**Indianapolis Local Education Alliance Recommendations to the Indiana General Assembly** .....424

**Legal Considerations/Limitations to the Models by the Indianapolis Local Education Alliance** ..428

# Introduction

The Indiana General Assembly created the Indianapolis Local Education Alliance as part of House Enrolled Act 1515. The Legislative charge to the alliance was to recommend a more collaborative approach for the widely varying education landscape within Indianapolis Public Schools and the multiple other public charter schools operating in its district.

The Indianapolis Local Education Alliance includes several leaders who represent Indianapolis' education, civic, and community landscape. Indianapolis Mayor Joe Hogsett serves as chairperson, and Dr. Aleesia Johnson, Superintendent of Indianapolis Public Schools, serves as a statutory member. Additional members include Tina Ahlgren, an H.L. Harshman Middle School teacher who serves as the IPS district-managed school parent appointee, and Andrew Neal, CEO of Outreach Indiana, who serves as the innovation network school parent appointee. The IPS Board President appointed Barato Britt, President and CEO of the Edna Martin Christian Center. The mayor's appointees include Maggie A. Lewis, Majority Leader of the City-County Council and CEO of the Boys & Girls Clubs of Indianapolis; Tobin McClamroch, Partner at Dentons Indianapolis and Chair of the Marian University Board of Trustees; Bart Peterson, former mayor and former CEO of Christel House International; and Angela Smith-Jones, Associate Vice President for State Relations at Indiana University and former Deputy Mayor of Economic Development.

# Synopsis of House Enrolled Act 1515

House Enrolled Act 1515, Education and Higher Education Matters, authored by Representative Behning and sponsored by Senator Buchanan creates a new governance and coordination framework for Indianapolis' public education ecosystem. The centerpiece of this effort is Chapter 17, which formally establishes the Indianapolis Local Education Alliance and grants it authority to lead facility planning, transportation coordination, and cross-sector collaboration across all public schools—district and charter—within the geographic boundaries of Indianapolis Public Schools. The Indianapolis Local Education Alliance is designed to operate independently, serve as a neutral convening body, and develop a unified facilities and transportation plan that supports a collaborative school system capable of serving all Indianapolis students

## **Chapter 17 – Establishment and Structure of the Indianapolis Local Education Alliance**

### Sec. 1-2: Creation and Membership Structure

Chapter 17 officially establishes the Indianapolis Local Education Alliance, defining it as a nine-member body composed of:

1. IPS superintendent or designee
2. Mayor of Indianapolis or designee (serves as chair)
3. One member appointed by the IPS board president (non-board member)
4. Four mayoral appointees, including one business representative
5. Two parent representatives appointed by the superintendent (one innovation network parent; one IPS parent)

Additional structural provisions include:

6. A quorum requires a majority of members; action requires a majority vote.
7. The first meeting must occur by July 1, 2025.
8. The alliance operates independently from IPS.
9. The alliance is not subject to open-door law, except for the meeting in which the implementation plan is adopted.

#### Sec. 3-4: Responsibilities of the Indianapolis Local Education Alliance

The Indianapolis Local Education Alliance is required to:

- Conduct school facility assessments for all applicable public school, including charter school, facilities located within the geographic boundaries of the school city
- Develop a facilities and transportation implementation plan that includes the following components:
  - Long-term asset management and sustainability strategy
  - Seat-capacity target formula
  - Recommendations on needed facility structural changes
  - A process for approving or denying levy requests related to capital expenditures
  - A standardized template for revenue-sharing and asset-use agreements
  - Methods to address excess facility capacity
  - Strategies to enhance collaboration with schools, government, and nonprofits
  - Ensuring uninterrupted transportation for McKinney-Vento and foster students
  - Best practices in facility management
  - A system to track qualitative and quantitative data to gauge success

- A framework to manage facility and transportation-related debt
- Vendor purchasing and maintenance recommendations
- Summary and recommendations from facility assessments
- Participation options for schools at different service levels
- A requirement for a single enrollment system for all students
- Allowable Additional Recommendations
  - The plan may also include:
    - Governance structure for a collaborative school system
    - Central-office efficiencies
    - Future Referendum planning
    - School consolidation
    - Expansion of high-quality academic programs
    - Uniform performance frameworks
    - Special education policy recommendations

Sec. 5: Charter Authorization

- From July 1 to December 31, 2025, no new charter may be approved within the school city boundaries unless:
  - The Indianapolis Charter School Board approves it, and
  - The mayor of Indianapolis grants the charter.
  - (Pre-April 1, 2025 submissions are exempt.)

Sec. 6-7: Final Deliverable and Expiration

The Indianapolis Local Education must submit its full facilities and transportation implementation plan by December 31, 2025, to:

- Secretary of Education
- State Board of Education
- Mayor of Indianapolis
- Legislative Council
- The chapter expires March 30, 2026.

# Executive Summary

The Indianapolis Local Education Alliance (ILEA) was created by House Enrolled Act 1515 (2025) as a city-led advisory body charged with developing recommendations to improve coordination, efficiency, and equity across all public schools specifically Indianapolis Public Schools (IPS) and charter schools operating within the IPS district boundaries. Chaired by the Mayor of Indianapolis Joe Hogsett, the nine-member Alliance includes representatives from city leadership, IPS, parents, business, and community organizations, and is statutorily required to deliver its facilities and transportation recommendations by December 31, 2025.

## Charge to the Indianapolis Local Education Alliance by the Indiana General Assembly

### 1. Facilities and Transportation

- “Develop a facilities and transportation implementation plan...”
  - “Best practices in facilities management and operation”
  - “A system to track qualitative and quantitative data to gauge the success of the plan”
  - “Ensures the provision of uninterrupted transportation services for homeless students or students in foster care as provided by the McKinney-Vento Homeless Education Assistance Improvements Act (42 U.S.C. 11431 et seq.)”

- Sec. 4: “The alliance may...include the following recommendations in the implementation plan...special education policies”

## 2. Governance

- Sec.4: “The alliance may...include the following recommendations in the implementation plan:
  - “the governance structure for a collaborative school system”
  - “uniform school performance frameworks for all schools within the collaborative school system”
  - “an approach in which schools located within the geographic boundaries of the school city will participate or opt into participation in the implementation plan and at what service level the schools may participate or opt in”

## 3. Statutory Submission Requirements

- “Not later than December 31, 2025, the alliance shall submit the school facilities and transportation plan to the following:
  - (1) The secretary of education.
  - (2) The board.
  - (3) The mayor described in section 2(b)(2) of this chapter.
  - (4) The legislative council in an electronic format under IC 5-14-6”

## Where We’ve been

- 10 meetings and listening sessions
- 15 different presentations

- Over 14 hours of public comment
- Hundreds of citizens have engaged during the multiple meetings of the Indianapolis Local Education Alliance

## **Framing the Issue**

Within the IPS boundary, there has been a lack of decision-making coherence across different school types which has led to uneven experiences and opportunities for students and families. With the change in how local funding is distributed, we must build a more coherent system that maximizes efficient use of tax payer dollars, respects the decision-making rights of individual schools and systems, and, most importantly, creates the best conditions for student learning and success.

## **Public Input**

Throughout 2025, the Indianapolis Local Education Alliance hosted a series of public meetings, task force sessions, and listening events where stakeholders vocalized a range of views:

- Some educators and community members raised concerns that proposed governance changes could dilute the influence of the elected IPS board and weaken direct community representation.
- Advocacy groups and families supported finding collaborative solutions to persistent challenges, especially transportation gaps that disproportionately burden working families when bus access is inconsistent.

- Charter school leaders have urged that better access to facilities and transportation resources could unlock operational efficiencies

The Indianapolis Local Education Alliance met on December 17<sup>th</sup>, 2025, in the Public Assembly Room of the Indianapolis City County Building at 6:00 PM.

After additional public comment the Indianapolis Local Education Alliance voted on the attached recommendations. The vote was as follows:

Voting for: Barato Britt, Indianapolis Mayor Joe Hogsett, Indianapolis Public Schools Superintendent Dr. Aleesia Johnson, Indianapolis City/County Councilor Maggie Lewis, Toby McClamroch, Andrew Neal, Bart Peterson, Angela Smith-Jones.

Voting Against: Tina Ahlgreen

The Indianapolis Local Education Alliance conducted their work over ten different public meetings from June 2025 through December 2025, taking over 14 hours of public comment from hundreds of citizens over that time period and these recommendations are based on both the charge given to the Indianapolis Local Education Alliance by the Indiana General Assembly in H.E.A. 1515 and the input from those hours of public comment.

The Indianapolis Local Education Alliance appreciates the opportunity the Indiana General Assembly has provided to give recommendations on this important work.

# Final Recommendations of the Indianapolis Local Education Alliance

- I. **Indianapolis Public Education Corporation.** Create an independent agency known as the Indianapolis Public Education Corporation (the Corporation). The functions and responsibility of the Corporation will be as follows:
  1. Control the management and operations of buildings serving as public schools within the boundaries of the Indianapolis Public Schools District.<sup>1</sup>
  2. Lead and oversee the provision of transportation of students to and from public schools within the IPS District boundaries.
  3. Levy property taxes within the IPS District Boundaries. The collection and distribution of property taxes in Indiana is extremely complex and requires consultation with fiscal experts at the Indiana General Assembly. The Indianapolis Local Education Alliance wants to assure that a fair, equitable and efficient system is appropriately funded.
  4. Enforce accountability standards that are applicable to all public charter schools and traditional public schools within the IPS District boundaries. Create an Advisory Board to promote collaboration between authorizers, IPS, and the Corporation in the development and implementation of the unified performance accountability standards.
  5. Manage a unified enrollment system applicable to all public-school students within the jurisdiction of the Corporation.<sup>2</sup>

II. **Governance.** The Indianapolis Public Education Corporation will be led by a Board of Directors.

1. There will be nine members of the Board. All nine members will be appointed by the Mayor of Indianapolis. Three members must be current public charter school leaders. Three members must be currently serving members of the Indianapolis Board of School Commissioners. The final three members should have expertise in areas such as facilities, management, capital planning, and transportation and logistics; or experience working with vulnerable student populations and communities. The mayor will designate the chair of the board. All members must reside in the IPS District. <sup>3</sup>
2. The terms of the members of the Board will be staggered with each member serving fixed terms. <sup>4</sup>

III. **Accountability:** Indianapolis Local Education Alliance recommends a single school performance framework across all public schools in the IPS District.

1. The framework should set clear expectations for school performance, be based on multiple measures (including state assessment outcomes, student discipline practices, and other key measures that are relevant to student success), and guide decisions for replication of instructional models that are achieving the best results for students – especially those who have been historically underserved throughout the system.
2. Implementation of the single school performance framework should focus on:
  - a. Developing measures based on both the Mayor’s Office of Education Innovation performance framework and the State’s final A-F accountability rules.

- b. A commitment across all sectors to use data from the performance framework to make decisions around closing chronically low-performing schools (after a transparent public process with adequate time provided for struggling schools to make improvements.)
- c. Developing metrics for the opening and closing of school facilities (i.e. physical condition of facility, number of enrolled students, deferred maintenance, regional and community analysis of need).

#### **IV. Unified System**

- 1. All public schools within the IPS District will be required to provide transportation to students within the IPS District attending their schools at a level established by the Corporation.
- 2. For purposes of public-school building reuse, the Corporation will ensure that facilities will be provided to all public charter schools, innovation network charter schools and IPS schools on an equitable basis.

**V. Schools as Local Education Agencies (LEAs):** IPS will continue to exist as an LEA as will all public charter schools. With the exception of the responsibilities assumed by the Corporation for facilities, transportation, and uniform accountability standards, the Board of School Commissioners for Indianapolis Public Schools will continue to provide direction for the operation of all district-run schools, as is currently the case, and the not-for-profit boards of all public charter schools will also remain in place with the same authority as is currently the case. The IPS Board of School Commissioners will continue in its current form with the current model of election of Board members.

#### **VI. Additional Key Recommendations**

1. Exempt the Indianapolis Public Schools District and all Public Charter Schools contained within from the Indiana Dollar Law. (Indiana Code 20-26-7.1-4).<sup>5</sup>
2. The only authorizers of new charter schools to be located inside the IPS District boundaries will be the Mayor of Indianapolis through OEI and the Indiana State Charter School Board. Existing charter agreements authorized through other entities may operate until the end of the current contract terms. The IPS Board of School Commissioners may also choose to authorize schools through application to the Indiana State Board of Education.<sup>6</sup>
3. The Indianapolis Local Education Alliance asks the Indiana General Assembly for full funding of Special Education within the IPS district boundaries and suggests the need for additional work to determine the best model for equitable access and service for the Special Education needs across all public-school types within the district boundaries. IPS currently provides full special education funding at a \$24 million annual deficit.
4. A document will be attached to our final recommendations that details the multiple legal issues that will need consideration and review at the Indiana General Assembly.

---

<sup>1</sup> See legal memo attachment

<sup>2</sup> Currently performed by Enroll Indy.

<sup>3</sup> All elements of the new board structure to be defined in statute.

<sup>4</sup> All elements of the new board timing to be defined in statute.

<sup>5</sup> Requires action by the Indiana General Assembly to create this exemption

<sup>6</sup> The Indianapolis Public Schools Board of Commissioners has indicated they will pursue charter authorizing authority from the State of Indiana

## **Legal Considerations/Limitations to the Models by the Indianapolis Local Education Alliance<sup>1</sup>**

### **I. Transportation Services**

#### **a. Change in Transportation Services**

Indiana Code chapter 20-27-13 applies to all school corporations and expressly states what transportation must be provided and the process that schools generally must use when there are certain changes to transportation.

#### **b. Ownership of Busses**

Many school busses are leased by school corporations (and perhaps charter schools) instead of purchased. A due diligence piece in executing any plan is to evaluate whether buses are owned or leased and whether title or the lease can be transferred or assigned.

#### **c. Existing Contracts with Transportation Providers**

Should charter schools or Indianapolis Public Schools ("IPS") utilize contracts with independent transportation providers, then these should be examined as they may be a hinderance to any transition plan or require costly termination payments.

#### **d. Operations Fund Monies**

In 2017 and 2018 through legislation, the General Assembly merged property-tax based levies into one—the newly-created Operations Fund—effective January 1, 2019. Three of those prior property-tax levies now merged into the Operations Fund are the (i) capital project fund, (ii) transportation fund, and (iii) bus replacement fund. *See* Public Law 244-2017 (H.E.A. 1009 (2017)); Public Law 140-2018 (H.E.A. 1167 (2018)). Indiana Code limits uses of operations fund monies to capital project plan expenditures, transportation costs, bus replacement, overhead and

---

<sup>1</sup> The information provided is offered for general informal purposes only. It is not, and should not be construed as, legal advice. The reader is encouraged to seek and obtain legal advice on these issues.

operational expenditures, historical societies or art associations, and for playgrounds expenditures. IND. CODE § 20-40-18-5.

**e. Transfer of Staff**

Transferring staff from IPS to another entity may require approval or input from any exclusive representative of established bargaining units of classified (or non-certificated) employees. Similarly, transfer of employees and any State retirement plan benefits may require statutory amendment to avoid adversely impacting retirement benefits of the transferred employees.

**II. Facilities**

**a. Overview**

The Indiana Constitution limits the ability of political subdivisions (including school corporations) to issue debt. Many school corporations utilize the process under Indiana Code article 20-47 or 20-48. Likewise, charter schools can obtain financing through other entities (the Indiana Bond Bank, Indiana Finance Authority, or the local economic development commission) that often includes mortgages on the property. Depending on the process used, transfer of title may not be possible by IPS or the charter school as title in the property may be held by another, private entity, subject to agreements with private financial institutions, or mortgages held by private financial institutions may prohibit transfer of title. Statutory changes may not achieve the desired outcome because the Contract Clauses of both the United States and Indiana Constitutions generally protect the contract rights of non-school entities and financial institutions.

**b. Capital Projects Referendum**

IPS obtained voter-approved capital projects referendum, which added a levy for IPS buildings beyond the State constitutional property tax levy limits. It is unclear if legal authorization exist to divert referendum funds for a broader purpose to benefit charter schools, when voters may not have approved the diversion at the ballot.

**c. Transfer of Staff**

Like the transfer of transportation staff, any transfer of facilities staff may require input or approval from the exclusive representative for any classified staff and statutory changes for pension or retirement plan purposes.

### **III. Governance Model**

Modifications of the authority structures for non-Innovation Network Charter schools (*e.g.*, Innovation Charter Schools and Independent Charter Schools) may require additional analysis. Presently, charter schools, and their authorizers, have established agreements between themselves and the State. Through Section 3 of Public Law 189-2023 (S.E.A. 391 (2023)), Indiana Code § 20-24-4-1(a)(5)(A) was amended to allow charters to be approved for up to 15 years (previously it was 7 years). To the extent that the new governance model impacts these contractual rights, legal analysis may be required.

# Conclusion

The Indianapolis Local Education Alliance’s work represents a comprehensive effort to rethink how school facilities, transportation, governance, and accountability can function in a complex urban environment with multiple public-school sectors. The Alliance’s final recommendations adopt innovative governance proposals and emphasize collaboration. The path forward depends on legislative action in early 2026 and the continued engagement of educators, families, and city leaders in shaping Indianapolis’s educational landscape.

# Public Meetings

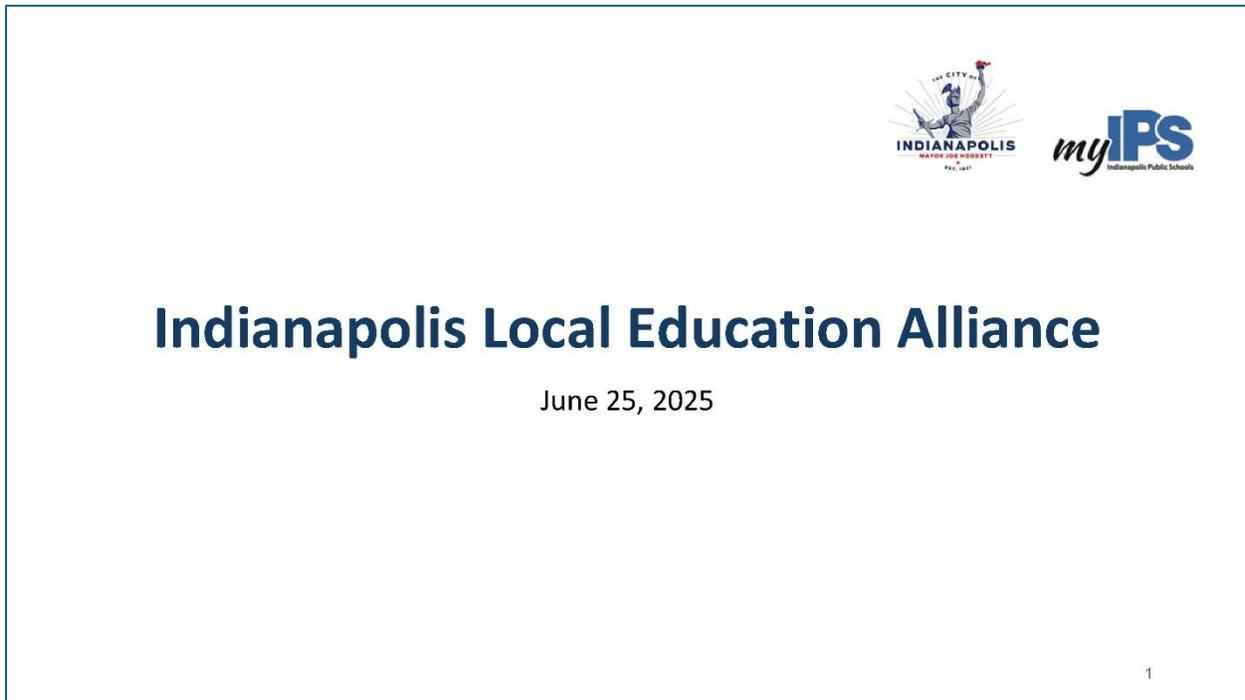

The public meetings conducted by the Indianapolis Local Education Alliance follow a structured, transparent format designed to ensure meaningful community engagement and informed decision-making. Each meeting typically includes an overview of the agenda, presentations of relevant data or proposals, opportunities for questions and discussion among Alliance members, and a designated period for public comment. While the Alliance operates independently and is not subject to all provisions of Indiana's Open Door Law, the meeting at which the facilities and transportation implementation plan is adopted must be open to the public. Over the course of Alliance's work, it met publicly ten times with opportunities of public comment available.

Public comment and community feedback were facilitated through a structured process designed to ensure fairness, accessibility, and orderly participation in Alliance meetings. Individuals wishing to speak signed up in advance, either to comment in person or to submit written remarks online, during the 48-hour window beginning at noon two business days before the meeting and closing at noon on the meeting day. In-person comments were limited to one to three minutes, which itself was adjusted depending on the agenda. Meeting staff prior to public meetings attempted to notify speakers of any changes to allotted time. Those unable to complete their statements during the meeting were given alternative methods by submitting the full text online, ensuring their feedback is still captured. Alliance members receive online comments prior to each meeting, and submissions are posted publicly in the days following.

# Wednesday, June 25, 2025 Public Meeting

The first full meeting of the Indianapolis Local Education Alliance was held on Wednesday, June 25<sup>th</sup>, 2025, and was a general organization meeting held at the City-Council Building, Public Assembly Room from 6:00 P.M. – 7:21 P.M with 30 minutes committed to public comment. In the meeting, the Alliance did an overview of the Indianapolis Local Education Alliance, Education Policy Context and Current Landscape, and Support/Data Collection. Of attendance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Andrew Neal, Barato Britt, Maggie A. Lewis, Tobin McClamroch, Bart Peterson, Angela Smith-Jones.

## Presentation – Wednesday, June 25, 2025

# Welcome and Opening Remarks

2

## Agenda

- Introductions
- Overview of the ILEA
  - Responsibilities and Timeline
- Historical Context
- Support and Data Collection
- Public Comment (30 minutes)
- Closing and Next Steps

3

## Alliance Members

- **Mayor Joe Hogsett**, Chair
- **Dr. Aleesia Johnson**, Superintendent, Indianapolis Public Schools
- **Tina Ahlgren**, Teacher, H.L. Harshman Middle School (IPS district-managed school parent appointee)
- **Barato Britt**, President/CEO, Edna Martin Christian Center (IPS board president appointee)
- **Maggie A. Lewis**, Majority Leader, City-County Council; CEO, Boys & Girls Clubs (mayoral appointee)
- **Tobin McClamroch**, Managing Partner, Dentons Bingham Greenebaum (mayoral appointee)
- **Andrew Neal**, CEO, Outreach Indiana (IPS innovation school parent appointee)
- **Bart Peterson**, Former Mayor of Indianapolis (mayoral appointee)
- **Angela Smith-Jones**, Associate VP for State Relations, Indiana University (mayoral appointee)

4

## ILEA Responsibilities and Timeline

Established by the Indiana General Assembly in House Enrolled Act 1515 in 2025, the ILEA shall:

- Conduct facilities assessments of IPS and charter school buildings
- Create an asset management plan that includes debt management
- Provide recommendations for facility utilization and excess capacity
- Identify a capital levy approval process and templates for revenue-sharing and asset-use agreements
- Establish a facilities and transportation implementation plan to promote collaboration and efficiency that also serves homeless/foster youth, student extracurricular needs, etc.
- Ensure cross-sector collaboration across schools, city agencies, and nonprofits.
- Create a procurement strategy for vendor systems and maintenance

5

## **ILEA Responsibilities and Timeline**

In the implementation plan, the ILEA may consider:

- Governance structure
- Referendum planning
- High-quality program expansion
- Special education coordination
- Central office efficiency
- School consolidation
- Unified accountability

Additionally, the law states that only the mayor's office may authorize new charter schools within the IPS district boundary from July through December 2025.

