done in 1922 (under petition of March 1920) with the final payment dated Sept. 25, 1922, under specifications #186.

BULLMAN HEIGHTS DRAINS

WARREN
6-15-5

Not a legal ditch. Constructed by the developers of the Addition.

See Warren Twp. Ditches, File #10 (Kuhn Ditch) for location and sizes of tiles.

DESCRIPTION taken from Warren Twp. Ditches, File #10.

Location of tiles:

1. In the utility strip, which is 175 feet south of the center line of 10th Street; thence East from the east line of Harbison Avenue to the east side of Lot #1, in said Addition.
2. In the utility strip which lies immediately north of those lots which front on Washington Street; thence East from the east line of Harbison Avenue to the east line of Lot 80 in said Addition.
3. In the utility strip between Harbison Avenue and Routiers Avenue; thence North from the northeast corner of Lot 68 to the southeast corner of Lot 13 in said Addition.
4. In the center of Routiers Avenue from the prolonged south line of Lot 280 North to the prolonged north line of Lot 231 in said Addition.
5. In the center of Bazil Street from the prolonged north line of Lot 77 North to the prolonged north line of Lot 131 in said Addition.
6. In the center of Michigan Street from the prolonged east line of Lot 31 East to the prolonged east line of Lot 115 in said Addition. This tile collects the water from the other described tiles and flows East into the Kuhn Ditch.

"	196		150' to Illinois Central Railroad

300 feet South of Section Line which is the terminus of ditch.

FOWLER-HAUEISEN

THE HAUEISEN DITCH - Follows the same course as FOWLER DITCH to Illinois Central Railroad.

EXTENSION OF HAUEISEN DITCH - Beginning at the eastern terminus of the FOWLER DITCH thence running east to the east line of the N.W. 1/4 Section 2-14-3 - thence running in a southeasterly direction to the Southeast Corner of N.W. 1/4 Section 1-14-3. Distance from the terminus of Fowler Ditch - 1 1/2 miles.

Note: The ditch loses it's identity between Belmont Avenue, on the east, and I-465, on the south. This area is now occupied by a large gravel mining operation. There is no culvert under I-465. The ditch water is diverted into White River by a ditch on the north side of I-465. The tile ditch is almost completely plugged south of I-465, except a portion which is now an open ditch.

HARMISON, James

LAWRENCE

Superior Court #2 - Cause #B40502

Petition filed October 15, 1945

NOT BUILT: See Drainage Record #6, pgs, 193-198 (incl.)

LEGAL DESCRIPTION: Starting at the lower end or outlet, at the south bank of Fall Creek near the bridge over said Fall Creek in Shadeland Avenue, a highway on the West line of Section One (1) in Township 16, Range 4 East in Lawrence Township, Marion County, Indiana, and running thence South parallel with said West line and Shadeland Avenue and also the West line of Section Twelve (12), said Township and Range, across Forty-sixth (46) Street and continuing parallel with Shadeland Avenue as it runs between Secs. Thirteen (13) and Fourteen (14), said Township and Range, to the Right-of-way of the C.C.C. & St. L. Ry. Co.; thence in a generally Northeasterly direction along and parallel to said R. R. right of way to a Tube or Culvert across said right of way which is about Forty (40) Rods west of the East line of the North West Quarter (NW 1/4) of Sec. 13, Twp. 16N, Range 4 East; thence across said Right-of-way, through said Tube, to or near the South line of said Right-of-way, and there turning and continuing in a generally Northeasterly direction along and parallel to such right-of-way on the South side thereof to the FRANKLIN ROAD between Sections 12 and 7 in said Twp. 16N, Range 4 East and there ending. Also, a Branch or Lateral drain commencing in and connecting with the ditch or drain above described at the North End of the Tube under the tracks and across said R. R. right-of-way, referred to as being about forty (40) rods West of the East line of the North West Quarter of said Sec. Thirteen (13), and running in a generally Northeasterly direction along and parallel to said R. R. right-of-way, on the North side thereof, to said Franklin Road on the East side of said Section Twelve (12), and there ending.

NOTE: Dismissed for want of Prosecution, November 12, 1952 in Order Book 742, page 387.

1,155 Feet Open Ditch on West side of Cooper Avenue, beginning at 56th Street and running South; Now a part of Kessler Boulevard.

DESCRIPTION: Commencing near the N.E. corner of the W. 1/2 of the N. W. 1/4 of Section 9-16-3; thence South 70 rods, more or less and 2 feet east of and parallel with the west line of right of way of the highway, known as Cooper Avenue, to an open ditch. (For easement of the open ditch across Broadmoor Country Club see Miscellaneous Record 38, pages 409-413).

Note: The County Commissioners granted Jacob Hollingsworth permission to construct and maintain this ditch for 10 years.

This ditch was superceded by the side ditch construction of Kessler Blvd. and later by the construction of a concrete storm drain under M.T.A. Project CP-65-2C.