Final report and implementation plan must be submitted by December 31, 2025, to:

- Indiana General Assembly
- Indiana Secretary of Education
- IPS Board of Commissioners
- Mayor's Office

6

## **Education Policy Context and Current Landscape**

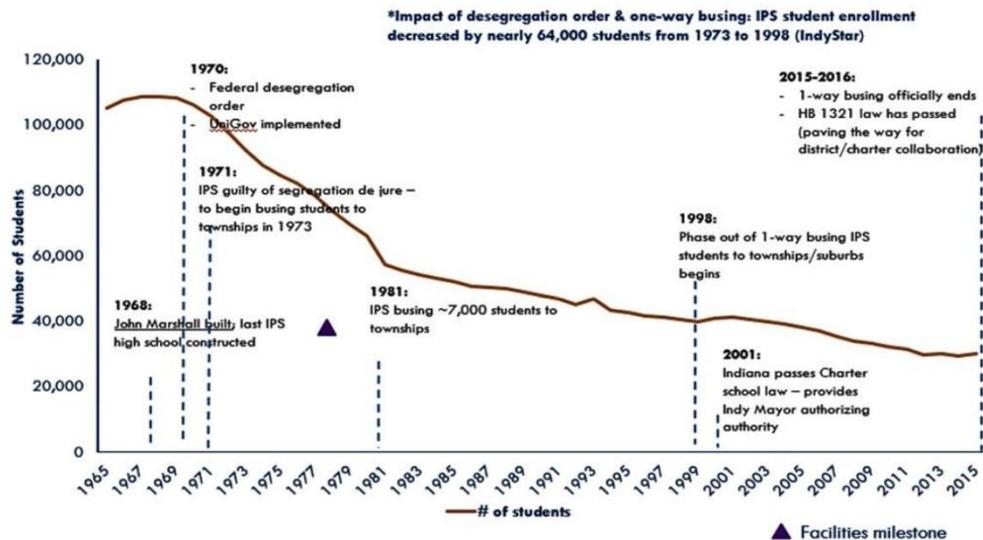

7

## Policy Shaping Indianapolis

- **1970:** “Unigov” unified of city-county government but intentionally left school districts separate.
- **1973:** Federal court order to desegregate IPS. The busing primarily involved black students being transported to neighboring township districts within Marion County.
- **2001:** Charter school law passes; Mayor of Indianapolis is given authorizing power.
- **2011:** SBOE takes over operations of Arlington HS, Manual HS, Howe HS & Emma Donnan MS and assigns a “lead partner” to George Washington HS and Broad Ripple HS.
- **2015:** Indiana General Assembly enacts House Bill 1009, allowing the creation of Innovation Network Schools. This legislation enables school corporations statewide to establish such schools. This serves as a response to state takeover and by 2020 essentially ends the practice in Indianapolis.
- **2016:** Last year of mandatory one-way bussing. IPS expands pathways to become Innovation Network Schools including restart, charter partnerships, and conversion of existing district schools.
- **2022:** 25 Innovation Network Schools exist within IPS. Nearly a third of students attend an innovation school.
- **2025:** IPS fully implements the Rebuilding Stronger initiative. The Indiana General Assembly passes substantial property tax reform and creates the Indianapolis Local Education Alliance.

8

## Policy Shaping Indianapolis - Timeline

9

## Overview of Public Schools within IPS Boundary

- 42,000 **public school students**
- **Transportation:** Schools provide thousands of bus miles/day, along with car, walking, and public transit models.
- **School types:** Traditional, IPS Innovation, Innovation Charter, Independent Charter
- **Specialized Programs:** IB, Montessori, STEM, Dual Language, Early College, preschool, Life skills, Performing Arts, CTE, Recovery High School etc.
- **Demographics:** 85% students of color, 30% English Learners
- **Buildings:** 67 facilities operated by IPS, including Innovation Network; 29 facilities owned or leased by independent charter schools.

10

## School Types and Governance Structures

- **IPS Operated:** Directly operated by IPS and governed by the elected IPS Board. Part of IPS LEA. Also called traditional public schools.
- **IPS Innovation:** Semi-autonomous schools (e.g., Edison) that remain in the IPS LEA. Governed by independent nonprofit boards and operated by external partners.
- **Innovation Charter:** Fully autonomous public charter schools (e.g., KIPP, Herron, Adelante) with external authorizers (OEI, ICSB, Education One). Governed by independent boards, outside IPS LEA. May contract with IPS for services, but have an innovation agreement with IPS.
- **Independent Charter:** Fully autonomous public charter schools (e.g., PSOE, ILH, IMSA) with external authorizers (OEI, ICSB, Education One). Governed by independent boards, no affiliation with IPS.

11

## Total Public School Enrollment Across the IPS Boundary Over Time

12

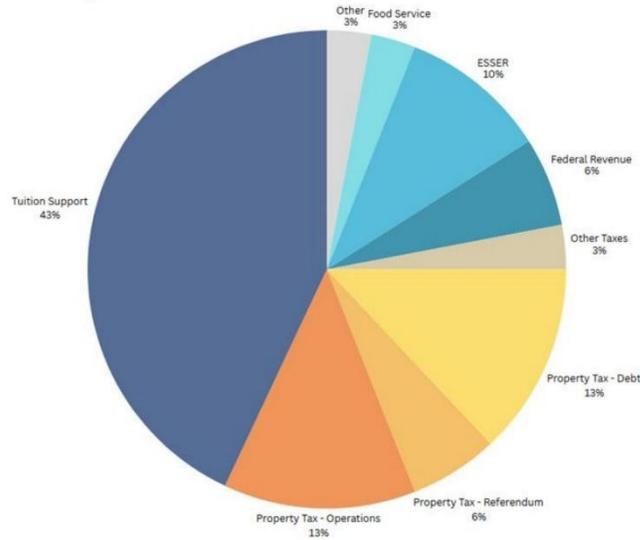

## How Indiana Funds Public Schools

While state funding makes up the vast majority of Indiana's public school funding, federal and local funding streams also support education:

- **Federal funding:** Allocated from the U.S. Department of Education primarily through Title Grants that focus on staff quality and support certain student populations, such as those experiencing poverty, English learners, and students with disabilities.
- **State dollars:** Income and sales taxes, cover basic classroom costs based on student enrollment and includes a Complexity Index adjustment for students facing higher needs, such as those experiencing poverty.
- **Local property taxes:** Supports transportation, building maintenance, safety, and capital needs. Affected by rate caps and increased deductions that can limit revenue growth.

13

## IPS – Funding Breakdown

Property taxes and local taxes total 33% of SY2024 Revenue

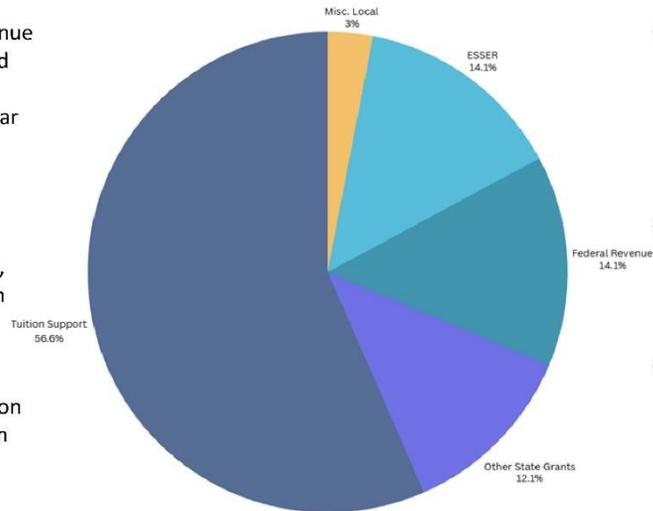

- State Tuition Support totaled 43% of IPS revenue in SY 2024
- Property Taxes and other local taxes totaled 35% of IPS revenue in SY 2024
- Federal Funding and other revenue sources totaled 22% of IPS revenue in SY 2024
- ESSER Funding is a one-time grant revenue source and cannot support ongoing operations

14

## Charter School – Funding Breakdown

This chart shows revenue for a mayor-sponsored charter school that is demographically similar to the district.

Beginning in June 2025, some charter schools in Marion County began receiving a portion of local property tax revenue from the Marion County school district in which the the students they serve reside.

- State Tuition Support totaled 56% of school revenue in SY 2024
- Other State Grants, including the \$1,400 per pupil Charter School Grant totaled 12% of revenue in SY 2024
- Federal Funding totaled 28% of the school's revenue in SY 2024
- ESSER Funding is a one-time grant revenue source that has now expired; cannot support ongoing operations

15

## Support and Data Collection

16

### Internal Support: IPS and OEI Staff

- **Shaina Cavazos**, Director of the Mayor's Office of Education Innovation
- **Rachel Santos**, Director of External Affairs, IPS
- **William Murphy**, Chief Operations Officer, IPS
- **Dan Parker**, Chief of Staff, Mayor's Office
- **Andrew Strobe**, Deputy Superintendent, IPS
- **Weston Young**, Chief Financial Officer, IPS

Staff assists in areas including meeting preparation, communications, contract drafting, vendor selection, community engagement, and data collection.

17

## Data Collection

Unless data is already available, requests were sent to all public charter schools in the IPS boundary. Data on IPS-operated schools is being compiled.

Focus areas include:

- Facility condition and specifications
- Building utilization and enrollment
- Transportation systems, routes and spending
- Details on instructional personnel and salaries

18

## External Support

Staff may seek technical assistance from external consultants to add capacity and aid in high-quality analysis. Role includes:

- Aggregating facility assessment data
- Analyzing transportation data and supporting recommendations for transportation system modeling
- Engaging stakeholders and solicit feedback
- Synthesizing data and information for preparing draft and final recommendations

Next steps would include issuing a Request for Qualifications (RFQ) and exploring existing contracts as opportunities for efficiency and expediency.

19

# Public Comment

20

## Public Comment Procedure

For everyone to have a fair chance to speak and be heard, please observe the following rules:

**First**, each speaker will be limited to 1.5 minutes. When the timer sounds, please conclude your statement.

**Second**, please ensure comments reasonably relate to the work of the ILEA and address the alliance as a whole.

**Finally**, please avoid repeating what a prior speaker has said so that we may hear from as many people as possible.

21

## Closing and Next Steps

22

### Tentative ILEA Roadmap

- **July/August:** Review current landscape, identify priority data
- **September/October:** Issues deep dive to identify potential challenges and recommendations
- **November/December:** Continued analysis and refinement of recommendations
- **December:** ILEA adopts final recommendations. Plan submitted to state and local leaders by 12/31.

23

## Closing

Next steps include:

- Review and finalize incoming data from schools
- Begin engaging external support

Next Meeting:

- 6 p.m., July 23, 2025.
- Details and upcoming meeting schedule available at <https://www.indy.gov/activity/indianapolis-local-education-alliance>
- Contact [ILEA@Indy.gov](mailto:ILEA@Indy.gov) or [IPSExternalAffairs@myips.org](mailto:IPSExternalAffairs@myips.org) with questions or comments.

24

## Wednesday, July 23, 2025, Public Meeting

The second full meeting of the Indianapolis Local Education Alliance was held on Wednesday, July 23<sup>rd</sup>, 2025, and was a general organization meeting held at the City-Council Building, Public Assembly Room from 6:00 P.M. – 7:44 P.M with 30 minutes committed to public comment. Of attendance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Barato Britt, Maggie A. Lewis, Tobin McClamroch, and Bart Peterson.

In the meeting, the Alliance first received a project management update with the addition of Michael O'Connor serving as project manager. His support included development of components for facility and transportation plan, coordination of meetings and materials, and engaging any other necessary vendors. Next, the Alliance received a presentation from Shaina Cavazos, Director of the Office of Education Innovation, on School Type, Enrollment, Academic, and Demographic Data. Finally, the Alliance received a presentation from Andrew

Strope, Deputy Superintendent at Indianapolis Public Schools and Jason O’Neil from Policy Analytics on Innovation Partnerships, Geographic, and Population Data.

## **Presentation – Wednesday, July 23, 2025**

# **Indianapolis Local Education Alliance**

July 23, 2025

## Agenda

- Welcome and Introductions
- Project management update
- Data update
- School Finance presentation
  - Discussion
- Public Comment
- Next Steps and Closing

2

## Alliance Members

- **Mayor Joe Hogsett**, Chair
- **Dr. Aleesia Johnson**, Superintendent, Indianapolis Public Schools
- **Tina Ahlgren**, Teacher, H.L. Harshman Middle School (IPS district-managed school parent appointee)
- **Barato Britt**, President/CEO, Edna Martin Christian Center (IPS board president appointee)
- **Maggie A. Lewis**, Majority Leader, City-County Council; CEO, Boys & Girls Clubs (mayoral appointee)
- **Tobin McClamroch**, Managing Partner, Dentons Bingham Greenebaum (mayoral appointee)
- **Andrew Neal**, CEO, Outreach Indiana (IPS innovation school parent appointee)
- **Bart Peterson**, Former Mayor of Indianapolis (mayoral appointee)
- **Angela Smith-Jones**, Associate VP for State Relations, Indiana University (mayoral appointee)

3

## Review: ILEA Responsibilities and Timeline

Established by state law in 2025, the Indianapolis Local Education Alliance (ILEA) is tasked with creating a comprehensive plan for Indianapolis public schools by a December 31, 2025, deadline.

Main responsibilities include:

- Assessing all IPS and charter school facilities
- Creating an asset management plan
- Establishing a more efficient and collaborative transportation system
- Developing templates for funding and revenue-sharing between the sectors.

The alliance may also consider broader issues like school performance and governance structures. From July through December 2025, the Mayor's Office has exclusive authority to authorize new charter schools within IPS boundaries. The ILEA's final report is due to state and local leaders at the end of the year.

4

## Project Management Update

**Michael O'Connor** has been engaged to serve as project manager

- Current Principal with Bose Public Affairs Group.
- President of the IPS Board of School Commissioners from 2018 to 2020
- Chief Deputy Mayor and Chief of Staff for the City of Indianapolis from 2000-2004.

**Support** will include development of components for facility and transportation plan, coordination of meetings and materials, engaging of any other necessary vendors.

5

## Data Update

- **School Landscape & Enrollment:**
  - A breakdown of all **99 public schools** by type (e.g., Direct Managed, Innovation, Charter) and governance structure.
  - Enrollment for 2024-25 and trends over past five years by school type and grade level.
- **Student Demographics:**
  - Demographic data for all schools, including breakdowns by race/ethnicity, Free/Reduced Lunch (FRL) eligibility, English Language Learner (ELL), and Special Education (SPED) status.
  - Trends in demographic enrollment over the last five years.
- **Academic Performance:**
  - Includes **ILEARN, IREAD, SAT**, graduation rates, and chronic absenteeism.
  - Performance data disaggregated by student subgroups
- **Systems & Geographic Context:**
  - Details on **IPS Innovation Partnerships**, including in-kind services.
  - Data on population trends, birth rates, and housing growth, plus a **geographic map** of school locations to inform future planning.

6

## Questions?

7

# School Finance Overview

8

## How Indiana Public Schools are Funded Today

While state funding makes up the vast majority of Indiana's public school funding, federal and local funding streams also support education:

- **Federal funding:** Allocated from the U.S. Department of Education primarily through Title Grants that focus on staff quality and support certain student populations, such as those experiencing poverty, English learners, and students with disabilities.
- **State dollars:** Income and sales taxes, cover basic classroom costs based on student enrollment and includes a Complexity Index adjustment for students facing higher needs, such as those experiencing poverty.
- **Local property taxes:** Supports transportation, building maintenance, safety, and capital needs. Affected by rate caps and increased deductions that can limit revenue growth.

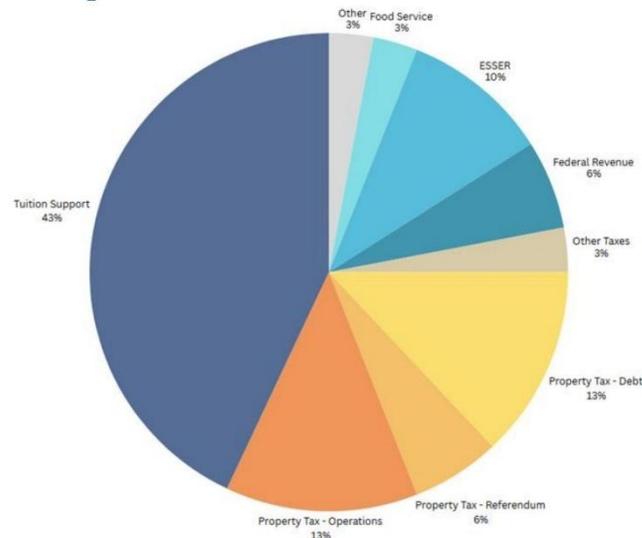

9

## State Funding – Defining Terms

- **Tuition Support:** The primary source of state funding for schools, based on student enrollment. This is often referred to as the "per-pupil" amount.
- **Complexity Grant:** Additional state funding provided to schools to support students from low-income households.
- **Education Fund:** The Education Fund is predominately classroom-level expenditures, such as teacher salaries, and is funded through state tuition support and federal grant funds.
- **Referendum:** A local ballot measure that allows school districts to ask voters for additional property tax revenue, either for operating expenses or capital projects.
- **Complexity Index:** The base amount is then multiplied by a "complexity index" for each student who qualifies for free or reduced-price lunch, providing additional funding for those students.
- **Charter School Grant:** Charter schools receive an additional per-pupil grant from the state to help cover operational and facility costs, as they do not have the ability to raise local property tax revenue.

10

## IPS – Funding Breakdown

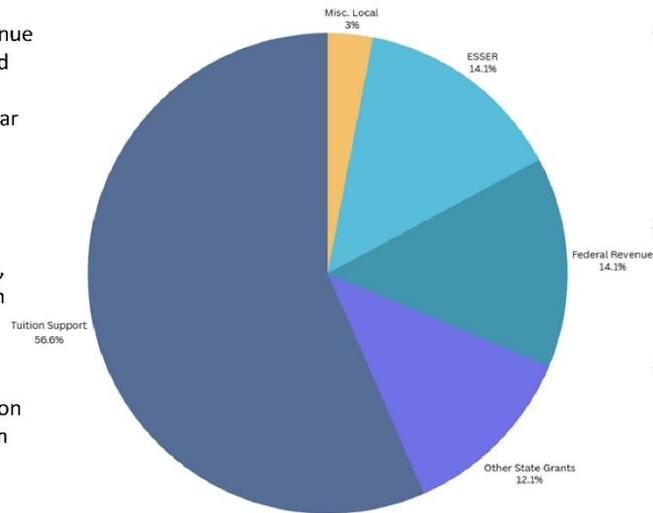

- State Tuition Support totaled 43% of IPS revenue in SY 2024
- Property Taxes and other local taxes totaled 35% of IPS revenue in SY 2024
- Federal Funding and other revenue sources totaled 22% of IPS revenue in SY 2024
- ESSER Funding is a one-time grant revenue source and cannot support ongoing operations

11

## Charter School – Funding Breakdown

This chart shows revenue for a mayor-sponsored charter school that is demographically similar to the district.

Beginning in June 2025, some charter schools in Marion County began receiving a portion of local property tax revenue from the Marion County school district in which the students they serve reside.

- State Tuition Support totaled 56% of school revenue in SY 2024
- Other State Grants, including the \$1,400 per pupil Charter School Grant totaled 12% of revenue in SY 2024
- Federal Funding totaled 28% of the school's revenue in SY 2024
- ESSER Funding is a one-time grant revenue source that has now expired; cannot support ongoing operations

12

## Property Taxes and School Funding - Overview

- **Pre-2008:** Schools relied heavily on local property taxes for their general operating funds.
- **2008 Property Tax Caps:** The state implemented constitutional caps on property taxes, significantly limiting local funding for schools.
- **Shift to State Funding:** To make up for the loss, the state shifted to a system where the majority of school funding comes from state sales and income taxes, distributed through a complex formula.
- **The Rise of Choice:** The expansion of charter schools and the creation of the Innovation Network model introduced new complexities to the funding landscape.
- **Referendum:** For IPS, referendums have been a critical tool to supplement the Operations Fund and to fund major capital projects, like the Rebuilding Stronger initiative. The current 8-year operating referendum began 2018 and expires in 2026.
- **Funding Disparity:** The inability of charter schools to access local revenue streams has been a central point of debate and is a key reason for the creation of the ILEA.

13

## Local Funding – Defining Terms and Concepts

- **Operations Fund:** This is the primary bucket of funding for the physical infrastructure of our schools—the buildings and the buses.
- **Assessed value:** The dollar value assigned to a property by the local government for taxation purposes. Assessed value determines how much tax revenue a school district can collect from local property taxes. A higher assessed value typically means more potential funding for schools—unless limited by property tax caps or circuit breakers.
- **Property tax rate:** The amount of tax levied per \$100 of assessed property value. It's expressed in dollars per \$100 of value and varies by taxing district. School districts set tax rates to generate funding for specific needs, like transportation or capital projects. These rates, combined with assessed values, determine total property tax revenue. Some rates—like those approved by referendum—can exceed normal limits.
- **Property tax caps:** The constitutional limits on how much property owners can be taxed, based on the type of property.
- **Circuit breaker:** The tool used to enforce property tax caps. When property taxes exceed these limits, the excess is not collected. This results in lost revenue for schools and other local units of government.

14

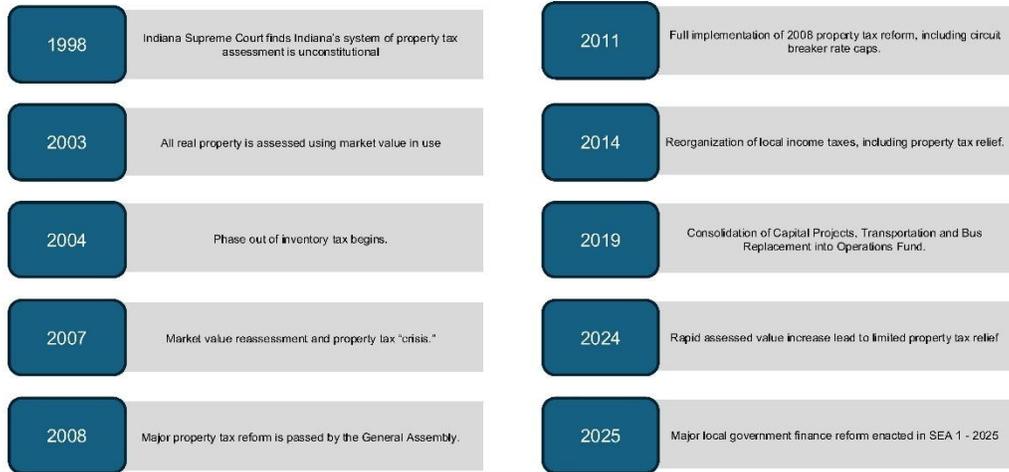

## Circuit Breaker Rate Caps

Cap	Description
1%	Homestead Property
2%	Rental Residential; Long term care; farm land
3%	Non-residential

- Circuit breaker caps apply to the gross assessed value (market value) of the property.
- Taxes levied in excess of the cap are not paid by the taxpayer (and not received by taxing units).
- Debt service funds are “protected” from the circuit breaker caps
- Referendum funds are “outside” of the circuit breaker caps.

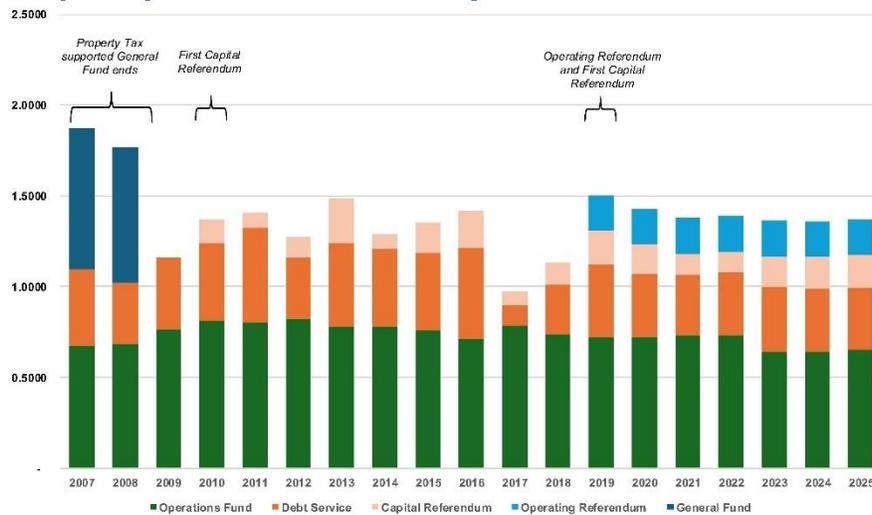

15

## Timeline of Property Tax Policy Change

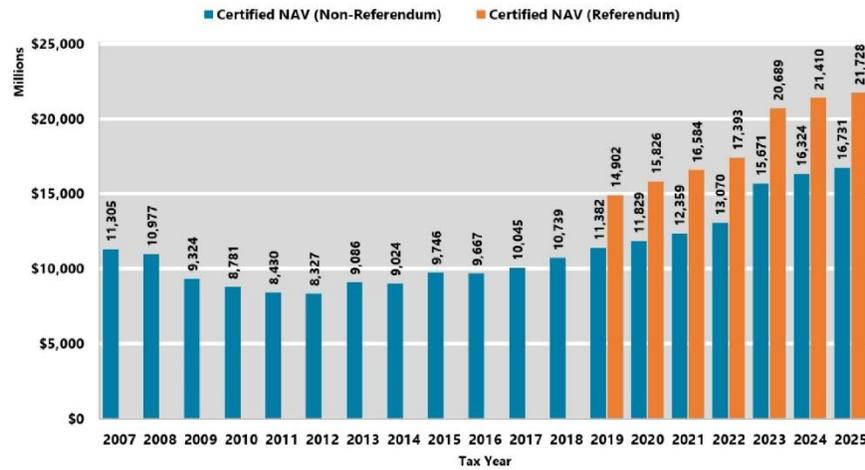

16

## IPS Property Tax Rate History

17

## IPS Assessed Value History

18

## SEA 1 -2025 Overview & Implications

- Introduces a property tax credit for homeowners, equal to 10% of property tax liability, up to \$300 (unfunded).
- Scales the supplemental homestead deduction to 67% by 2031.
- Introduces a non-homestead residential deduction of 33%.
- Exempts certain depreciable personal property from assessment.
- Restructures the local income tax, beginning in CY 2028.
- Allocates operations fund dollars to charter schools on a per student basis.

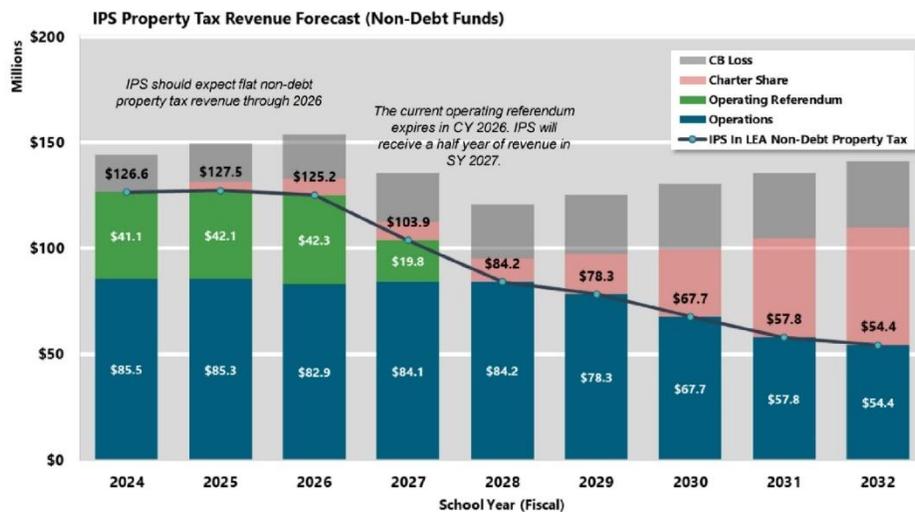

19

## SEA 1 -2025 Overview & Implications

1. Taxing units should expect reduced property tax revenues (compared to baseline) due to the homestead credit and new deductions (~ \$5M in 2026 per LSA).
2. Due to tax base restructuring, future operating referenda will require higher tax rates to yield current levels of revenue.
3. As SEA 1 is fully implemented, future property tax revenue growth will be largely dependent on tax base growth.
4. The allocation of operations fund revenue to charter schools is a marked increase over prior law.

20

## IPS Property Tax Revenue Forecast

21

## Looking ahead

- Recent legislation will begin to allow charter schools to receive a share of local property tax revenue, including referendum funds.
- The ILEA is charged with developing the "how"—the specific mechanisms and agreements for this new era of shared funding.
- This includes:
  - Creating templates for revenue-sharing agreements.
  - Developing a capital levy approval process.
  - Ensuring that this new system is implemented in a way that is equitable, efficient, and benefits all students.

22

## Discussion

23

## Public Comment Procedure

For everyone to have a fair chance to speak and be heard, please observe the following rules:

**First**, each speaker will be limited to **1.5** minutes. When the timer sounds, please conclude your statement.

**Second**, please ensure comments reasonably relate to the work of the ILEA and address the alliance as a whole.

**Finally**, please avoid repeating what a prior speaker has said so that we may hear from as many people as possible.

24

## Public Comment

25

## Next Steps

26

### Tentative ILEA Roadmap

- **July/August:** Review current landscape, identify priority data around academics, transportation, facilities, etc.
- **September/October:** Issues deep dive to identify potential challenges and consider draft recommendations
- **November/December:** Continued analysis and refinement of recommendations
- **December:** ILEA adopts final recommendations. Plan submitted to state and local leaders by 12/31.

27

## Closing

Next steps include:

- Preparing transportation and facility data

Next Meeting:

- 6 p.m., Aug 20, 2025.
- Details and upcoming meeting schedule available at <https://www.indy.gov/activity/indianapolis-local-education-alliance>
- Contact [ILEA@Indy.gov](mailto:ILEA@Indy.gov) or [IPSEExternalAffairs@myips.org](mailto:IPSEExternalAffairs@myips.org) with questions or comments.

28

## Wednesday, August 20, 2025, Public Meeting

The third full meeting of the Indianapolis Local Education Alliance was held on Wednesday, August 20th, 2025, and was a general organization meeting held at Emma Donnan Elementary and Middle School, Scholar Center from 6:00 P.M. – 8:16 P.M with 30 minutes committed to public comment. Of attendance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, and Angela Smith-Jones.

This meeting was centered around the conversation of facilities. In the meeting, the Alliance first received an informational presentation on cross-collaboration from Eddie Rangel, Chief Executive Officer of Adelante Schools. Next, the Alliance received a presentation on facilities from Dr. Keeanna Warren, PhD, Purdue Polytechnic High Schools. Moreover, the Alliance received a presentation on facilities from Andy Seibert, Chief Executive Officer,

TogetherED. Finally, the Alliance received a presentation on facilities from Andrew Strobe and Weston Young, Chief Financial Officer, Indianapolis Public Schools.

## **Presentation – Wednesday, August 20, 2025**

# **Indianapolis Local Education Alliance**

August 20, 2025

## **Agenda**

- Welcome and Opening Remarks

 PURDUE POLYTECHNIC  
HIGH SCHOOLS

# About Us

---

## Why We Exist

We are here to give each student access to their *next giant leap*—whether that means earning admission to Purdue University or pursuing a different path that reflects their unique goals and aspirations. At PPHS, we set high expectations and provide meaningful opportunities so every student can build a future that excites them.

## How We Do It

We create relationship-driven schools where students are known, supported, and challenged. Our learning is personal, hands-on, and deeply connected to the real world—preparing students for successful independence beyond high school.

## Our Commitment

We offer access and a clear pathway to Purdue University. Every student is known, valued, and empowered to take ownership of their learning and their future.

# Our Schools

# ***PPHS Schweitzer Center at Englewood***

## **Facilities & Growth Overview**

---

### **Our Flagship Campus**

- Opened in the **2017–18 school year** at **The Union 525** in downtown Indianapolis with 150 freshmen.
- Outgrew the space at the **end of the first year**.
- **SY 2018–19 and 2019–20**: Operated on the 4th floor of **Circle Centre Mall** while awaiting permanent facility.
- **2020–21**: Moved into **PR Mallory Campus** as our long-term home.
- Now serve **630 students in grades 9–12**, with 99.52% residing in Marion County.

### **Multiple Buildings Supporting Students in a Vibrant, Partner-Rich Community**

- **Mallory Building** – 3029 E Washington St. | 53,154 SQFT | 25 classrooms (2nd & 3rd floors)
- **Bunker Building** – 3 Moore Ave. | 12,752 SQFT | 3 classrooms
- **Cornerstone Church** – 2837 E New York St. | 4,000 SQFT | 3 classrooms + 1 conference room

## Strength & Opportunities

---

- Embedded in a vibrant neighborhood with strong community engagement
- Character-rich, PPHS-branded building fostering strong student and family identity
- Seamless K–12 pathway with Paramount, including program collaborations
- Space designed for our unique learning model
- High transit access via IndyGo, with top student ridership and planned Blue Line
- Large lot with future expansion potential
- Scratch-cooking facilities for fresh meals
- Rich history and abundant natural light
- Fully equipped Makerspace, labs, and engineering facility with professional-grade tools for projects from design to large-scale builds
- State champion, nationally recognized robotics team and 20+ IHSAA sports

## Challenges & Constraints

---

- Facilities cost
- No ownership of primary property, limiting long-term investment
- Aging infrastructure requiring significant maintenance (including a new roof)
- No parking for staff, currently parking on a lot that needs remediation
- Limited parking for guests
- Located on busy East Washington Street with Indy go line under development
- No auditorium/gathering space; some classrooms undersized for 28+ students
- Indoor air quality issues and poor acoustics
- No on-site sports facilities
- Limited space for growth, with demand exceeding available capacity

# ***PPHS Broad Ripple***

## **Facilities & Growth Overview**

---

### **Broad Ripple Campus**

- **2019–20 and 2020–21 school years:** Located at **1405 Broad Ripple Avenue**, a two-story commercial building with limited classroom space.
- Began with **65 students in grades 9–10** and quickly outgrew the space.
- **2021–22 school year:** Operated across **two locations** — the original Broad Ripple site and the **Storefront Theatre of Indianapolis**, less than 2 miles apart — with students taking classes in both locations.
- **2022–23 school year:** Began using space on the **former Broad Ripple High School** campus at **1115 Broad Ripple Ave.**, occupying the **3rd floor** with 32 classrooms, an auxiliary gym, and a cafeteria.
- Now serve **about 220 students in grades 9–12**, with 96.26% of Broad Ripple students residing in Marion County.

### **Multiple Facilities and Resources Supporting Students**

- **Broad Ripple Building** – 123,721 SQFT | 3rd floor with 32 classrooms, auxiliary gym, and cafeteria
- Access to **shared athletic fields, gymnasiums, and track** through IPS

## Strength & Opportunities

---

- Limited access to sports facilities and a supportive neighborhood association
- IPS covers maintenance
- Space to grow and adapt programming
- Benefits from IPS's scale and systems, including expanded resources, purchasing power, and district-level operational support
- A fully equipped Makerspace and engineering labs provide students with professional-grade tools and space for large-scale projects like go-kart design, robotics, and mechanical builds.
- Growing IHSAA sports programs, including soccer, basketball, and track.

## Challenges & Constraints

---

- Shared facilities limit customization, impact scheduling, and require coordination with other school communities.
- Limited use of athletic facilities
- Building not designed for PPHS, creating layout inefficiencies.
- 3rd-floor location in an older building with no strong visual identity.
- Lacks PPHS branding (e.g., crimson lockers instead of school colors).
- Kitchen limited to warming only, not full cooking.
- Ongoing Wi-Fi, heating, and cooling issues.
- No ownership or full control over building use.
- Limited parking.
- Governance challenges for event and space usage.
- Classrooms and shared spaces need upgrades to meet modern learning standards.
- Notice of deficiency from OEI due to falling enrollment

# Facilities Goals & Priorities

---

- All students in Indianapolis have access to updated, high-quality spaces that meet their educational needs
- Increased access to shared spaces and sports facilities
- Updated, PPHS-branded campuses
- Opportunity to lease or purchase our facilities if it becomes available

***Thank you!!!***

## Agenda

Facility and  
Transportation Pilot  
Overview (HEA 1515)

Facility Funding for  
Charter Schools

Facility Context for  
Charter Schools

Overview of  
Strengths &  
Challenges

# Q&A

21

Established in 2025 through **HEA 1515**

Requires facilities assessments & long-term plan

Creates **Facilities Pilot + Transportation Pilot**

Built on collaboration: charter schools, community partners, non-public schools

**54** schools engaged

**21,650** students represented in the pilots

22

#### **Spring 2025 – Legislation Passed**

- HEA 1515 establishes ILEA
- IDOE begins designing pilot application process

#### **Summer/Fall 2025 – Pilot Development & Selection**

- IDOE released application due 8/15
- Schools and partners engaged to discuss transportation and facility assets and challenges
- Indianapolis-based application submitted
- IDOE will review and confirm recipients – October 2025

#### **Winter 2026 – Pilot Launch**

- Short and medium term collaboration and innovation pursued by pilot coalition

#### **2026–2027 – Ongoing Evaluation**

- Data collection on efficiency, cost savings, and student impact
- Mid-course adjustments informed by early results

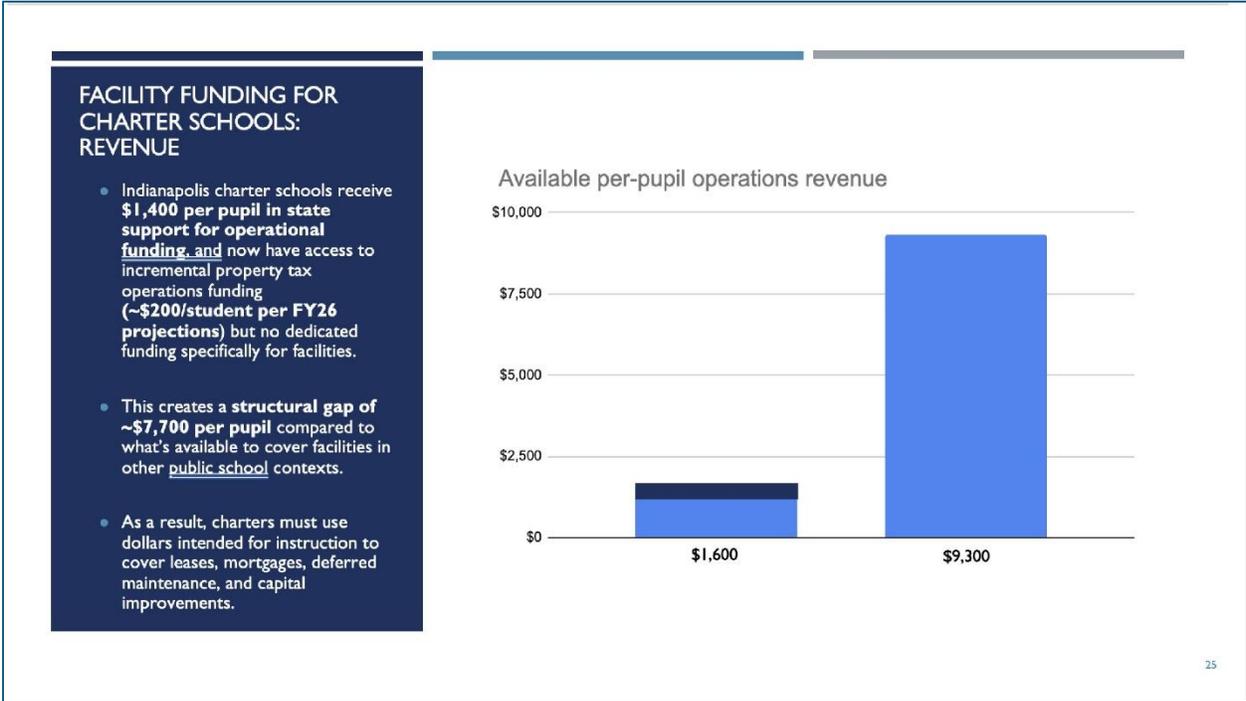

#### **2028 – Expansion / Policy Consideration**

- Legislative review of pilot outcomes
- Potential to sustain and/or expand efforts

23

<p><b>Charter School/Network-Owned</b></p> <ul style="list-style-type: none"> <li>• 23 schools (8 Innovation, 15 Independent)</li> <li>• Stability, equity, control</li> <li>• Debt and financing challenges</li> <li>• Full maintenance &amp; compliance responsibility</li> </ul>	<p><b>Lease Arrangements</b></p> <ul style="list-style-type: none"> <li>• Common entry point for new/small schools</li> <li>• Strong options if speed/flexible launches are a priority</li> <li>• No equity, subject to owner's plans/intended use</li> </ul>
<p><b>IPS-Owned (Innovation Network)</b></p> <ul style="list-style-type: none"> <li>• 67% of Innovation students (7,400) in IPS facilities</li> <li>• Established buildings with more space, higher quality common spaces (i.e. gyms, cafeterias,</li> <li>• Lower direct costs because of IPS in-kind supports</li> </ul>	<p><b>Co-Located/Shared</b></p> <ul style="list-style-type: none"> <li>• Space shared with IPS, other charter schools, or community partners</li> <li>• Cost-efficient, community integration</li> <li>• Scheduling conflicts, culture inconsistency, risk of displacement depending on ownership structure</li> </ul>

24

25

## FACILITY FUNDING FOR CHARTER SCHOOLS – EXPENSES

**Facility costs vary widely:** some charters report over \$3,000 per student annually.

Many carry **long-term lease obligations or significant debt service for owned buildings** that have to be addressed with general operations funds.

These obligations are **paid from the same per-pupil dollars** that must also fund teacher salaries, curriculum, and student supports.

Schools face substantially higher financing costs because of a lack of access to sustainable municipal bonds and an inability to issue referenda

26

### **Innovative and efficient utilization**

Charter schools have established and thrived within a diversity of facility contexts.

### **Flexibility**

Ability to right-size or expand capacity quickly to respond to students, families, and neighborhoods and to align with programmatic vision.

### **Creative partnerships**

Schools co-locate with community organizations, lease non-traditional spaces, and adapt facilities that deepen ties in neighborhoods across the city.

### **Long-term investments**

Many charters own their buildings, building stability and equity over time despite financing challenges.

## CHARTER SCHOOL FACILITY STRENGTHS

27

---

**No dedicated capital revenue**

Charters receive only \$1,400 per pupil in state operations funding and have incremental access to local property tax operations funding (~\$200/student). Today, there is a ~\$7,700/student gap comparative to other public school contexts.

**Financing constraints**

Charters face higher financing costs as a result of not having access to sustainable municipal bonds and not being able to issue referenda.

**High facility costs**

Due to structural challenges across various contexts, charter schools face high facility costs that require redirecting general operating funding that could be used to hire more teachers and staff and invest in high-quality programming for students.

**Deferred maintenance burden**

Most available or vacant buildings come with tremendous deferred maintenance needs—often requiring millions in repairs and upgrades before they can be safely used as schools.

## CHARTER SCHOOL FACILITY CHALLENGES

28

---

## PARTNERSHIP GRATITUDE Q&A

29

## **ILEA Q&A**

30

## **IPS Facilities**

31

## IPS Facilities Overview

August 20, 2025

32

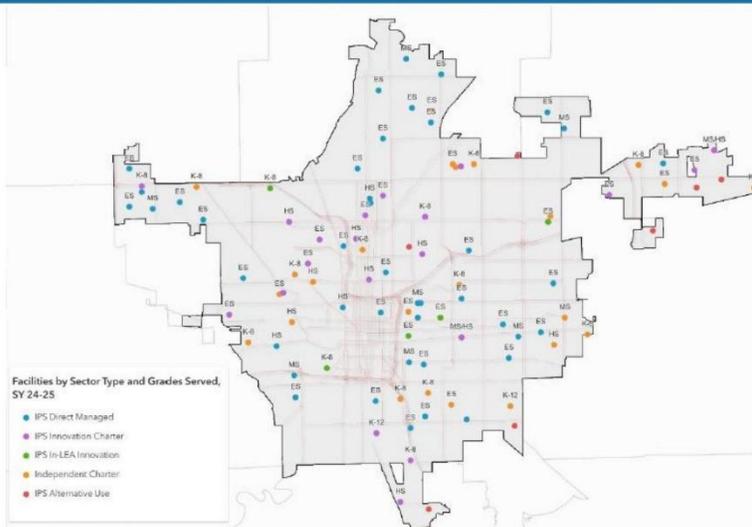

2

- Current Landscape
- Partnerships
- History
- Key Questions

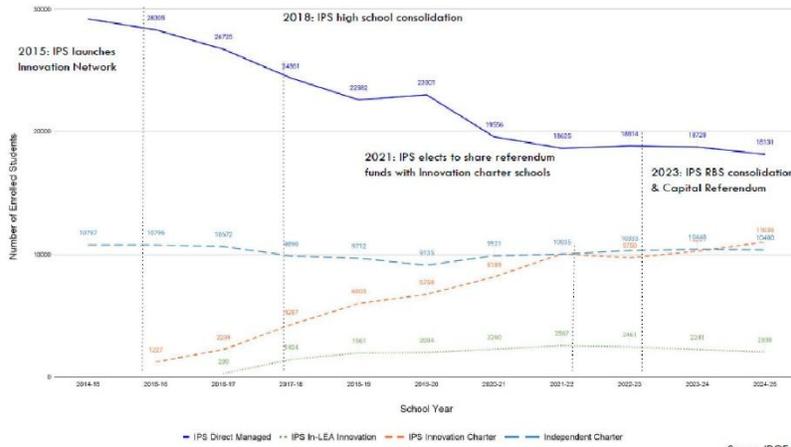

33

- **98** total public school buildings within IPS boundaries
- **65** IPS-owned facilities (Direct-Managed, Innovation, and Alternative Use)
- **33** charter facilities (Innovation and Independent)
- **67%** of public school students attend school in an IPS-owned building
- IPS spends **\$150M annually** to operate school facilities

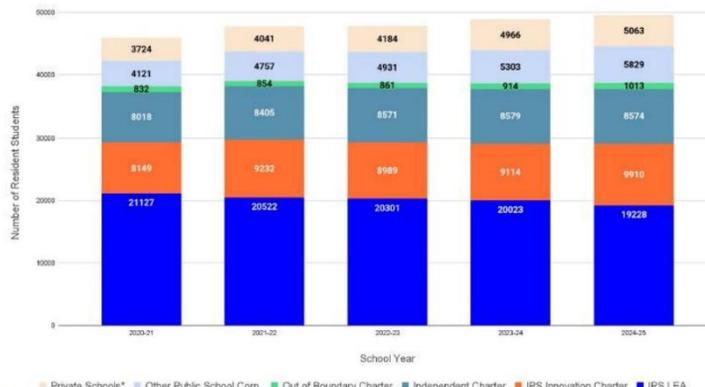

Total K-12 ADM Student Enrollment by Sector Type, SY 14-15 to SY 24-25

Source: IDOE Data Center

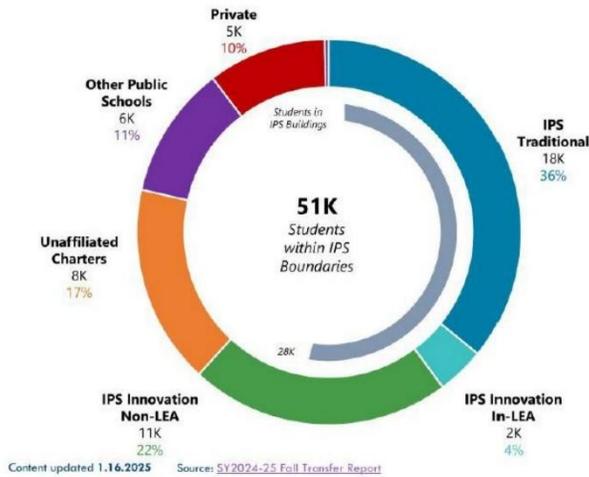

Since SY 20-21, the number of IPS boundary resident students attending public schools within the IPS boundary has increased 1%.

IPS Boundary Resident Student Enrollment by School Type, SY 20-21 to SY 24-25

Source: IDOE Corporation Transfer Report

#### Distribution of Resident Students

### Annual Operating Expenses (Day-to-Day Upkeep)

- Paid from the Operations Fund (part of annual school budget)
  - Covers utilities, routine maintenance, custodial services, minor repairs
  - Approved annually through the district's operating budget
  - No separate voter approval required
  - Revenue source is property tax levy

**Power Rangers Program**

In 2024 we have rolled out a new program... The Power Rangers! It is our belief that the kids in the classroom have the power to help take our program to the next level. Staff can select their own Power Rangers for the school and charge them as needed. We are looking to roll this out in k-5 to begin with. Power Rangers will graduate their successful mission with a certificate.

**Schools Participating**

- Carl Wade-79
- Edison School of the Arts-47
- Jonathan Jennings-109
- Robert Frost-106
- Sanku at Arlington Woods-99
- James Lewis-81
- Ralph Emerson-18

10

### Major Capital Improvements (Replacement, Renovations, & New Buildings)

- Funded through Capital Projects Bonds/Debt (requires approval)
  - Requires School Board approval to propose funding; may also require voter approval
  - Long-term debt is issued and repaid through a Debt Service Fund (property tax revenues)
  - Debt Proceeds used for Improvements

40

12

### Partnerships & Rental

Since June 2024: ~250 short- or medium-term uses of IPS facilities. Excludes Innovation partners and long-term agreements

School Year 2025–26: 60 facility use requests already submitted

#### Access & Reservations:

- Facilities use and reservation request portal available on the IPS website

#### Examples:

- Howe MS: Early Learning Center
- Arsenal Tech HS: Gennesaret Dental Clinic, 100 Black Men, Boner/Chase Legacy Center
- Arlington MS: Family Resource Center
- Paul Miller 114: The Excel Center
- George Washington HS & School 49: Indy Parks
- Broad Ripple MS: Farmer's Market
- Washington Irving 14: ELEVATE & Playworks
- Eliza Blaker 55: Broad Ripple Haverford Little League

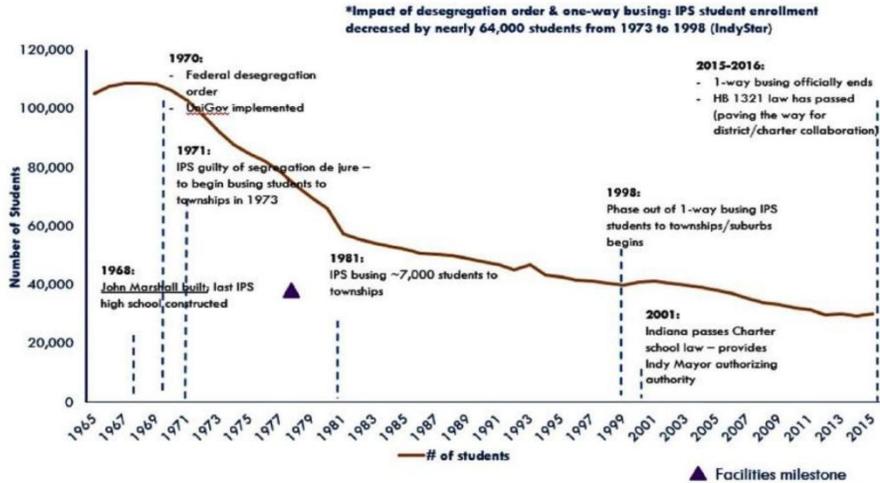

41

- **Innovation Network Schools**
  - 2014: Indiana passes innovation network school law to allow for districts and charters to cooperate & collaborate on facilities and services through innovation network school agreements.
  - From 2015 to 2025, IPS approves or converts **30** schools to innovation network schools (both charter & in-LEA innovation schools).
  
- **Innovation Network Agreements**
  - IPS supports innovation network school partners with operations funds to support student transportation, custodial services, IT services, and other facilities-related support services.

- **13 Innovation schools** in IPS-owned buildings
  - **2 Innovation schools co-located** with district-run schools
  - **\$33M in in-kind services** to Innovation schools (2023-24)
- **\$118M in capital improvements** through Rebuilding Stronger capital referendum
- **Example: Adelante (Emma Donnan) + 2023 Capital Referendum**
  - Renovated roof, exterior windows and doors, interior doors and gym ceilings, electrical, plumbing, HVAC, lighting, elevators, and fire alarm
  - Increased security through card access and cameras
  - State-of-the-art VOIP phone system and intercom

*The operation and use of IPS facilities has been a direct result of the legal and policy conditions put in place. Facilities use can not be examined absent this context.*

- IB and STEM program enrollments have **more than doubled**.
- MS World language enrollment has **increased 75%**.
- MS Instrumental Music enrollment has **increased more than 50%**.
- Elementary computer science enrollment has **increased 120%**.
- The number of district buildings operating "at scale" has **increased 10%**.
- District utilization rate has **increased 3%**.
- Enrollment in buildings in "Good" or better condition has **increased 15%**.

- No common definition of 'building capacity'
- **Key questions:**
  - How many students are there in the IPS boundary (present and future forecast)?
  - How many buildings/facilities should support those students?
  - How do we best utilize finite resources to support these facilities for the short and long term?
  - **What does our community desire to be true for our children and their educational experience?**

**teamIPS**

**ILEA Q&A**

49

## Public Comment Procedure

For everyone to have a fair chance to speak and be heard, please observe the following rules:

**First**, each speaker will be limited to **1** minute. When the timer sounds, please conclude your statement.

**Second**, please ensure comments reasonably relate to the work of the ILEA and address the alliance as a whole. Tonight, comments should focus on facilities.

**Finally**, please avoid repeating what a prior speaker has said so that we may hear from as many people as possible.

50

## Public Comment

51

## Tentative ILEA Roadmap

- **July/August:** Review current landscape, identify priority data around academics, transportation, facilities, etc.
- **September/October:** Issues deep dive to identify potential challenges and consider draft recommendations
- **November/December:** Continued analysis and refinement of recommendations
- **December:** ILEA adopts final recommendations. Plan submitted to state and local leaders by 12/31.

52

## Closing

Next steps include:

- Transportation focus coming in September
- Data collection and analysis ongoing

Next Meeting:

- 6 p.m., Wednesday, Sept. 24, 2025.
- Details and upcoming meeting schedule available at <https://www.indy.gov/activity/indianapolis-local-education-alliance>
- Contact [ILEA@Indy.gov](mailto:ILEA@Indy.gov) or [IPSExternalAffairs@myips.org](mailto:IPSExternalAffairs@myips.org) with questions or comments.

53

**OEI Charter School Data Report– Wednesday, August 20th, 2025**

Indianapolis Local Education Alliance  
August 20, 2025  
Charter School Data Report

---

## EXECUTIVE SUMMARY

This report has been prepared by the Office of Education Innovation (OEI) for members of the Indianapolis Local Education Alliance (ILEA). The information presented was either taken from publicly available [required annual independent audits](#) or was submitted directly to OEI by charter school leaders. Of the 54 independent charter and Innovation Network charter schools within the IPS boundary, 50 submitted partial or complete data referenced in this analysis. Data from adult high schools and virtual schools have been excluded

Section 1 provides foundational data about charter schools within the IPS boundary. Sections 2–4 focus on facilities, capacity, ownership, and financial measures, including staff expenses. Section 2 also includes a review on services provided through the IPS Innovation Network partnerships, referencing some information previously provided to the ILEA in July.

Rounding, categorization, and differing interpretations may introduce minor inconsistencies between these and external datasets, which should be considered in any further analysis. This report is intended to be informative and not constitute

While this report is not exhaustive, it highlights key trends and descriptive context that reflect the diversity and complexity of the charter school environment in Indianapolis. Facility and staffing costs represent the two largest categories of school expenditures, though they vary widely depending on school type, building arrangement, and in-kind support. Understanding these differences in facility and staffing costs is critical for evaluating fiscal management across schools and guiding future recommendations.

This report includes:

- Section 1: Public School Breakdown
- Section 2: Facilities, Capacity and Ownership
  - 2.1 Charter School Facility and Capacity Overview
  - 2.2 Facility Occupancy and Ownership
- Section 3: Facility and Staff Expenses
  - 3.1 Charter School Financial Overview
  - 3.2 Facility Costs
  - 3.3 Expenditures and Revenue
- Section 4: Map of Public Schools in the IPS Boundary
- Appendix A: Data Sources

## SECTION 1: PUBLIC SCHOOL BREAKDOWN

This section provides detailed lists of public schools within the IPS boundary, categorized by type (e.g., IPS Direct Managed, IPS In-LEA Innovation, IPS Innovation Charter, Independent Charter) governance structure, and grade levels served. This data reiterates the variety of school models currently operating and the different oversight structures in place.

### Key Findings

**Total Schools:** There are 103 public schools operating within IPS boundaries, of which Innovation Network Schools make up a significant share.

**Charter Schools:** 54 charter schools operate in the city, both as independent charters and as part of the IPS Innovation Network. They collectively serve more than half of students enrolled in the IPS boundary.

**Innovation Partnerships:** IPS collaborates with charter schools through the Innovation Network, providing district facilities, in-kind services, and enrollment system access, which shapes facility and cost structures.

### Public School Types

**IPS Direct Managed:** Traditional district-run public schools fully operated, staffed, and managed by IPS without an innovation agreement. These schools follow all IPS policies and oversight structures. These schools are operated and overseen by IPS and the Board of Commissioners and are part of the IPS Local Education Agency (LEA).

**IPS In-LEA Innovation:** Schools that are part of the IPS district but are operated under agreements that give them certain freedoms and flexibilities in terms of budgeting, programming, and hiring. These schools use IPS facilities and receive IPS transportation services. These schools are not charter schools and might also be called “In-LEA Innovation Schools.”

*What is an LEA? A Local Education Agency (LEA) is the legal entity responsible for compliance with state and federal education law (e.g., special education, Title I). IPS is the LEA for all direct-run schools and In-LEA Innovation Schools. IPS Innovation Charter Schools and independent charters have their own LEA status.*

**IPS Innovation Charter:** Schools that are part of the IPS Innovation Network but are run by charter operators and overseen by charter authorizers. Some of these schools use IPS facilities and receive IPS transportation services under their Innovation agreements. They are considered their own LEA/district and might also be called “Non-LEA Innovation Schools”.

**Independent Charter:** These schools are run by charter operators and overseen by authorizers, and they have no formal affiliation with IPS and are not part of the Innovation Network.

### Overall Number of Schools and Enrollment by School Type, 2024-25 School Year

Type	Number of Schools	Enrollment
IPS Direct Managed	44	18,970
Independent Charter	29	10,415
IPS Innovation Charter	25	11,071
IPS In-LEA Innovation	5	2,092
<b>Total</b>	<b>103</b>	<b>42,548</b>

### Public Charter School Breakdown Reference Sheet, 2024-25 School Year

This excludes two virtual schools and all adult high schools in the boundary.

## SECTION 2: FACILITIES, CAPACITY, AND OWNERSHIP

This section examines school buildings, including building ownership, age, and student enrollment based on programmatic capacity. IPS-owned buildings are used by both district-managed and Innovation schools, often without direct lease charges. Independent charter schools typically operate in privately leased or nonprofit-owned facilities.

According to Indianapolis Public Schools in the report presented to the ILEA in July, in SY 2024-25 over 67% of students enrolled in Innovation Network Charter schools attended schools in IPS-owned buildings (about 7,400 students out of roughly 11,000), and more than 53% use IPS-provided transportation services (about 5,900 students). These services are funded primarily through local property taxes and may also include building upkeep, maintenance, and security.

Additionally, the district reported that for the 2023-24 school year, IPS spent approximately \$38 million on facilities and security for innovation schools. The improvements were made possible, in part, by new revenue received through the 2023 voter-approved \$410 million capital referendum. The district considers these services as in-kind contributions, which is reflected in public audits. The details of the models in this section can inform discussions and analysis of topics such as space efficiency, long-term planning, and equitable access to quality facilities.

### Note on Data Availability

Data that is represented by “\*\*\*\*” (asterisks) indicates data was not provided at the time of publication. Data with “N/A” indicates the data was not applicable to the school. Data that has “###” (pound signs) means the information was reported for the network as a whole, rather than each school, and therefore only one school in the network has information populated in a chart.

### Key Findings

**Ownership Models:** Charter schools operate in a mix of IPS-owned buildings, leased private properties, and self-owned facilities.

**Shared Resources:** Schools benefit from IPS-provided facilities, in-kind services, and enrollment system integration through Enroll Indy. In-kind support reduces direct facility costs, often accounting for 20–25% of reported expenses.

**Financial Trade-offs:** Ownership can build long-term stability but creates hurdles in accessing low-interest financing; leasing offers flexibility but can result in higher costs.

**Capacity:** Program capacity varies widely; depending on the school model, it may or may not correlate with building size. More data is necessary to determine building utilization.

**Debt Service:** Many schools carry remaining lease obligations and/or outstanding principal and interest on facility-related debt.

## 2.1 Charter Facility and Capacity Overview

Facilities present some of the biggest opportunities and challenges in the charter school sector. Autonomy in governance and financial structure can offer charter schools more flexibility to locate where they best meet community demand and can implement their model. Innovation partnerships using district buildings create efficiencies whereby existing communities continue to be served by an operator and school facilities remain in use, without the complexities and financial hurdles that can be inherent in leasing and pursuing ownership. That said, a charter school that can operate in its own building has complete agency in structuring its space and securing its financial future.

Charter schools in Indianapolis have a diverse range of facility models. Building ages span from early 1900s to recent years, with a number of older facilities seeing more recent renovations. The size and usage of buildings vary as well, particularly for independent charter schools who may operate in both historically traditional school facilities and facilities built for other public or commercial purposes.

For example, some schools occupy a single facility, while others co-locate with another school. Still others choose to lease “attached” spaces, such as within commercial properties, or to share space with existing community organizations. These differences necessarily impact things like lease costs, debt obligations, and other financing structures.

### Capacity

Capacity refers to the extent to which a building may be occupied. However, there is not a common formula used to determine this metric across school types and systems in Indianapolis, nor has there been a common building assessment process to provide common data points. Building usage also differs based on the grade levels and kinds of educational programming that occurs in a space. For example, a classroom serving preschool students and third graders may be the same size, but certain requirements, policies, or best practice dictate they include different numbers of students. For these reasons, a building’s size and a school’s enrollment may or may not be correlated.

The priority of a charter school is to adequately fulfill its financial obligations and maintain, in any facility, a safe, supportive learning environment for students and staff.

For the purposes of this report, we will refer to programmatic capacity, which can be understood as the number of students a space was designed or has planned to accommodate. As explained above, this can differ from the maximum occupancy of a space, which could be dictated by policies set by local public safety authorities. Schools budget each year having planned, based on prior patterns and available prospective enrollment information, for a certain number of students and level of staffing. Program capacity is used to populate Enroll Indy’s OneMatch process. For 2024-25, this means it was confirmed during the 2023-24 school year. Enrollment is recorded on Count Days in October and February of each school year.

## 2.2 Facility Ownership

Charter schools in Indianapolis operate in a variety of facility arrangements, including buildings owned by the school itself, leased from private entities, occupied through partnerships with community organizations, or located in Indianapolis Public Schools (IPS) facilities as part of the Innovation Network.

Ownership offers long-term stability, the potential to build equity, and protection from future increases in facility costs. However, it also requires significant upfront capital, ongoing maintenance, and full responsibility for compliance with all safety, accessibility, and building code requirements. Securing financing for facility ownership as favorable as that which can be accessed by traditional school districts is not currently possible. Charter schools typically face limited access to low-interest borrowing due to their nonprofit status, lack of taxing authority, and relatively short operating histories. Charter schools also have not historically had access to dedicated revenue sources to cover facilities costs, requiring them to spend less in other budgeted areas. These factors can lead to higher borrowing costs, more stringent lending terms, and the need for complex financing packages combining philanthropic support, grants, and conventional loans. During spring and summer 2025, Indianapolis charter schools gained access to some property tax revenue as a result of legislative changes in 2024.

Leasing can offer lower initial costs and greater flexibility, particularly for new or expanding schools, but it often results in higher long-term expenditures and less control over property modifications. Lease terms are held by the school's governing board, which remains responsible for ensuring the facility meets all applicable safety and operational standards.

Charter schools operating in IPS buildings as part of the Innovation Network benefit from access to established, education-ready facilities, which can reduce upfront and annual costs and accelerate the school's opening timeline. These arrangements often include shared maintenance responsibilities and building services provided by IPS. However, schools may have limited autonomy over facility modifications, be subject to district scheduling and usage constraints, and face the possibility of renegotiation or non-renewal of the agreement if district priorities change.

The information in this section includes the breakdown of ownership types. Data comes from the 2023-24 audits submitted to the Indiana State Board of Accounts. Charter schools are required to undergo an independent audit of their financial statements each year.

#### Defining Terms:

- **Remaining Lease Obligation:** The outstanding financial commitment left on a lease agreement. Here, it is represented as the long-term portion of the amount still owed for the duration of the lease term after the current 12-month period.
- **Debt Service:** The total amount a charter school is required to pay during a given period to cover both principal and interest on borrowed funds used to finance facility acquisition, construction, or major renovations. Debt service payments are typically made from the school's operating budget and represent a fixed, recurring obligation that must be met regardless of enrollment or revenue fluctuations. Debt service is reported separately from facility costs, as it represents financing obligations rather than day-to-day operating expenses.
- **Remaining Long-term Portion of Debt:** This includes loans, bonds, mortgages, or other types of borrowings that have repayment terms extending beyond one year. The calculation here is the portion of that debt that is due after the next 12 months related to facility costs.

#### Building Ownership Type by Charter School Type, 2023-24 Audit

### Remaining Lease Obligation and Debt Service, (Lease and Own Only), 2023-24 Audit

This section presents the most recently audited financial data taken from the period July 1, 2023, to June 30, 2024, published by the Indiana State Board of Accounts for the charter schools operating within the IPS Boundary during the 2023-24 school year that either leased or owned their facility.

For both owned and leased facilities, schools may carry long-term financial commitments. These can include remaining lease obligations or, in the case of ownership, outstanding principal and interest payments on facility loans. Such liabilities must be managed within the school's operating budget and can impact future financial flexibility. In some cases, as reported in state-required audits, remaining lease obligation includes leases on equipment, such as printers. That data may be included here but is typically minimal compared to facility leases directly.

Additionally, independent auditors use specific criteria in accounting standards to determine which leases are capital leases (long-term debt) and which are operating leases (might not be included on a balance sheet). Therefore, schools in this chart may have leases and/or debt service, while others do not. Audits should be referenced for more detail on a particular school's situation.

This table only includes charter schools that do not use IPS facilities, except where the audit did not report figures broken out by building (KIPP Indianapolis, Phalen Leadership Academics).

## SECTION 3: FINANCES, FACILITIES, AND STAFF

### Key Findings

**Facility Costs:** Per-pupil facility costs range from \$0 for some innovation schools (with IPS-provided services) to over \$3,000 at certain independent charters.

**Staffing Costs:** Staffing is typically the largest expense category, representing an average of 50% of total expenses, though the range varies significantly.

**Exclusions:** Principal and interest on long-term facility debt are not included in reported facility costs but remain material liabilities.

### 3.1 Charter School Facility Financial Overview

Like the section above, this section also includes audited financial data taken from the period July 1, 2023, to June 30, 2024, published by the Indiana State Board of Accounts for each of the 54 charter schools operating within the IPS Boundary during the 2023-24 school year. The data breaks down occupancy or facility related expenses, in-kind support or contributions, and per-pupil facility expense for each innovation charter or independent charter school.

### 3.2 Facility Costs

Facility expenses vary significantly by school type, facility arrangement, and building capacity. Innovation Network schools operating in IPS-owned buildings often receive direct assistance through district-provided services, which reduces their reported costs. Some independent charter schools also benefit from in-kind support through their lease agreements, though others bear the full cost of leasing or owning their facilities. Please note that in-kind costs represented in this section are not exclusively those provided by IPS to innovation charter schools.

Per-pupil facility costs range widely, from more than \$3,000 per student at schools responsible for their own buildings, to little or no direct cost at schools receiving district-provided services. In-kind support from IPS lowers the overall cost burden for innovation schools, often representing about one-quarter of their total reported expenditures.

It is important to note that the data in this section excludes principal and interest payments on facility-related debt. While such debt service represents a significant long-term financial obligation for some schools, it is not typically classified as a direct facility or occupancy expense for reporting purposes. The prior section includes debt service and remaining long-term portions of facility debt.

#### Defining Terms:

- **Total Direct Facility Costs:** All expenses directly associated with operating and maintaining a facility, including utilities (electricity, water, gas), maintenance and

repairs, security services, facility management salaries, janitorial services, and other daily operational costs.

- **Total In-Kind Facility Costs:** The estimated value of non-cash contributions related to facility usage, such as donated space, utilities, or services.
- **Total Facility Costs:** The sum of all expenses associated with operating and maintaining a facility, including both direct and in-kind costs.
- **Per-Pupil Facility Expense Estimate:** Facility-related costs calculated on a per-student basis, derived by dividing total facility costs by Fall 2023 ADM.

#### Sum of Facility Costs by Charter School Type and Ownership Type, 2023-24 Audit

	2023-24 ADM	Total Direct Facility Costs	Total In-Kind Facility Costs	Total Facility Costs	Per Pupil Facility Expense Estimate
<b>IPS Innovation Charter</b>					
IPS Building	5,551	\$2,935,551	\$22,197,195	\$25,132,746	\$53,718
Lease	880	\$1,269,292	\$1,061,310	\$2,330,602	\$10,859
Own	3,664	\$3,067,545	\$3,199,080	\$6,266,625	\$13,382
<b>Independent Charter</b>					
Lease	4,326	\$4,859,774	N/A	\$4,859,774	\$15,212
Own	6,546	\$3,618,516	\$1,515,420	\$5,133,936	\$13,079

#### Average of Facility Costs by Charter School Type and Ownership Type, 2023-24 Audit

	2023-24 ADM	Total Direct Facility Costs	Total In-Kind Facility Costs	Total Facility Costs	Per Pupil Facility Expense Estimate
<b>IPS Innovation Charter</b>					
IPS Building	463	\$266,868	\$2,017,926	\$2,284,795	\$4,476

### 4.3 Expenditures and Revenue

This section provides analysis of the financial operations of charter schools within the IPS boundary. This section draws on audited financial data from the 2023-24 school year, emphasizing both direct and in-kind revenue and expenditures. It offers data that can be used to better understand school funding levels, spending patterns, and fiscal management across different charter school types.

While facility costs vary widely depending on building type and in-kind support, they represent only one portion of a school's operating budget. Staffing expenses—typically the largest single category of school spending—account for a much greater share of total costs, ranging from 30%

to over 70% depending on the school model and size, but about 50% on average. The next section examines these staffing expenditures in greater detail.

**Defining Terms:**

- **Total Revenue:** The total amount of funding and income received from various sources, including state and federal funding, grants, donations, and other revenue streams that support the school's operations. For this report, it includes both direct and in-kind revenue.
- **Total Expenditures:** The total amount of money spent on operational costs, including salaries, educational materials, facility maintenance, administrative expenses, and other costs necessary to run the school effectively. For this report, it includes both direct and in-kind expenditures.
- **Total Staff Expenditures:** The total amount of financial resources allocated for employee-related costs. For the purposes of this report, it includes salaries, wages, and benefits, for all staff members, such as teachers, administrators, support staff, and other personnel essential to each school's operations. Staff development and other professional development costs are not included.

#### Staff Expenses by Charter School Network, 2023-24 Audit

This chart includes network-level staff expenses that do not correspond to a specific building or reflect staff expenses for positions located in non-school buildings. Those amounts are added to building-specific staff expenses from the chart above, as shown in the network's audit. Because these include expenses across an entire network, they can also reflect positions in schools outside Marion County.

Charter School Network	Total Staff Expenses
United Schools of Indianapolis (AMA, VAR, AMMS)	\$9,925,424
Christel House (CH-S, CH-W, CH-WMHS, CH-DORS)	\$19,369,445
Herron Classical Schools (HPA, HHS, RHS)	\$17,945,013
KIPP Indianapolis (KICP, KIPP-Unite, KIPP-Legacy)	\$17,101,424
Phalen Leadership Academies (JRPLA MS, JRPLA HS, GVPLA, PLA93, PLA48, PLA103, PP,)	\$28,029,904
Purdue Polytechnic High Schools (PPHS-E, PPHS-BR)	\$9,072,388
Irvington Community Schools (IPA, ICMS, ICES)	\$8,241,784
Paramount Schools of Excellence (PSOE-BR, PSOE-E, PSOE-CH, PSOE-SB, PSOE-Online, PSOE-LA, PSOE-Nav)	\$18,516,522
Tindley Accelerated Schools (CATA, TSA, TGA)	\$11,046,243

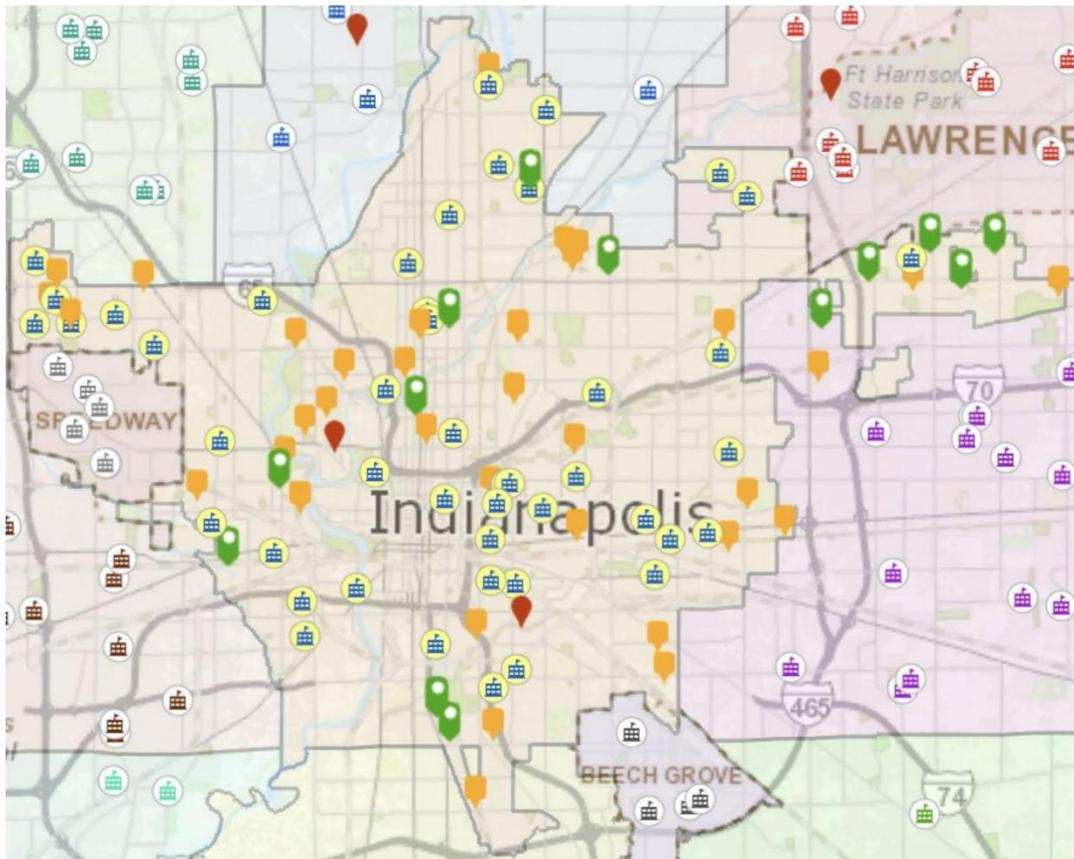

## SECTION 4: MAP OF PUBLIC SCHOOLS IN THE IPS BOUNDARY

This visual representation of public school locations across the district and city-county provides important geographic context to support discussions around access, transportation, and area-based planning. This map was created by IndyGIS, with consultation and data provided by the Office of Education Innovation and public data.

Use the [map link](#) to explore online.

This report is provided for informational and policy-planning purposes only. It is not intended to serve as legal, financial, investment, or accounting advice. The financial data and analysis are based on publicly available information, including audited financial reports and state-published data, and should not be relied upon for decision-making without independent verification.

Readers are encouraged to consult with qualified professionals before making any decisions related to school finances, real estate transactions, or charter operations. Neither the authors nor the Office of Education Innovation make any representations or warranties as to the completeness, accuracy, or timeliness of the information contained in this report.

# OEI School Data Report— Wednesday, August 20th, 2025

Indianapolis Local Education Alliance (ILEA)  
July 23, 2025  
School Data Report

---

## EXECUTIVE SUMMARY

This report has been prepared for members of the Indianapolis Local Education Alliance (ILEA) to support ongoing conversations around the structure, performance, and equity of the education landscape within the IPS boundary. The information presented draws from a combination of public state-level data, U.S. Census data, and data provided by Indianapolis Public Schools (IPS) and the Office of Education Innovation (OEI). While this report is not exhaustive, it highlights key trends and descriptive context that reflect the diversity and complexity of the school environment in Indianapolis.

Sections 1–4 offer foundational landscape data to ground the group in the current state of public education, while Sections 5–7 are included to inform future conversations around transportation and facility needs—ensuring discussions remain aligned with ILEA’s central focus.

This report includes:

- Section 1: Public School Breakdown
- Section 2: School Enrollment Trends
- Section 3: School Demographics
- Section 4: Academic Performance Data
- Section 5: IPS Innovation Partnerships
- Section 6: County Demographic and Population Data
- Section 7: Geographical Boundary/County Map
- Appendix A: Individual School Data
- Appendix B: Innovation Explainer
- Appendix C: Data Sources

Each section is intended to provide clarity on how schools are distributed, how students are being served, and what broader demographic trends may inform future planning. Data from adult high schools has been excluded. Please note, rounding and categorization may introduce minor inconsistencies between these and external datasets that should be considered in any further analysis.

## SECTION 1: PUBLIC SCHOOL BREAKDOWN

This section provides detailed lists of public schools within the IPS boundary, categorized by type (e.g., IPS Direct Managed, IPS In-LEA Innovation, IPS Innovation Charter, Independent Charter) governance structure, and grade levels served. This data helps contextualize the variety of school models currently operating and the different oversight structures in place.

### Public School Types

**IPS Direct Managed:** Traditional district-run public schools fully operated, staffed, and managed by IPS without an innovation agreement. These schools follow all IPS policies and oversight structures. These schools are operated and overseen by IPS and the Board of Commissioners and are part of the IPS Local Education Agency (LEA).

**IPS In-LEA Innovation:** Schools that are part of the IPS district but are operated under Innovation agreements that give them certain freedoms and flexibilities in terms of budgeting, programming, and hiring. These schools use IPS facilities and receive IPS transportation services. These schools are not charter schools and might also be called “In-LEA Innovation Schools.”

*What is an LEA? A Local Education Agency (LEA) is the legal entity responsible for compliance with state and federal education law (e.g., special education, Title I). IPS is the LEA for all direct-run schools and In-LEA Innovation Schools. IPS Innovation Charter Schools and independent charters have their own LEA status.*

**IPS Innovation Charter:** Schools that are part of the IPS Innovation Network but are run by charter operators and overseen by charter authorizers. Some of these schools use IPS facilities and receive IPS transportation services under their Innovation agreements. They are considered their own LEA/district and might also be called “Non-LEA Innovation Schools”.

**Independent Charter:** These schools are run by charter operators and overseen by charter authorizers, and they have no formal affiliation with IPS and are not part of the Innovation Network.

### Number of Schools and Enrollment by School Type, 2024-25

Type	Number of Schools	Enrollment
IPS Direct Managed	44	18,970
Independent Charter	29	10,415
IPS Innovation Charter	25	11,071
IPS In-LEA Innovation	5	2,092
<b>Grand Total</b>	<b>103</b>	<b>42,548</b>

**Number of Schools and Enrollment in the IPS Portfolio, 2024-25**

<b>IPS Portfolio</b>	<b>Number of Schools</b>	<b>Enrollment</b>
IPS Direct Managed	44	18,970
IPS Innovation Charter	25	11,071
IPS In-LEA Innovation	5	2,092
<b>Grand Total</b>	<b>74</b>	<b>32,133</b>

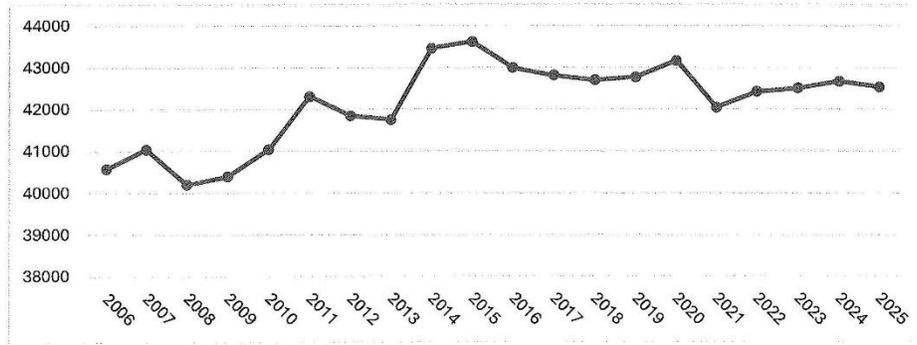

**Number of Schools and Enrollment by Charter Authorizer, 2024-25**

<b>Authorizer</b>	<b>Number of Schools</b>	<b>Enrollment</b>
Indiana Charter School Board (ISCB)	14	5,120
Office of Education Innovation (OEI)	36	15,673
Education One at Trine University (Trine)	4	693
<b>Grand Total</b>	<b>54</b>	<b>21,486</b>

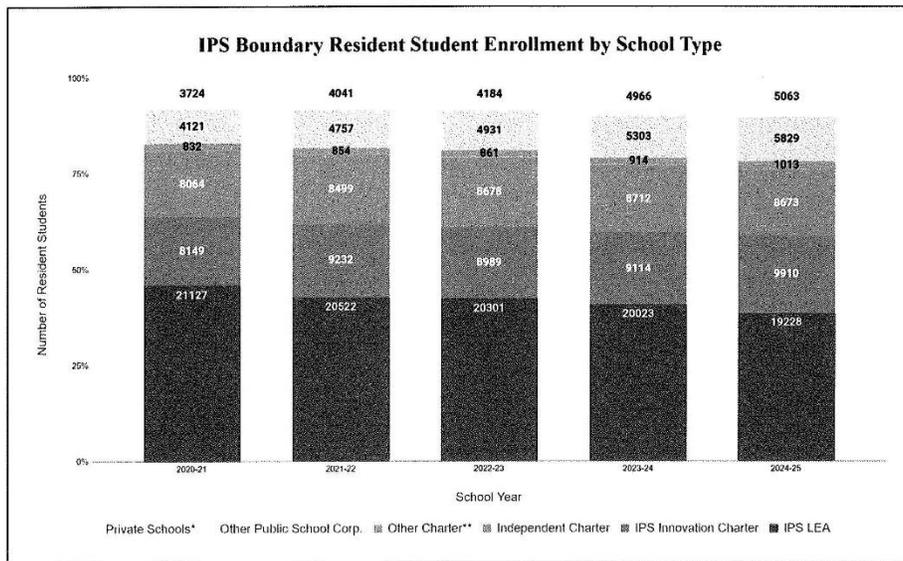

## SECTION 2: PUBLIC SCHOOL ENROLLMENT TRENDS

This section highlights changes in enrollment patterns, helping to identify shifts in public student enrollment across the IPS boundary and Marion County.

### Public School Enrollment in the IPS Boundary Over Time, 2006-2025

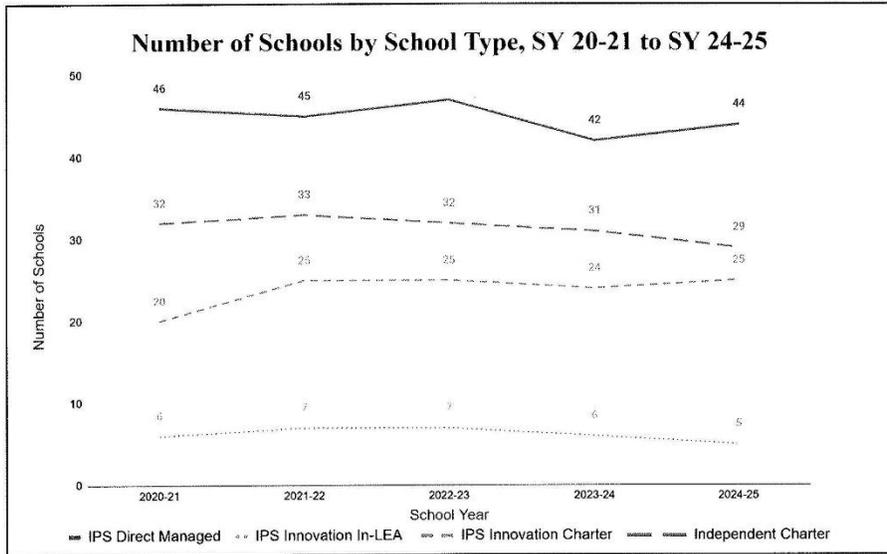

### Resident Student Enrollment in the IPS Boundary by School Type, SY20-21 to SY24-25

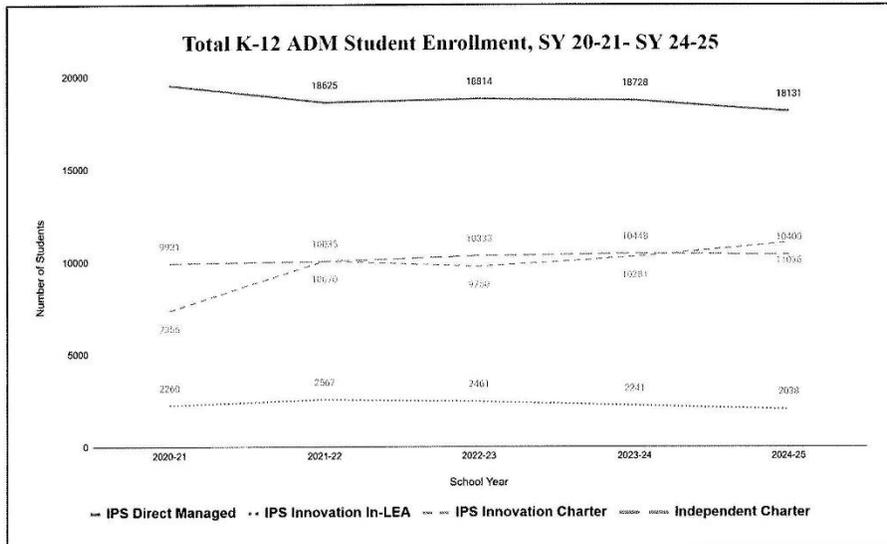

\*IPS resident students using a Choice Scholarship to attend a non-public school.

\*\*IPS resident students attending a charter school not located in the IPS boundary.

Over the past five years, the overall number of schools within the boundary has remained relatively consistent. Please note, the following charts do not include adult high schools.

Although Average Daily Membership (enrollment used for state funding) has remained fairly consistent, the most growth has been seen in IPS Innovation Charter Schools.

**Public Schools and Enrollment by Governance and School Type, 2024-25**

### SECTION 3: PUBLIC SCHOOL DEMOGRAPHICS

This section provides demographic data for the 2024-25 school year, including race/ethnicity; free or reduced-price lunch status, a measure to gauge household income; whether a student is learning English as a new language, and whether a student requires special education services.

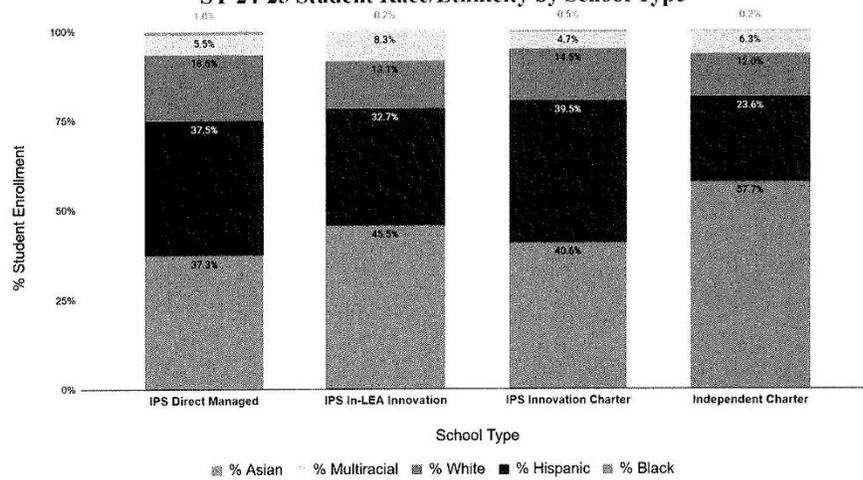

#### Public School Demographics by School Type, 2024-25

School Type	Black %	Hispanic %	White %	ELL %	SPED %	F/RL %
Independent Charter	58.7%	23.5%	11.3%	21.7%	13.5%	77.3%
Innovation Charter	43.9%	35.4%	14.9%	26.4%	15.0%	75.0%
IPS In-LEA Innovation	48.2%	30.1%	13.2%	22.3%	18.5%	68.2%
IPS Direct Managed	35.3%	34.9%	22.0%	29.8%	17.9%	57.7%

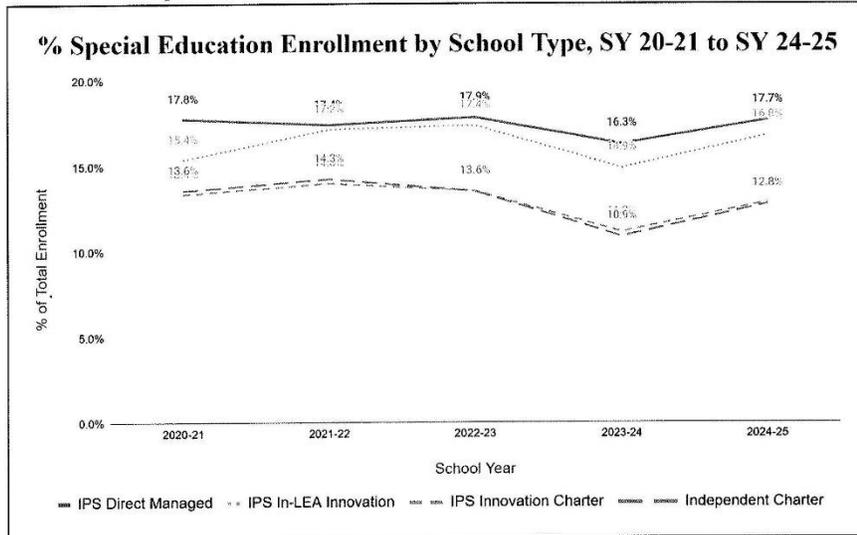

#### Public School Demographics by Charter Authorizer, 2024-25

Authorizer	Black %	Hispanic %	White %	ELL %	SPED %	F/RL %
ICSB	59.7%	30.3%	5.1%	31.4%	12.1%	76.9%
OEI	50.0%	27.9%	15.7%	21.0%	14.6%	75.2%
Trine	40.1%	34.5%	16.3%	23.3%	18.0%	83.5%

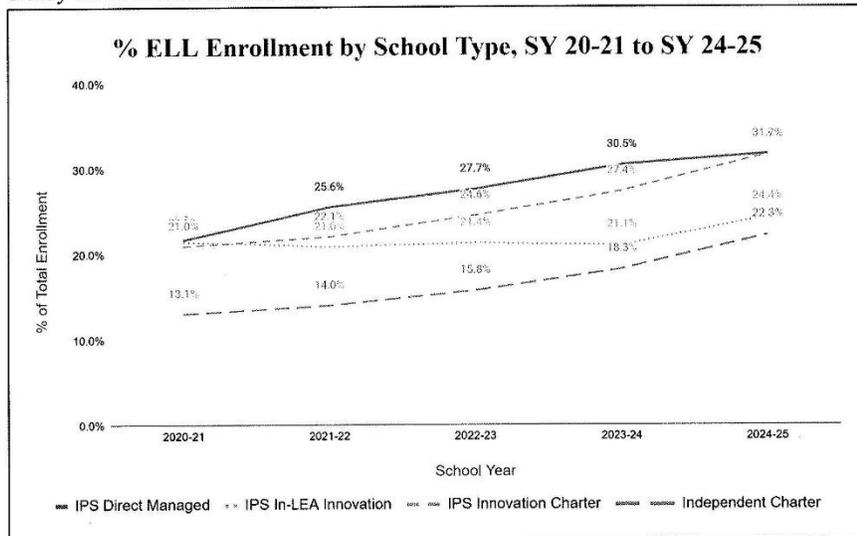

SY 24-25 Student Race/Ethnicity by School Type

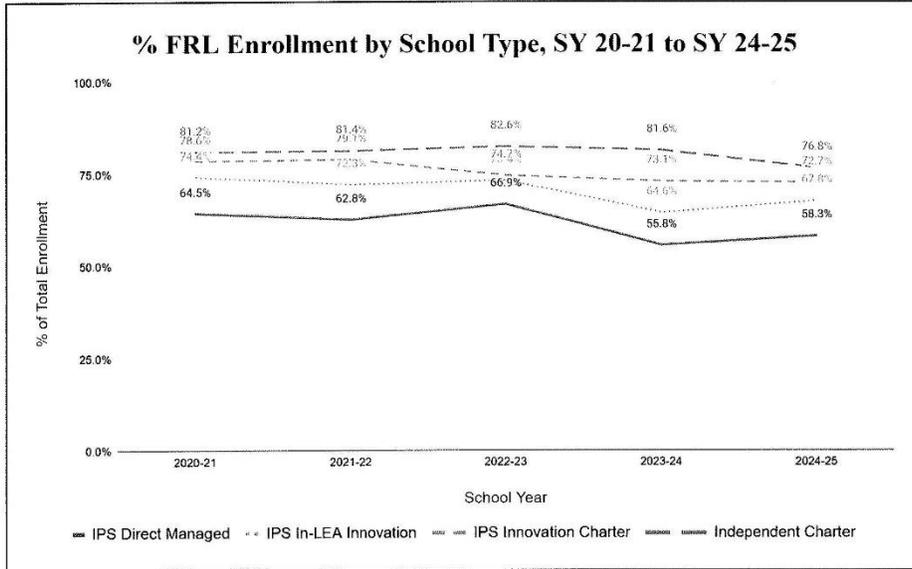

SPED enrollment showed divergent trends. IPS direct managed and In-LEA schools maintained relatively high SPED populations, though both declined slightly in recent years. IPS Innovation Charter and Independent Charter schools experienced a steeper decline over the same period.

ELL enrollment has risen sharply, particularly in IPS direct managed and Innovation Charter schools. IPS direct managed schools now enroll nearly 30% ELL students, up 7 percentage points, a trend mirrored by Innovation Charter Schools. Independent Charter Schools also saw a steady climb in ELL enrollment.

FRL-eligible student enrollment remained high across all school types, particularly in Independent and IPS Innovation Charter Schools, which maintained rates between 70–85%. IPS direct managed and In-LEA schools reported a drop in SY 2023–24, up slightly in SY 2024–25.

## SECTION 4: ACADEMIC PERFORMANCE DATA

This section presents select key academic indicators such as standardized test performance, proficiency rates, and other outcomes where available. To help explain each academic data set, a short description of each test is included as well. Please know this is not an exhaustive list of metrics, nor are these data points meant to convey a complete picture of school quality. Rather, these are comparable, externally validated datasets that can serve as a starting point for understanding how students at systems levels are learning compared to state standards.

### Academic Data Set Summaries

**Chronic Absenteeism:** In Indiana, a student is considered chronically absent after missing 10 percent or more of school days. The higher the level of chronic absenteeism, the more likely it can be that a student struggles to move toward academic mastery.

**ILEARN:** A federally mandated summative accountability assessment that measures student achievement in English language Arts (ELA), math, and in some grades, science and history based on Indiana academic standards. It is taken annually by students in grades 3-8. Results here are for only ELA, math, or, where displayed as “both,” students who pass (and are considered proficient in) both ELA and math tests.

**IREAD:** A summative assessment that measures foundational reading skills based on Indiana academic standards taken by students in grades 2-3. If a student does not pass, they must retake the exam until they do, or until they reach grade 7. If a student does not pass by grade 3, they must be retained in third grade, according to a recent state law. The data reported here includes only results from third-grade test-takers.

**SAT:** A standardized test administered by College Board and taken by high school students (typically juniors). It is widely used for college admission and measures skills in reading, writing and math. This is Indiana’s high school accountability assessment.

**Grad Rate:** Graduation rate is measured by the percentage of students within a cohort (beginning in ninth grade) who graduate during their expected graduation year. The formula establishes a cohort (or expected graduation year) of first-time freshmen that expands and contracts as students transfer in and out of school during the years that follow.

Please note, cells with “N/A” mean there are not results for that particular metric for that school. For example, elementary schools will not have SAT results. Additionally, some results are broken down by student subgroups in addition to race or ethnicity. These are: ELL (Students with a native language other than English who are working toward English-language proficiency) and Non-ELL (Students whose native language is English); SPED (students receiving special education services) and Gen Ed (students within the general education population); FRL (students receiving free or reduced-price lunch) and paid (students who do not qualify for subsidized meals).

### ILEARN Performance 2020-21 to 2024-25

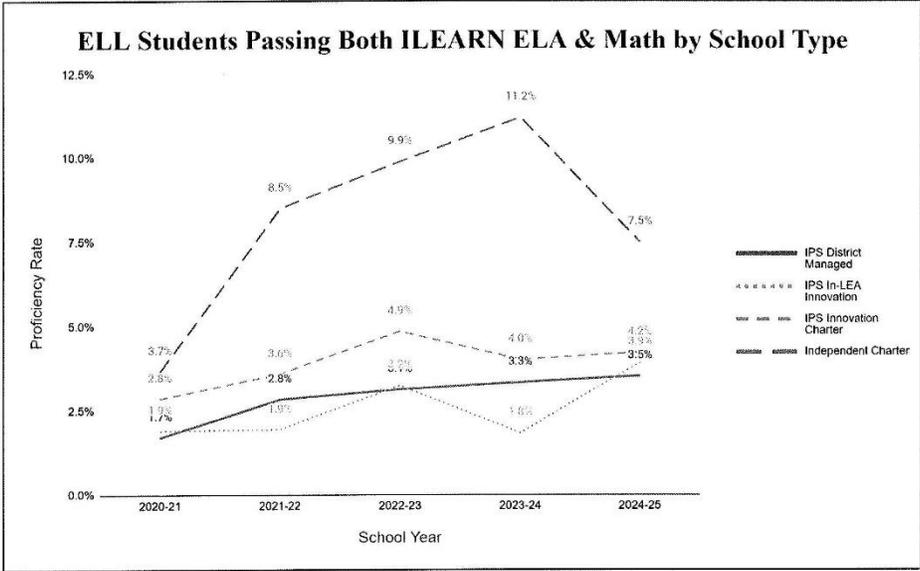

This section provides a five-year view of ILEARN results, showing how student performance has changed over time. Data is broken out by school type and key student subgroups.

Post-COVID pandemic scores have shown some volatility year over year and have yet to rebound to pre-pandemic levels (a trend seen statewide). For each of the subgroups below, Independent Charter Schools outperform other school types, though most recent years show slight declines.

## **SECTION 5: IPS INNOVATION PARTNERSHIPS**

To provide greater visibility into the operational supports provided to IPS Innovation Network Schools, this section outlines the services and resources made available through district partnerships.

As of SY 2024-25, many Innovation Network Schools are located in IPS-owned buildings. These schools are not charged rent and receive a range of services from the district at no direct cost to the school operators. These services include:

- Building upkeep and maintenance
- Security services
- Student transportation

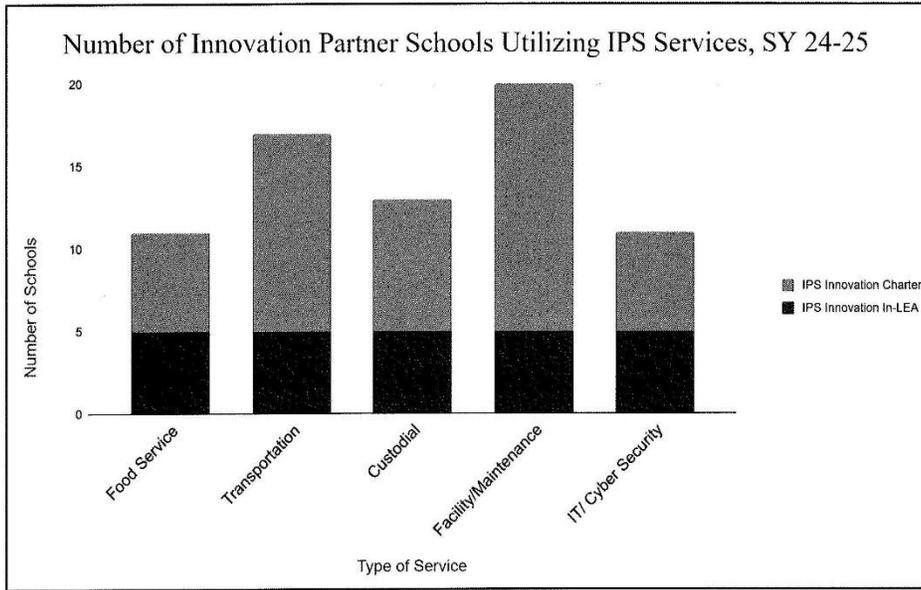

Although schools do not receive a bill for these services, IPS continues to cover the associated costs. For the 2023-24 school year, the district spent approximately \$38 million on facilities and security for Innovation schools, and \$12 million on transportation. These are considered in-kind contributions — resources provided without direct reimbursement — that nonetheless represent substantial expenditures for the district.

Currently, over 67% of students enrolled in Innovation Network Charter schools attend schools in IPS-owned buildings (about 7,400 students), and more than 53% use IPS-provided transportation services (about 5,900 students). These services are funded primarily through local property taxes.

Since 2015, the Innovation Network has grown to include 30 schools. This includes approximately 3,800 students who moved from the IPS LEA to Innovation Network Charter schools as part of district-led school restart strategies, and another 3,000 students enrolled in charter schools that were intentionally co-located in district-owned facilities.

District supports have played a role in the expansion of Innovation Network enrollment. For example, IPS collaborated with Adelante Schools to implement enrollment zones a year ahead of schedule at Emma Donnan Elementary and Middle School, which expanded transportation access and contributed to a 33% increase in enrollment year over year.

**Number of Innovation Partner Schools Utilizing IPS Services, SY24-25**

## SECTION 6: COUNTY DEMOGRAPHIC AND POPULATION DATA

This section includes demographic and population trends from the U.S. Census Bureau and Indiana Department of Health, offering a broader context for understanding how the city is changing. This includes information on birth rates, population growth, and other indicators relevant to long-term educational planning.

### Indianapolis/Marion County Birth Rates 2013-2023

### Indianapolis/Marion County Population and Population Estimates

**Indianapolis/Marion County Population by Age, 2024**

Age	Number	% in County
Preschool (0 to 4)	69,004	7.00%
School Age (5 to 17)	174,075	17.70%
College Age (18 to 24)	93,764	9.60%
Young Adult (25 to 44)	295,717	30.10%
Older Adult (45 to 64)	213,026	21.70%
Seniors (65 and older)	136,042	13.90%
<b>Median Age</b>	<b>34.6</b>	

**Structural Permits for Residential Buildings in Indianapolis, 2020-2025**

Local permit issuance, particularly for new residential construction, serves as a strong predictor of future population growth by offering a direct and early signal of an expanding housing supply. This data is a tool that can offer insight into demographic shifts and anticipate the needs of a growing community.

The permit data in this section was provided by the Indianapolis Department of Business and Neighborhood Services and should be considered as relevant context for other discussions related to areas of growth in the city.

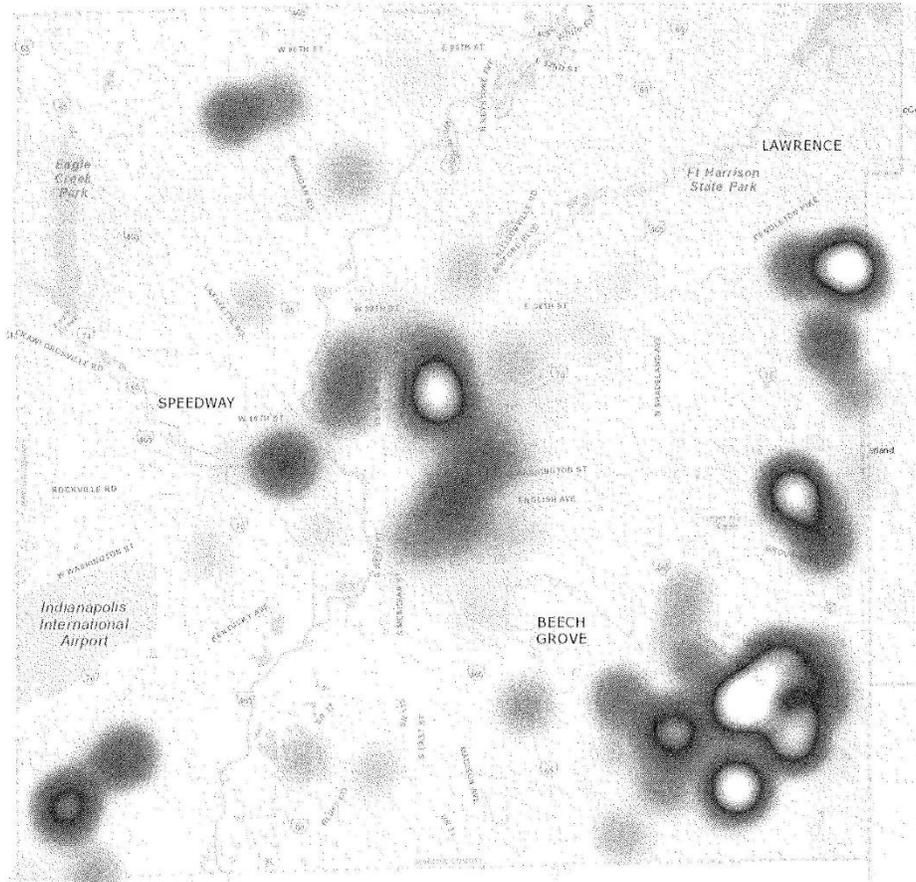

Residence	Units	% in County
Single-Family	1,253	65.70%
2-Family	14	0.70%
3- and 4-Family	18	0.90%
5+ Family	621	32.60%
<b>Total Permits Filed</b>	<b>1,906</b>	<b>100.00%</b>

The heat maps on the following pages show areas of the city with increasing density of issued permits for various residential structures between 2020 and 2025. A dynamic map and details on specific locations, can be provided upon request.

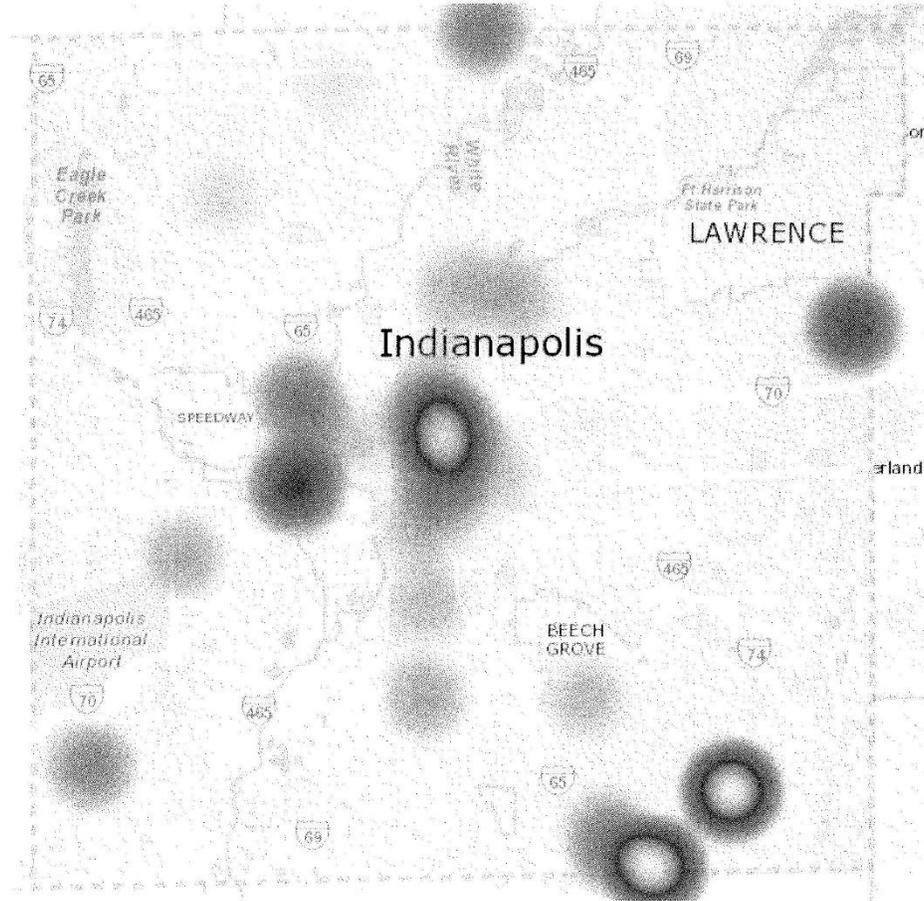

As the images will show, structural permit activity has been highest in the following areas:

- Near Northside
- Martindale Brightwood, south of Douglass Park
- Fountain Square neighborhood, along English Ave. between Shelby and S. State Ave
- South of Wanamaker and other areas of South Franklin Township
- Near Westside and Near Riverside, adjacent to Riverside Park,
- Far east sides of Lawrence and Warren townships

**Structural Permits Heat Map - One or Two Family Residences, 2020-2025**

**Structural Permits Heat Map – Multi-family Residences, 2020-2025**

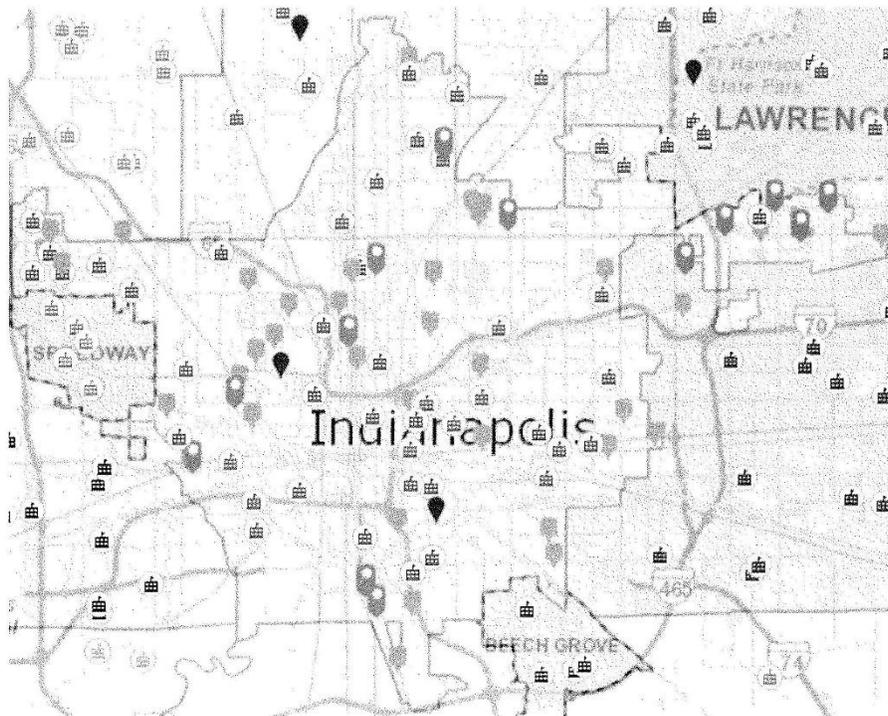

## SECTION 7: Interactive Public School Map

This visual representation of public school locations across the district and city-county provides important geographic context to support discussions around access, transportation, and area-based planning. This map was created by IndyGIS, with consultation and data provided by the Office of Education Innovation and Indianapolis Public Schools.

Use the [map link](#) to explore online.

Map Key:

-  IPS Direct Managed Schools
-  OEI Schools (includes IPS Innovation Charter)
-  ICSB Schools (Includes IPS Innovation Charter)
-  Trine Schools

## APPENDIX A: PUBLIC SCHOOL DATA BY SCHOOL

This section includes academic data shown at the school level, including distinctions for governance, authorizer, and school type (Innovation Network). Cells with “n/a” indicate the number of students tested was too small to share publicly. N-size for these datasets is at least 10 students. Data includes schools within the IPS boundary, excluding adult high schools.

The academic data is displayed with the following categories and assessments or metrics included:

- Enrollment
- Demographics (race, ethnicity, FRL, ELL, SPED)
- Elementary and Middle School (K-8)
- High School (9-12)
- ILEARN
- IREAD
- SAT
- Graduation Rate

## APPENDIX B: INNOVATION EXPLAINER

### INDIANAPOLIS PUBLIC SCHOOLS INNOVATION NETWORK SCHOOLS

Innovation Network Schools operate with the authority to make decisions about certain aspects of their school—both academic and operational. They are held accountable by the school district for achieving high academic goals and strong student achievement. The purpose of Innovation Network Schools is to allow our district, and schools within our district, greater flexibility to make decisions based on the specific needs of a school's student body. In IPS, there are four pathways a school may take to become an innovation school:

**INNOVATION JUMPSTART**

A lower performing existing IPS school, with community support, may convert to innovation status as a self-initiated improvement strategy.

- Riverside School #100 A
- Phoenix Bridge #100 A

**INNOVATION CONVERSION**

A high performing existing IPS school may convert to innovation status based on the will of the school leadership and community.

- East Summit School
- Edison School of Arts #101 A
- HS #101 A

**INNOVATION RESTART**

IPS leadership recommends that a currently low performing school be restarted by a partner.

- Adelphi St. Thomas DePaul
- Central Prep #100 A
- Central Prep #102 A
- Madison #100 A
- Park #100 A
- The #100 #100 A
- Washington Irving #100 A
- The #100 #101 A

**INNOVATION CHARTER**

A new or existing charter school can enter a partnership with IPS for shared services as an Innovation Network School.

- Academe Medias #100 A
- BELLEVUE Center City #100 A
- Central Music Academy South
- Central Music Academy Midwest #100 A
- Enlace Academics
- Henson High School
- Henson Preparatory Academy
- Henson Riverside HS
- Hope Academy
- KIPP Indy College Prep
- KIPP Indy English #100 A
- KIPP Indy Latin
- Metairie Academy
- Polaris Prep #100 A
- Purdue Polytechnic #100 A
- Purdue Polytechnic #100 North

<b>IPS LEA</b>	IPS Local Education Agency (the legal title of the corporation)	A
<b>Non LEA</b>	Innovation school that is its own legal school corporation	B
<b>Split LEA</b>	Non LEA with IPS LEA programs on site	A

<b>IPS LEA</b>	Special Education services and support will be provided by Unified Student Supports (USS) IPS will maintain oversight of the Special Education services provided within the building including staffing, allocations and implementation of the USS Standard Operating Procedures.
<b>Non LEA</b>	The Partner Operator is responsible for all Special Education services. If a school moves from the IPS LEA to Non LEA, IPS is no longer able to provide Special Education services or staffing within the partner school's LEA.
<b>Split LEA</b>	<b>Non LEA with USS Programs:</b> USS is responsible for providing Special Education services and staffing for the USS programs located in the Partner Operator's school. Programs include: PTC, Life Skills, etc.

**INNOVATION SCHOOLS**

**MAY**

- Opt in or out of IPS academic and/or non-academic services
- Determine instructional practices, choice of design curriculum, and establish optional before/after school programs
- Establish operating calendar different than the district including # of school days/year and start and end times of the school day
- Create new staff positions, job descriptions, and hiring criteria and determine staff compensation
- Receive Title I, IDEA II, other grants directly from state/federal government dependent on LEA status

**MUST**

- Abide by all local, state and federal laws
- Receive funds according to enrollment with district as "pass through" entity if charter
- Receive funds according to district student-based budgeting model dependent on LEA status

School Name	USS Learning Community	Non LEA	IPS LEA	IPS Programs	IPS Special Services #	Accept in Conformance of Parameters #	Other
Adelphi St. Thomas DePaul	Non LEA		IPS		Yes	Yes	
Central Prep #100 A	Non LEA		IPS		Yes	Yes	
Central Prep #102 A	Non LEA		IPS		Yes	Yes	
Madison #100 A	Non LEA		IPS		Yes	Yes	
Park #100 A	Non LEA		IPS		Yes	Yes	
The #100 #100 A	Non LEA		IPS		Yes	Yes	
Washington Irving #100 A	Non LEA		IPS		Yes	Yes	
The #100 #101 A	Non LEA		IPS		Yes	Yes	

**Key:**  
 \* IPS Special Services - (TEAM, Project, SSP, ST, IP, Support)  
 \* Unified Support Programs (UP) are offered to all students, regardless of LEA status.

## **Wednesday, September 24, 2025, Public Meeting**

The third full meeting of the Indianapolis Local Education Alliance was held on Wednesday, September 24th, 2025, and was a general organization meeting held at Broad Ripple Middle School's Mini Auditorium from 6:00 P.M. – 8:08 P.M with 30 minutes committed to public comment. Of attendance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, and Barato Britt.

This meeting was centered around the conversation of transportation. In the meeting, the Alliance first received an informational presentation on cross-collaboration from Lucas Zartman, Principal, of Purdue Polytechnic High School Broad Ripple and Jeremy Baugh, Principal, of Broad Ripple Middle School. Next, the Alliance received a presentation on transportation from Andrew Strobe, Deputy Superintendent, at Indianapolis Public Schools. Moreover, the Alliance received a presentation on transportation from Alicia Hervey, Founder and Executive Director, at the Path School. Continuing, the Alliance received a presentation on transportation from Tommy Reddicks, Chief Executive Officer, at Paramount Schools of Excellence. Finally, the Alliance received a presentation on transportation from Ryan Gail, Executive Director, at Victory College Prep.

At the end of the meeting, Mike O'Connor presented the creation of task forces – one for transportation and one for facilities. Mike O'Connor stated that each task fore will report back to the full Indianapolis Local Education Alliance during a public meeting in November. The transportation taskforce consisted of Tina Ahlgren, Andrew Neal, Maggie A. Lewis, and Tobin McClamroch. The facilities taskforce was comprised of Bart Peterson, Barato Britt, and Angela Smith Jones. Aleesia Johnson and Mayor Joe Hogsett were members of both transportation and facilities taskforces.

## Presentation – Wednesday, September 24th, 2025

# Indianapolis Local Education Alliance

September 24, 2025

1

## Agenda

- Welcome and Opening Remarks
- Transportation Panel
  - Andrew Strobe, *IPS*
  - Alicia Hervey, *The Path School*
  - Tommy Reddicks - *Paramount Schools of Excellence*
  - Ryan Gail - *Victory College Prep*
- ILEA Q&A
- Public Comment
- Closing and Next Steps

2

## **Welcome and Opening Remarks**

5

# Transportation Overview

September 24, 2025

2

- Current Overview
- Special Populations
- Innovation Partnerships
- Key Takeaways

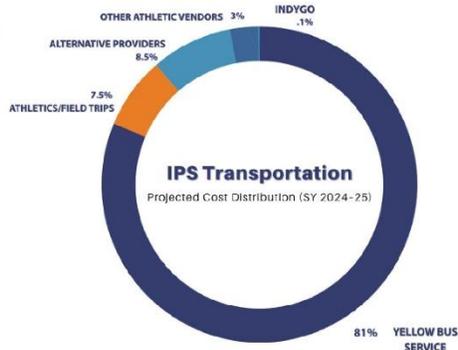

3

Current Landscape

4 Projected Cost Distribution (SY 2024–25)

Projected Cost Distribution (SY 2024–25)

- 81% Yellow Bus Service (First Student)
- 7.5% Athletics/Field Trips (First Student)
- 8.5% Alternative Transportation Providers
- 3% Other Athletic Vendors
- 0.1% IndyGo Student Passes

5 Cost Breakdown

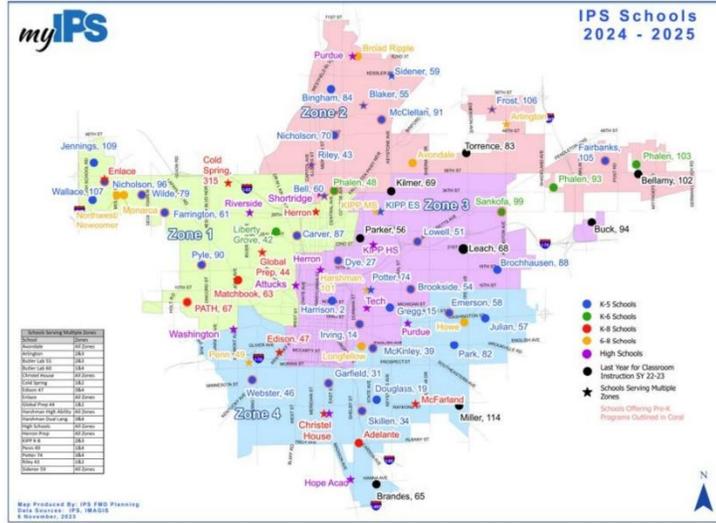

Breakdown of IPS transportation costs across student bus service, athletics, alternative providers, and public transit access. **Yellow bus** service is projected to **increase by 4% in SY 2025–26**.

Metric	Amount
Cost/Student (24-25)	\$2,300
Est. Cost/Student (25-26)	\$2,500
Yellow Bus (24-25)	\$40M
Athletics/Field Trips (24-25)	\$3.7M
Alt. Transport (24-25)	\$4.2M
Other Vendors - Athletics	\$1.5M
IndyGo Passes	\$66.6K

- **School Bus Service:** Eligibility is tied to a student's home address and assigned enrollment zone.
- **Walk Zones:** The distance to a school determines a student's eligibility for bus service and varies by grade level:
  - K–5: **1 mile or less**
  - 6–8: **1.25 miles or less**
  - 9–12: **1.5 miles or less**
- **IndyGo Partnership:** High school students can use public transit if the journey is under 50 minutes, requires no transfers, and includes less than 1 mile radius of walking distance.
- **Specialized Transportation:** Provided for students with IEPs or 504 plans that specify transportation as a related service.

Category	SY 2024–25 (Current)	SY 2025–26 (Projected)
IPS Students on Yellow Buses	15,500	14,000
Innovation Students on Yellow Buses	4,500	4,300
Students on IndyGo	900	900
Students in Walk Zones	2,250	2,100

**Special Education (SPED) Supports**

Transportation is directly linked to our special education services as a result many students require specialized transportation under federal law.

**The Scale and Cost of Services**

- Nearly **1 in 6** IPS students (~4,400 students) receive special education services.
- The average cost per student for high-needs programs ranges from **\$24,000 to \$52,000**.
- State special education funding (APC) averages only **\$8,000–\$20,000**, leaving IPS to cover the difference of **\$20,000–\$40,000** per high-need student.
- While most of the special education budget is used in the classroom, transportation services also incur significant costs.
  - These include:
    - i. Additional staff (bus monitors).
    - ii. Specialized equipment (harnesses, wheelchair lifts).
    - iii. Accommodations for routing and bus stops (door-to-door service in IEPs).

In addition to our other transportation services, we are legally required to provide transportation for students who are experiencing homelessness under the **McKinney-Vento Homeless Assistance Act**.

For the 2024-25 school year, IPS served **879** students under this provision, ensuring they have access to education regardless of their living situation.

First School Year in Innovation	Grades Served	School name
15.16	6-8	KIPP Indy College Prep Middle
15.16	K-5	KIPP Indy Unite Elementary
15.16	K-6	Phalen at Francis Scott Key 103
16.17	K-8	Cold Spring School
16.17	PK-8	Global Preparatory Academy
16.17	K-6	PLA at George H Fisher School 93
17.18	K-8	Edison School of the Arts 47
17.18	K-5	Thomas Gregg Neighborhood School 15
18.19	K-8	Matchbook Learning
19.20	9-12	KIPP Indy Legacy High
20.21	K-8	Adelante Schools at Emma Donnan
20.21	PK-6	PLA at Louis B Russell 48
20.21	PK-6	Sankofa School of Success 99
20.21	PK-8	The PATH School at Stephen Foster School 67
22.23	K-6	Liberty Grove Schools
22.23	6-8	Monarca Academy
23.24	PK-5	Washington Irving Neighborhood School 14

Since 2015, IPS has expanded its Innovation Network Schools to 30, with **17 of them including transportation services.**

A transportation system must provide the best possible service given competing priorities. There are seven factors to consider and they are often in tension with each other.

1. **Safety:** Ensuring student well-being through student management, bus monitoring, and mechanical inspections. This also includes tracking students and preventing crime.
2. **Compliance:** Adhering to vehicular regulations and legal requirements, such as those for special education (SpEd) and homeless services.
3. **Optimization:** Maximizing efficiency by adjusting the number of tiers, pairing routes, and managing route distances and ridership.
4. **Logistics:** Overcoming real-world challenges like staffing shortages, geographical barriers, and families moving frequently.
5. **Efficiency:** Reducing ride times and ensuring timely pick-ups and drop-offs, often coordinated with school bell times.
6. **Rate:** Managing costs, including fuel consumption, vehicle repair, staff salaries, and insurance.
7. **Responsiveness:** Addressing parent concerns, maintaining communication, and adapting to factors like school choice.

### Key Takeaways

**Transportation is a major equity lever:** IPS provides access to education through various transportation models, but the associated costs remain a significant challenge.

- **IPS provides significant in-kind contributions to Innovation schools.** These include transportation and facilities support, which represent tens of millions of dollars in annual costs to the district.
- **Future cost increases are likely:** With projected cost growth and ongoing underfunding, IPS will continue to face financial pressures in the coming years that impact level of service for families.

[paramountindy.org](http://paramountindy.org)

PARAMOUNT SCHOOLS OF EXCELLENCE

# CHALLENGES

LOCATION LOGISTICS

1) Not all PSOE sites are conducive to buses. Paramount Brookside and Paramount Cottage Home have logistical challenges for allowing buses in the lot.

ALL OR NONE CONUNDRUM

2) If you offer one bus, all other parents want to be bused as well. Scaled efforts are then challenging.

COST: ANNUAL RATES AND STAFFING RATES

3) Costs continue to prohibit busing for the PSOE network.

DEPENDABILITY & SAFETY

4) Problems with dependability/safety continue to compound frustration at existing busing campuses

## Victory College Prep

# Victory College Prep

## A MODEL ROUTED FOR EQUITY

### ABOUT OUR VCP NETWORK

**Victory College Prep empowers K-12 students** with the academic and social-emotional skills **to thrive in college or a career.**

- 20-year old, independent, mayor's-office charter network
- three-school two-campus model in Southeast Indianapolis
- 1,300+ students from historically marginalized communities
  - 90% economically disadvantaged
  - 90% identify as Black or Latino
- public and tuition free for all Indianapolis families

## OUR PHILOSOPHY ON TRANSPORTATION

We believe transportation is the #1 barrier to equitable access to high-quality education.

We commit **\$1.7M\*** annually to remove that barrier by funding the second largest transportation model in the city after IPS.

- most services provided by outside vendor (Miller)
- 1,000 routed students
- 24 distinct routes
- 400 individual route stops

*\*represents 10% of annual operating budget*

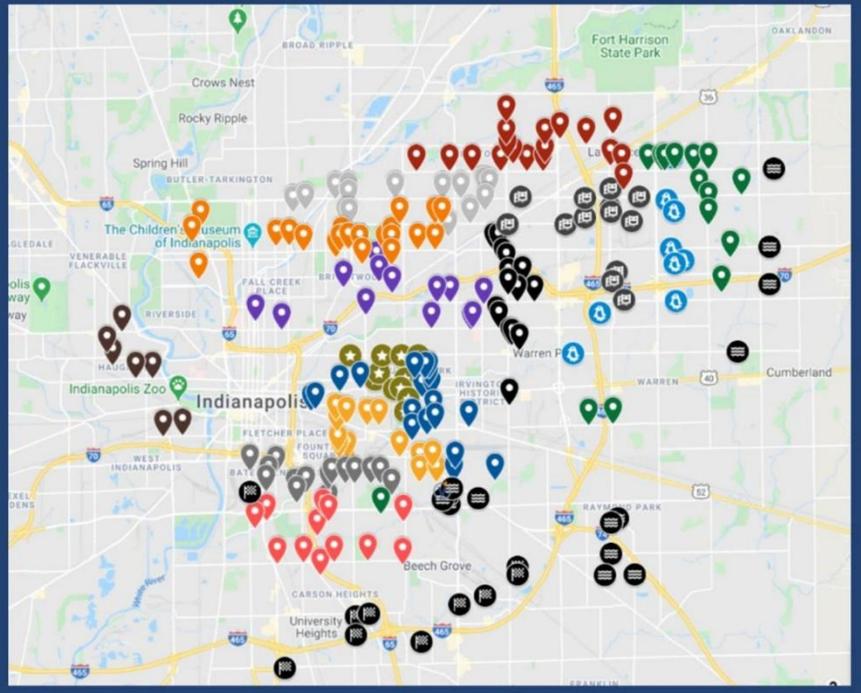

**Satellite stops**  
support 92% of  
routed students

**Curb stops**  
support students  
with special  
circumstances

**Consistency**  
benefits student  
retention

## BUSSING BEYOND THE SCHOOL DAY

**We supplement school day transportation with extended service**  
that supports beyond the classroom:

- enrichment experiences
  - 5 routes for internship experiences
  - 30+ field trip destinations
  - 10+ college campus visits
- athletics
  - 10 sports teams and more than 50 road competitions
- after-school programming
  - 6 routes twice weekly serve tutoring and club participants

## ONGOING SWOT ASSESSMENT

### STRENGTHS

- **Satellite stops** create maximum reach
- **Partners at route stops** create reliable pipelines
- **K-12 shared bussing** maximizes efficiency/cost
- **Local Vendor Management** increases adaptability

### OPPORTUNITIES

- **Improved bus tracking** and communication
- **Behavior supports** and restorative discipline implementation
- **Vendor capacity** limits effectiveness
- **Staffing resources required** to manage the system

# ILEA Q&A

45

## Public Comment Procedure

For everyone to have a fair chance to speak and be heard, please observe the following rules:

**First**, each speaker will be limited to **1** minute. When the timer sounds, please conclude your statement.

**Second**, please ensure comments reasonably relate to the work of the ILEA and address the alliance as a whole. Tonight, comments should focus on facilities.

**Finally**, please avoid repeating what a prior speaker has said so that we may hear from as many people as possible.

46

# Public Comment

47

## Tentative ILEA Roadmap

- **July/August:** Review current landscape, identify priority data around academics, transportation, facilities, etc.
- **September/October:** Issues deep dive to identify potential challenges and consider draft recommendations
- **November/December:** Continued analysis and refinement of recommendations
- **December:** ILEA adopts final recommendations. Plan submitted to state and local leaders by 12/31.

48

## Closing

Next steps include:

- Data collection and analysis ongoing

Next Meeting:

- 6 p.m., Wednesday, Oct. 22, 2025.
- Details and upcoming meeting schedule available at <https://www.indy.gov/activity/indianapolis-local-education-alliance>
- Contact [ILEA@Indy.gov](mailto:ILEA@Indy.gov) or [IPSExternalAffairs@myips.org](mailto:IPSExternalAffairs@myips.org) with questions or comments.

49

**IPS Family Transportation Survey– Wednesday, September 24th,  
2025**

# IPS Family Transportation Survey

---

To: IPS Executive Leadership Team  
From: Dr. Rachel Santos, Executive Director, Office of the Deputy Superintendent  
Date: July 16, 2025  
Subject: Transportation Survey Results

## Overview

This memo summarizes insights from a citywide family transportation survey developed and distributed by IPS in collaboration with partners across the city's public education landscape. The survey gathered feedback from 430 English-speaking families, 44 Spanish-speaking families, and 8 Haitian Creole-speaking families, representing IPS, mayor-sponsored charter schools, and other public school communities.

Launched in response to a directive from the 2025 Indiana General Assembly, the survey supports IPS's leadership of a collaborative planning process to design a safe, efficient, and equitable transportation system for all public school students in Indianapolis. The work is being guided through the newly established Indianapolis Local Education Alliance, with a final implementation plan due by December 31, 2025.

Designed as a values-driven tool, not a referendum on existing services—the survey aimed to understand families' lived transportation experiences, identify what matters most to them, and gather input on four potential models for future service. The results offer actionable insights to inform a more inclusive, family-centered transportation strategy at a time when statewide policy and local community voices are aligned around the need for collaborative, sustainable solutions.

---

## Survey Content Overview

### Section 1: About Your Family

Captures school type, grade levels, and current transportation method to segment responses by context.

### Section 2: Current Experience

Assesses satisfaction and gives families the chance to describe what's working and what's challenging.

### **Section 3: What Matters Most**

Families rate the importance of core values:

- Ride time
- Punctuality
- Physical and emotional safety
- Communication
- Convenience
- Overall satisfaction

### **Section 4: Feedback on Four Models**

Families were introduced to four potential transportation models and asked to provide detailed feedback:

- Model 1: Same-Enrollment Zone Mixed-Age Buses – Explores comfort level with mixed-age bus groupings, including supervision concerns and preferences for seating arrangements or adult monitors.
- Model 2: Cross-School Grade-Based Buses – Assesses behavioral dynamics, school identity cohesion, and communication needs among schools sharing a bus.
- Model 3: Community Transportation Hubs – Evaluates family willingness to travel to hubs and conditions needed to make hubs safe and practical.
- Model 4: Public Transit for High School Students – Measures student readiness for independence and gauges support for tools such as GPS tracking, free fare cards, and adult monitors at transfer points.

### **Section 5: Prioritization**

Families were asked to rank the four models in order of best fit. These rankings help IPS identify general preferences and potential friction points.

### **Section 6: Final Reflections**

Open-ended questions invited families to share what would make transportation better and what they want decision-makers to consider.

---

### **Who Participated in the Survey**

A total of 430 families participated in the citywide transportation survey, representing a diverse cross-section of school communities and student grade levels:

- School Types Represented:
  - IPS Schools: 71%
  - Mayor-Sponsored Charter Schools: 10%
  - Other Charter, Private, and Township Schools: 20%
  
- Grade Levels of Children (families could select multiple):
  - Grades 2–5: 45%
  - Grades 6–8: 40%
  - Grades 9–12: 33%
  - PreK–1: 25%
  
- How Students Get to School:
  - IPS-Managed School Bus: 39%
  - Dropped Off or Picked Up by Family: 36%
  - Charter-Managed School Bus: 7%
  - Walk or Bike: 7%
  - Public Transit (IndyGo): 2%
  - All Other Modes: 10%

#### **Satisfaction with Current Transportation**

Family experiences with transportation were mixed. Many shared positive feedback about the service being free, safe, and courteous. Others raised concerns about delays, inconsistent reliability, and safety risks.

#### **What Families Like Most**

- **Reliability & Convenience:** Respondents appreciated dependable and punctual service that aligns with work and family schedules.
- **Safety & Trust:** Families expressed strong trust in bus drivers and a sense of security during student travel.
- **Tracking & Communication:** The First Student app was praised for real-time updates and notifications.
- **Cost-Effectiveness:** Free transportation eased financial pressure for many households.

- **Driver Quality:** Bus drivers were consistently described as kind, professional, and attentive.

#### **What Matters Most in Transportation**

- On-time pick-up and drop-off
- Physical and emotional safety
- Shorter ride times
- Clear communication from the district
- Convenience for families

#### **Top Challenges and Concerns**

- **Loss of Transportation:** Concerns about policy changes that could eliminate or limit access.
- **Safety:** Reports of bullying, unsafe stops, and insufficient adult supervision.
- **Reliability & Efficiency:** Complaints about delays, long routes, and inconsistent GPS data.
- **Bus Stop Accessibility:** Many families noted that stops are too far or in unsafe locations.
- **Driver & Staffing Issues:** Frequent substitutes and driver shortages impacted consistency.

#### **What Families Want Leaders to Know**

- **Safety:** Prioritize monitoring, route safety, and considerations for special needs students.
- **Reliability & Convenience:** Focus on predictable, timely service.
- **Equity & Access:** Guarantee access for students with disabilities and those in underserved areas.
- **Transparency & Communication:** Keep families informed and engaged in planning.
- **Funding & Resources:** Address concerns about budget limitations and equitable charter contributions.

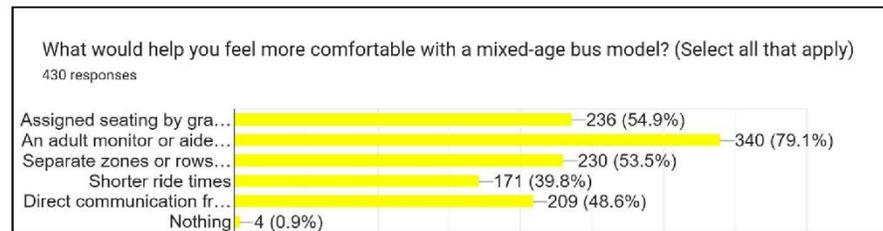

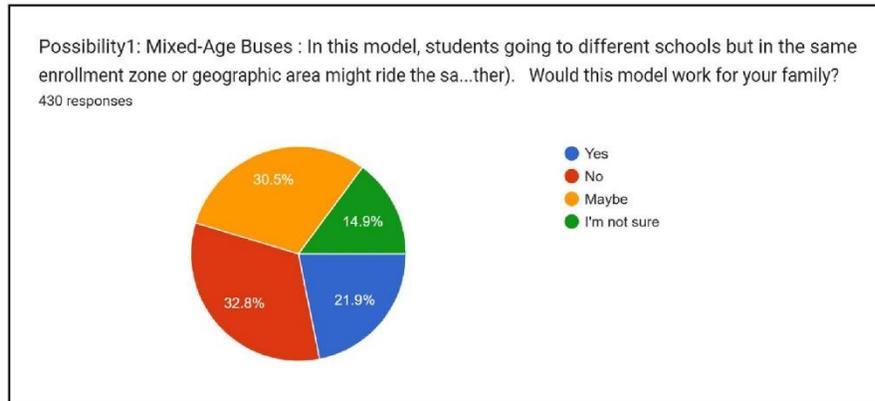

## Model Feedback & Family Concerns

### Model 1: Same-Enrollment Zone Mixed-Age Buses

This model proposes combining students of different ages and schools within the same enrollment zone onto a single bus. While some families see this as potentially efficient, the majority expressed concerns about behavior, supervision, and emotional maturity differences. Key suggestions to increase comfort include adult monitors, assigned seating, and clear communication structures. The charts below illustrate family responses regarding feasibility, concerns, and conditions for support. **Approximately 22% of families said this model would work for their family.**

#### Concerns Identified by Respondents:

- 78% – Behavior or bullying between age groups
- 73% – Safety or supervision concerns
- 62% – Language or content exposure (e.g., older students using inappropriate language)
- 61% – Emotional maturity differences

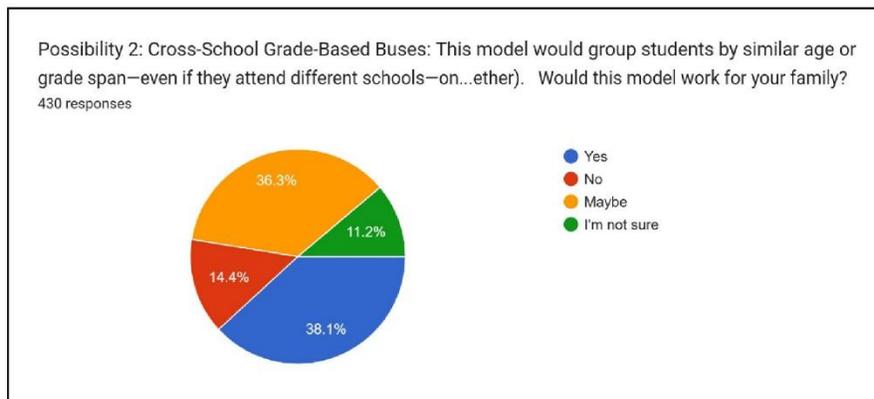

**Model 2: Grade-Based Buses Across Schools**

Under this model, buses would group students by grade band (e.g., K–3) even if they attend different schools. Families responded more favorably here than to Model 1, citing fewer safety concerns when age ranges are narrower. Top challenges include unfamiliar peers and longer routes. Families emphasized the importance of behavioral expectations, adult monitors, and strong communication protocols to make this model viable. The following visuals highlight model support levels and improvement priorities.

**Approximately 38% of families said this model would work for their family.**

**Top Concerns Identified by Respondents (multiple selections allowed):**

- Longer routes or transfers – 65%
- Disconnected bus culture – 55%
- Behavior management across schools – 54%
- Ensuring correct drop-off locations – 55%
- Unfamiliar peers and potential conflict – 37%
- No concerns – 11%

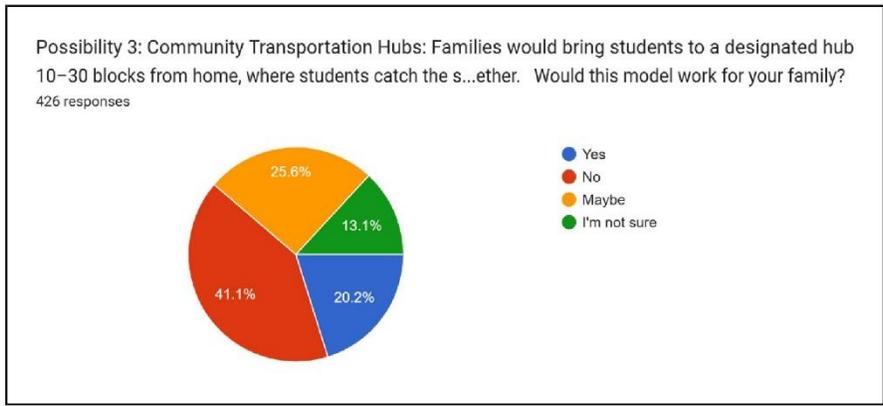

**Model 3: Community Transportation Hubs**

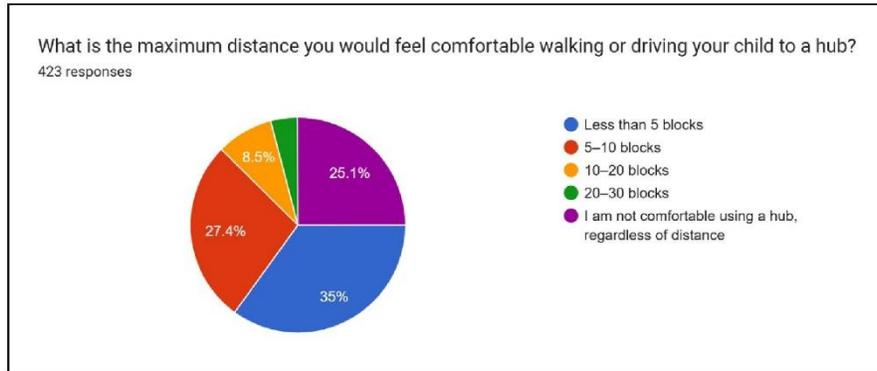

This model envisions families taking students to centralized hub locations to catch their school-specific buses. While some families appreciate the potential efficiency, many are concerned about accessibility, safety while walking or biking, and supervision at the hubs. The responses show divided opinions and highlight the need for secure, well-staffed, and weather-protected environments. Below are visual summaries of perceived feasibility, distance tolerances, required conditions, and top concerns.

**Approximately 20% of families said this model would work for their family.**

**Top Concerns Identified by Respondents (multiple selections allowed):**

- Lack of supervision or adult presence – 77%
- Weather conditions or lack of shelter – 74%
- Safety while walking, biking, or riding to the hub – 67%
- Time pressure with work or morning routines – 62%
- Transportation needs for multiple children – 49%
- Access for students with disabilities – 40%
- Securing a vehicle or other means of transportation – 33%

**Top Supports That Would Improve Hub Usability:**

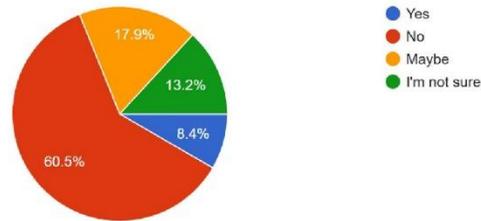

- Adequate lighting and weather protection – 57%
- Secure, monitored location – 56%
- Safe sidewalks or walking paths – 55%
- Morning supervision by school or community staff – 50%
- Afternoon supervision until all students are picked up – 47%
- Drop-off/pick-up car lanes for families who drive – 41%
- Not applicable – would not use a hub – 32%

**Model 4: Public Transit for High School Students**

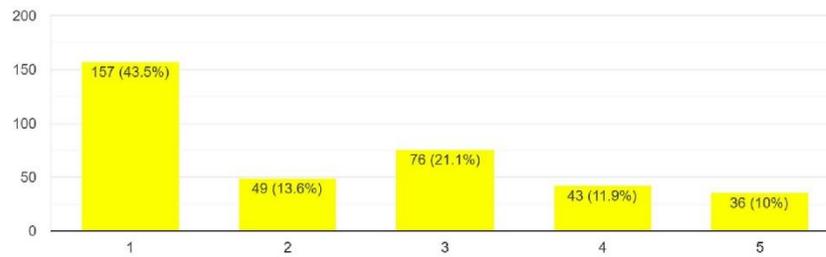

This model would shift most high school transportation to the city’s IndyGo public bus system, requiring some students to make 2–3 transfers. Families overwhelmingly opposed this model, citing low confidence in student readiness and concerns about safety and independence. Few identified this as a viable solution without significant safeguards. **Approximately 8% of families said this model would work for their family.**

- **Concerns:** Student safety, route complexity, independence readiness, and lack of adult monitoring

Possibility 4: Public Transit for All or Nearly All High School Students: Older students would take IndyGo public buses, possibly making 2–3 transfers,...times). Would this model work for your family?  
418 responses

How prepared do you feel your high school student is to use public transit independently?  
361 responses

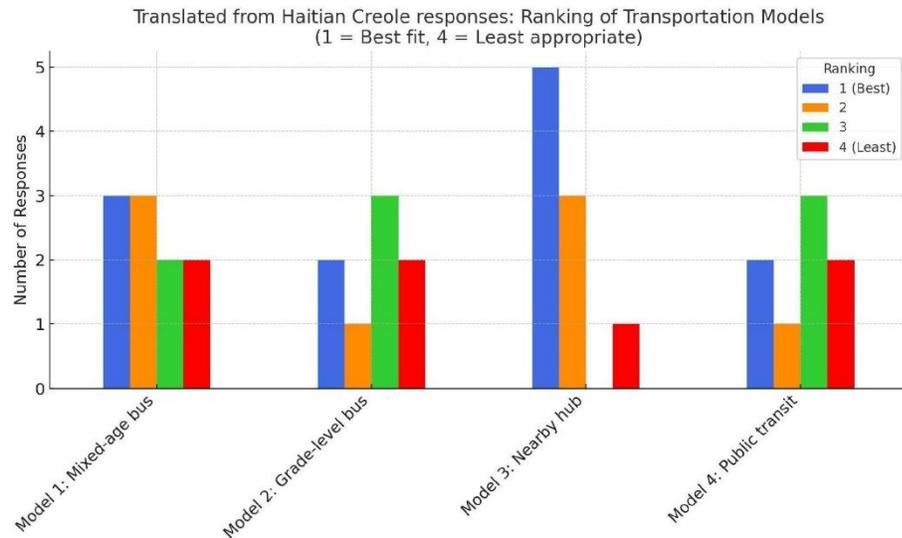

---

### Voices from IPS's Multilingual Communities

#### Haitian Creole Respondents (8 responses)

##### Key Themes:

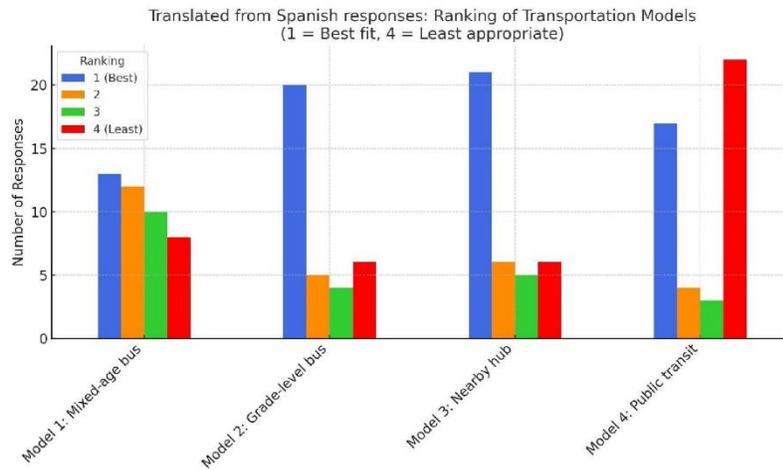

- **Likes:** Convenience, comfort, communication, and helpfulness of transportation.
- **Challenges:** Delays, uncertainty, and safety.
- **Suggestions:** Closer pickup points, single-bus routes, better communication.
- **Highest Ranked Model:** Model 3 (Community Hubs)

**Spanish-Speaking Respondents (44 responses)**

**Key Themes:**

- **Likes:** Safe drivers, reliable timing, access for families without transportation.
- **Challenges:** Bullying, driver trust, inconsistent schedules, and inaccessible stops.
- **Suggestions:** Adult bus monitors, GPS tracking, improved communication.
- **Highest Ranked Model:** Model 3 (Community Hubs)

### Questions to Consider

- Which model or combination of models offers the strongest foundation for a transportation system that is safe, equitable, and family-centered across all public schools in Indianapolis?
- How can the city ensure that transportation strategies meet the needs of vulnerable populations, including students with disabilities, young children, and those living in high-risk or underserved areas?
- What adult supervision, safety protocols, and infrastructure improvements are necessary to build parent confidence and ensure student well-being across all models?
- What resources, funding mechanisms, or cross-sector partnerships will be required to implement a sustainable citywide solution?
- How will IPS and its partners maintain clear, transparent, and culturally responsive communication with families, before, during, and after implementation?

### **Conclusion: A Citywide Opportunity to Lead with Families**

The citywide family transportation survey—led by IPS—shows that many families who currently rely on IPS transportation services are satisfied, especially valuing its safety, reliability, and affordability. Importantly, only a small share of current users expressed dissatisfaction. However, as Indianapolis explores new models for transportation delivery, families voiced clear priorities for any future changes: predictable operations, clear and timely communication, and strong adult supervision. Given that 41% of survey respondents currently rely on IPS-managed buses, any transition must be carefully managed to avoid disruptions and to maintain the trust and confidence of families who depend on the current system.

Models 2 (grade-based buses) and 3 (community hubs) emerged as the most viable options, though families identified critical conditions for their success: safety infrastructure, predictable service, and equitable planning that supports young children, students with disabilities, and families without access to personal transportation.

As Indianapolis's largest school transportation provider, IPS has both the responsibility and the opportunity to help shape a citywide model that is family-centered, operationally sound, and sustainable. But this work must be shared. It requires genuine partnership with charter schools, city agencies, and community organizations to develop solutions that reflect the full diversity of Indianapolis's public school ecosystem.

This memo brings forward the voices of families from across the city. Their insights offer both a foundation and a call to action. With shared focus and commitment, Indianapolis can design a transportation system that truly works for all students, no matter where they live or what type of school they attend.

# IPS Transportation Memo – Wednesday, September 24th, 2025

**To:** Indianapolis Local Education Alliance Members  
**From:** IPS Executive Leadership  
**Subject:** Transportation Insights  
**Date:** September 19, 2025

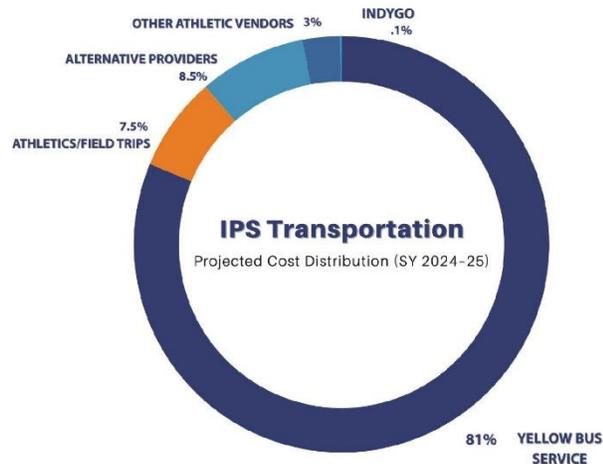

## Executive Summary: IPS Transportation and SPED Supports

### Transportation at a Glance

IPS transportation is one of the largest operational costs for the district. Services are offered to IPS schools and most Innovation schools at no direct charge to families or schools.

### Projected Cost Distribution (SY 2024–25)

- 81% Yellow Bus Service (First Student)
- 7.5% Athletics/Field Trips (First Student)
- 8.5% Alternative Transportation Providers
- 3% Other Athletic Vendors
- 0.1% IndyGo Student Passes

### Key Takeaways for ILEA Members

- **Transportation is central to equity:** IPS provides yellow bus service to nearly 20,000 students, plus IndyGo and specialized transportation for students with disabilities.
- **Innovation schools benefit from significant in-kind services:** IPS spent **\$12M** on Innovation transportation and **\$41M** on facilities/security in 2024-25, costs not billed to schools.
- **Cost pressures are increasing:** Yellow bus costs are projected to rise **4% in SY 2025–26**.
- **Special education is underfunded relative to the need of students:**
  - Nearly **1 in 6 students** has an IEP (~4,400 students).
  - IPS spends **\$20K–\$40K more per high-need student** than state funding provides.
- **District-wide impact:** IPS is absorbing millions in additional costs to ensure equitable access to transportation and education, a critical challenge for long-term stability and sustainability.

## Transportation Overview

Transportation is one of the largest operational responsibilities for Indianapolis Public Schools (IPS), serving both district-run and Innovation Network schools. We work to balance efficiency, equity, and compliance with state and federal mandates while also managing substantial in-kind costs that directly support Innovation Network schools.

### Student Eligibility and Services

IPS provides transportation based on student needs and location:

- **School Bus Service:** Eligibility is tied to a student's home address and assigned enrollment zone.
- **Walk Zones:** The distance to a school determines a student's eligibility for bus service and varies by grade level:
  - K–5: **1 mile or less**
  - 6–8: **1.25 miles or less**
  - 9–12: **1.5 miles or less**
- **IndyGo Partnership:** High school students can use public transit if the journey is under 50 minutes, requires no transfers, and includes less than 1 mile radius of walking distance.
- **Specialized Transportation:** Provided for students with IEPs or 504 plans that specify transportation as a related service.

### Transportation Models and Participation

The table below highlights our student transportation usage for the current and upcoming school years.

**Table 1:** Transportation by category - SY 2024-25 & SY 2025-26 (Projected)

Category	SY 2024–25 (Current)	SY 2025–26 (Projected)
IPS Students on Yellow Buses	15,500	14,000
Innovation Students on Yellow Buses	4,500	4,300
Students on IndyGo	900	900
Students in Walk Zones	2,250	2,100

## Vendor Costs and In-Kind Contributions

IPS transportation is a mix of in-house services and external partnerships.

- **First Student (Yellow Bus Service):** This is our largest cost driver, accounting for **81%** of the transportation budget. Costs are projected to rise by **4%** in the 2025–26 school year.
- **Other Vendors:**
  - **First Student (Athletics & Field Trips):** 7.5% of costs.
  - **Alternative & Other Athletic Transportation:** 8.5% of costs.
  - **IndyGo (Student Passes):** 0.1% of costs.

IPS provides significant in-kind services to the Innovation Network, which has been a key factor in innovation expansion. This support includes access to district-owned facilities and the absorption of millions in transportation and security costs.

For example, in 2024–25, the district covered **\$12 million in transportation costs**, which accounted for **23% of the total transportation budget**.

IPS also actively helps Innovation schools grow. The implementation of enrollment zones for Adelante Schools, for instance, expanded transportation access and contributed to a 33% increase in the school's year-over-year enrollment.

Since 2015, the district's Innovation Network has grown to 30 schools, with **17 of them now receiving transportation services**.

**Table 2: Innovation network schools receiving IPS transportation services**

Grades Served	School name
6-8	KIPP Indy College Prep Middle
K-5	KIPP Indy Unite Elementary
K-6	Phalen at Francis Scott Key 103
K-8	Cold Spring School
PK-8	Global Preparatory Academy
K-6	PLA at George H Fisher School 93
K-8	Edison School of the Arts 47
K-5	Thomas Gregg Neighborhood School 15
K-8	Matchbook Learning
9-12	KIPP Indy Legacy High
K-8	Adelante Schools at Emma Donnan
PK-6	PLA at Louis B Russell 48

PK-6	Sankofa School of Success 99
PK-8	The PATH School at Stephen Foster School 67
K-6	Liberty Grove Schools
6-8	Monarca Academy
PK-5	Washington Irving Neighborhood School 14

### Special Education (SPED) Supports

Transportation is directly linked to our special education services, as many students require specialized transportation under federal law.

#### The Scale and Cost of Services

- Nearly **1 in 6** IPS students (~4,400 students) receive special education services.
- The average cost per student for high-needs programs ranges from **\$24,000 to \$52,000**.
- State special education funding (APC) averages only **\$8,000–\$20,000**, leaving IPS to cover the difference of **\$20,000–\$40,000** per high-need student.
- The majority of special education budget encroachment occurs in the classroom. For transportation services, the additional costs for serving students with special needs comes from **additional staffing** (bus monitors), **specialized equipment** (harnesses & wheel chair lifts), and **routing/bus stop accommodations** (door-to-door exceptions in IEP).

### McKinney-Vento Students

In addition to our other transportation services, we are legally required to provide transportation for students who are experiencing homelessness under the **McKinney-Vento Homeless Assistance Act**. For the 2024-25 school year, IPS served **879** students under this provision, ensuring they have access to education regardless of their living situation.

---

### Key Takeaways for the Alliance

- **Transportation is a major equity lever:** IPS provides access to education through various transportation models, but the associated costs remain a significant challenge.
- **IPS provides significant in-kind contributions to Innovation schools.** These include transportation and facilities support, representing tens of millions of dollars in annual costs.
- **SPED supports are underfunded:** IPS is forced to cover a substantial funding gap to meet its legal and ethical obligations to students, creating significant structural budget pressures.
- **Future cost increases are likely:** With projected cost growth and ongoing underfunding, IPS will continue to face financial pressures in the coming years.

# OEI Charter Data Report – Wednesday, September 24th, 2025

Indianapolis Local Education Alliance  
September 24, 2025  
Charter School Data Report

---

## EXECUTIVE SUMMARY

This report has been prepared by the Office of Education Innovation (OEI) for members of the Indianapolis Local Education Alliance (ILEA). The information presented draws from a combination of public state-level data or was submitted directly to OEI by charter school leaders. Of the 54 independent charter and Innovation Network charter schools within the IPS boundary, 50 submitted partial or complete data referenced in this analysis. Data from adult high schools and virtual schools have been excluded.

Section 1 offers foundational data to review about charter schools within the IPS boundary and innovation schools, while Section 2 offers transportation data including costs, models, and vendors.

Rounding, categorization, and differing interpretations may introduce minor inconsistencies between these and external datasets, which should be considered in any further analysis. While this report is not exhaustive, it highlights key trends and descriptive context that reflect the diversity and complexity of the charter school environment in Indianapolis.

This report includes:

- Section 1: Public School Breakdown
- Section 2: Transportation
  - 2.1 Charter School Transportation Overview
  - 2.2 Transportation Models
  - 2.3 Transportation Vendors and Costs
  - 2.4 McKinney-Vento Services
- Section 3: IPS Boundary Geographical Map
- Appendix A: Data Sources

Each section is intended to provide clarity on how charter schools invest in transportation to inform the ILEA for future recommendations. Data from adult high schools and virtual schools have been excluded. Of the 52 independent charter and Innovation Network charter schools, 50 submitted partial or complete data for this analysis. Publicly available data from charter school audits is included for all schools in the analysis.

Please note, rounding, categorization, and school-specific interpretations may introduce minor inconsistencies between these and external datasets that should be considered in any further analysis. In addition, much of the data presented in this report is not routinely tracked in this format, so it's important to recognize that the analysis may not be fully comprehensive.

## SECTION 1: PUBLIC SCHOOL BREAKDOWN

This section provides detailed lists of public schools within the IPS boundary, categorized by type (e.g., IPS Direct Managed, IPS In-LEA Innovation, IPS Innovation Charter, Independent Charter) governance structure, and grade levels served. This data helps contextualize the variety of school models currently operating and the different oversight structures in place.

### Key Findings

**Total Schools:** There are 103 public schools operating within IPS boundaries, of which Innovation Network Schools make up a significant share.

**Charter Schools:** 54 charter schools operate in the city, both as independent charters and as part of the IPS Innovation Network. They collectively serve more than half of students enrolled in the IPS boundary.

**Innovation Partnerships:** IPS collaborates with charter schools through the Innovation Network, providing district facilities, in-kind services, and enrollment system access, which shapes facility and cost structures.

### Public School Types

**IPS Direct Managed:** Traditional district-run public schools fully operated, staffed, and managed by IPS without an innovation agreement. These schools follow all IPS policies and oversight structures. These schools are operated and overseen by IPS and the Board of Commissioners and are part of the IPS Local Education Agency (LEA).

**IPS In-LEA Innovation:** Schools that are part of the IPS district but are operated under Innovation agreements that give them certain freedoms and flexibilities in terms of budgeting, programming, and hiring. These schools use IPS facilities and receive IPS transportation. These schools are not charter schools and might also be called “In-LEA Innovation Schools.”

*What is an LEA? A Local Education Agency (LEA) is the legal entity responsible for compliance with state and federal education law (e.g., special education, Title I). IPS is the LEA for all direct-run schools and In-LEA Innovation Schools. IPS Innovation Charter Schools and independent charters have their own LEA status.*

**IPS Innovation Charter:** Schools that are part of the IPS Innovation Network but are run by charter operators and overseen by charter authorizers. Some of these schools use IPS facilities and receive IPS transportation services under their Innovation agreements. They are considered their own LEA/district and might also be called “Non-LEA Innovation Schools”.

**Independent Charter:** These schools are run by charter operators and overseen by authorizers. They have no formal affiliation with IPS and are not part of the Innovation Network.

### Overall Number of Schools and Enrollment by School Type, 2024-25 School Year

Type	Number of Schools	Enrollment
IPS Direct Managed	44	18,970
Independent Charter	29	10,415
IPS Innovation Charter	25	11,071
IPS In-LEA Innovation	5	2,092
<b>Total</b>	<b>103</b>	<b>42,548</b>

### Public Charter School Breakdown Reference Sheet, 2024-25 School Year

This excludes two virtual schools and all adult high schools in the boundary.

## SECTION 2: TRANSPORTATION

This section provides a detailed view of how charter school students across the IPS boundary accessed transportation in the 2024-25 school year. The data includes modal breakdowns (yellow bus, IndyGo, walking, car rider, and other) and annual costs. Transportation models vary significantly by school type, with IPS providing services to many Innovation schools, while independent charters often contract with external vendors. Costs range from under \$200,000 to over \$1,000,000 annually, with notable variation in vendor types and needs. Additionally, McKinney-Vento services are provided at select schools, supporting students experiencing homelessness through specialized transportation arrangements.

### Note on Data Availability

Data that is represented by “\*\*\*\*” (asterisks) indicates data was not provided at the time of publication. Data with “N/A” indicates the data was not applicable to the school. Data that has “###” (pound signs) means the information was reported for the network as a whole, rather than each school, and therefore only one school in the network has information populated in a chart.

### Key Findings

**Transportation Models:** About half of innovation charter schools use IPS bus services, and a little less than half of independent charter schools directly provide bus service. Most schools use a combination of bus routes, walking routes, car riders, and public transportation.

**Transportation Costs:** Costs range from under \$200,000 to over \$1,000,000 annually, with notable variation in vendor types and needs. Independent Charter schools spend anywhere from \$140,000 to upwards of \$1.3M.

**Other Transportation Support:** Some charter schools offer other modes of transportation in addition to standard yellow bus services, such as monthly gas cards to families or smaller buses/vans for specific student populations.

### 2.1 Charter School Transportation Overview

All charter schools located within the IPS boundary have the autonomy to determine whether and how they provide transportation services. While all schools accommodate walkers and car riders, not all offer bus transportation for students. Given that charter schools serve students from across Marion County, developing bus routes that span the entire county can be prohibitively expensive.

Innovation Network Schools may have greater flexibility to offer transportation through their contractual agreements with IPS; however, participation in IPS-provided bussing varies by school. In addition to cost considerations, charter schools often evaluate factors such as location, property accessibility, and the needs of their student population when determining transportation options.

Please note that all data presented below is self-reported by schools, with the exception of McKinney-Vento student counts. Transportation offerings are subject to change annually based on school-level decisions and evolving family needs. Each school's approach reflects its unique context and priorities.

## 2.2 Transportation Models

All schools in the boundary utilize walkers, car riders, yellow buses, IndyGo, and various other buses as modals of transportation. Information and data about each are below.

Walkers: All schools in the IPS boundary have walkers.

If a charter school provides transportation, they mandate their own walk zones, which can vary amongst schools. For charter innovation schools that use IPS bus services, the IPS walk zone applies to their students. Under the IPS walk zone, a student is classified as a walker if they meet the following conditions:

- K-5: the student lives 1 mile or less from their school
- 6-8: the student lives 1.25 miles or less from their school
- 9-12: the student lives 1.5 miles or less from their school

Car Riders: All charter schools in the IPS boundary have car riders.

Yellow Bus: Almost half of charter innovation schools use IPS bus services. Less than half of independent charters have their own bus services, while more than half do not offer bus services.

IndyGo: Several charter schools have partnered with IndyGo to provide bus passes to students for daily transportation to and from school. The data below reflects those who provide passes, although it's assumed that most schools, regardless of type, have students who use IndyGo as a mode of transportation regardless of if the school provides the passes.

Other: Some charter schools offer other modes of transportation in lieu of or in addition to standard yellow bus service. This data is complex, as it reflects multiple alternative options that schools have for certain populations. For example, this data could include McKinney-Vento student transportation, monthly gas cards to families, or an innovation school having a separate smaller bus or van picking up students outside the IPS bus route.

It's important to note this data is non-exhaustive, as schools have various ways supporting students and families with transportation. Schools all have different student populations with different needs, but they may not have formally reported all services offered in this report.

<b>Total</b>	<b>1,879</b>	<b>7,548</b>	<b>8,203</b>	<b>867</b>

### 2.3 Transportation Vendors and Costs

More than 30 charter schools offer bus service to and from school, which includes Innovation Charter schools using IPS bus service and service provided by independent charter schools directly or through a separate contract. Schools that contract their bus service either use Miller Transportation, Central Transportation, or First Student, though Miller Transportation is the majority. Some reported data reflects as-needed transportation, such as for field trips, extracurricular activities, or before and after care, instead of through regular routes students access near their homes.

In total, Independent Charter schools spend anywhere from \$140,000 to upwards of \$1.3 million, with certain costs ranging from \$5,000 to \$20,000 for as-needed contracts. Please note there are special cases, such as Hope Academy, a Recovery High School, that has a smaller population of students, leading to transportation costs of about \$72,000.

#### 2.4 McKinney-Vento Services

Subtitle VII-B of The McKinney-Vento Homeless Assistance Act authorizes the Federal Education for Homeless Children and Youth Program and is the primary piece of federal legislation related to the education of children and youth experiencing homelessness. It was reauthorized in December 2015 by Title IX, Part A, of the Every Student Succeeds Act.

Under McKinney-Vento, a student is considered homeless if they lack a fixed, regular, and adequate nighttime residence. This includes students who:

- Share housing with others due to loss of housing, economic hardship, or similar circumstances
- Reside in motels, hotels, trailer parks, or campgrounds due to lack of alternative adequate accommodations
- Live in emergency or transitional shelters
- Have been abandoned in hospitals

School districts are required to provide transportation for students experiencing homelessness under three specific circumstances.

1. Upon request by a parent, guardian, or—in the case of unaccompanied youth—the district’s homeless liaison, the district must provide transportation to the student’s school of origin. This obligation applies regardless of whether transportation is provided to other students.
2. Districts must offer transportation services to homeless students that are comparable to those provided to housed students. For example, if transportation is provided to housed students for attending the local school or a summer program, the same must be offered to students experiencing homelessness

3. Districts must ensure that lack of transportation does not prevent a homeless student from enrolling in or attending school. If a student lives in a location that poses safety risks—such as near a busy intersection or in a hazardous neighborhood—the district must provide transportation to eliminate that barrier.

Schools are required to collect McKinney-Vento student data, but it is not publicly tracked at the state or federal level. In 2021, OEI compiled McKinney-Vento data for mayor-sponsored charter schools, which is included below. Data for charter schools overseen by other authorizers are not included. To protect student privacy, counts of fewer than 10 students will be represented as “<10”

You can find more information about the federal requirements on the IDOE’s website: (<https://www.in.gov/doc/home/mckinney-vento-homeless-children-and-youth-program>).

### SECTION 3: IPS BOUNDARY GEOGRAPHICAL MAP

This visual representation of public school locations across the district and city-county provides important geographic context to support discussions around access, transportation, and area-based planning. This map was created by IndyGIS, with consultation and data provided by the Office of Education Innovation and public data.

Use the [map link](#) to explore online.

Map Key:

-  IPS Direct Managed
-  OEI (Includes Innovation Charter)
-  ICSB (Includes Innovation Charter)
-  Trine

## APPENDIX: DATA SOURCES

### Transportation Data

- School-provided
- [DOE: McKinney-Vento: Homeless Children and Youth Program](#)

### Indianapolis/Marion County Public School Map

- GIS Map courtesy of IndyGIS

This report is provided for informational and policy-planning purposes only. It is not intended to serve as legal, financial, investment, or accounting advice. The financial data and analysis are based on publicly available information, including audited financial reports and state-published data, and should not be relied upon for decision-making without independent verification.

Readers are encouraged to consult with qualified professionals before making any decisions related to school finances, real estate transactions, or charter operations. Neither the authors nor the Office of Education Innovation make any representations or warranties as to the completeness, accuracy, or timeliness of the information contained in this report.

## **Wednesday, October 22, 2025, Public Meeting**

The fifth full meeting of the Indianapolis Local Education Alliance was held on Wednesday, October 22nd, 2025, and was a general organization meeting held at City-County Building, Public Assembly Room from 6:00 P.M. – 8:40 P.M with 30 minutes committed to public comment. 39 people were signed up to testify. Of attendance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, Barato Britt and Angela Smith Jones.

This meeting was centered around the conversation of how different school systems operate transportation, facilities, and governance. In the meeting, the Alliance first received an informational presentation on Denver Public Schools from Alyssa Whitehead-Bust, Co-founder and Partner of Attuned Education Partners. Next, the Alliance received a presentation on D.C. Public Schools from Paul Kihn, Deputy Mayor for Education, D.C. Finally, the Alliance had questions and answers with both Alyssa and Paul to give perspective on the various takeaways and guidelines Alliance members could partake as they think about models of transportation, facilities, and governance.

### **Presentation – Wednesday, September 24th, 2025**

# Indianapolis Local Education Alliance

October 22, 2025

1

## Agenda

- Welcome and Opening Remarks
- Alyssa Whitehead-Bust, *Attuned Education Partners*, Presentation on Denver Public Schools
- ILEA Q&A – Denver Public Schools
- Paul Kihn, *Deputy Mayor for Education, D.C.*, Presentation on D.C. Public Schools
- ILEA Q&A – D.C. Public Schools
- Public Comment
- Closing and Next Steps

2

## **Welcome and Opening Remarks**

 Attuned Education Partners ©

## A career educator, I currently co-lead Attuned Education Partners

Founded in 2016, Attuned is a team of nationally-respected practitioners with a proven record of guiding school systems to transformational outcomes.

### Our vision

All students have access to educational excellence.

### Our mission

Our experienced practitioners combine empathy and rigor to help PK-12 systems and leaders become well *aligned* and well *equipped* to deliver breakthrough outcomes for all students—especially those furthest from opportunity.

## Over the past decade, Attuned has supported 300+ school systems

Attuned has partnered with over 300+ PK-12 school systems nationwide that are also committed to serving students and families historically marginalized by our education system.

### 300+ org partners

Including districts, CMOs, funders, state DOEs, and nonprofits (e.g., support or advocacy orgs)

### 31 states

31 states: Experience spans rural and urban districts, from small (<5k students) to large systems (>25k)

### 1.6+ million students served

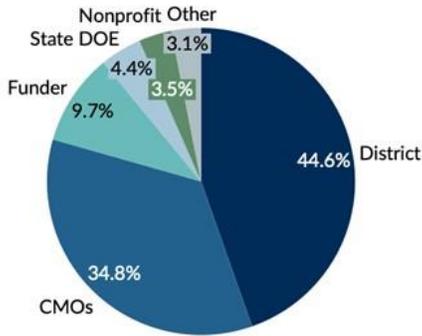

With over 1 million Black/Latinx students served and with systems that are on average ~75% Black/Latinx

## We work across governance models, mostly with districts and charters

From state DOEs to Council of Great City Schools districts, leading CMOs, and smaller rural systems, our partnerships reflect the breadth of PK-12 education nationwide.

Breakdown of Org Partners by Type

Example Org Partners

## Prior to launching Attuned, I led at the school and system levels in Denver

Chief Academic Innovation Officer (2011-2016 & independent consultant prior)

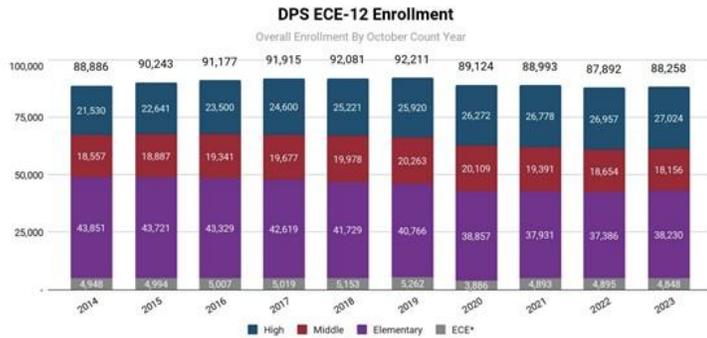

- Oversaw core academic functions for district
- Designed, launched, and/or improved systems for Denver's "family of schools" approach
- Launched and oversaw DPS' design thinking lab, the Imaginarium

## Table of Contents

- 4 Introduction
- 9 The purpose and impact of Denver’s “family of schools” approach
- 18 DPS’ enabling policies and practices
- 47 Lessons learned
- 49 Resources

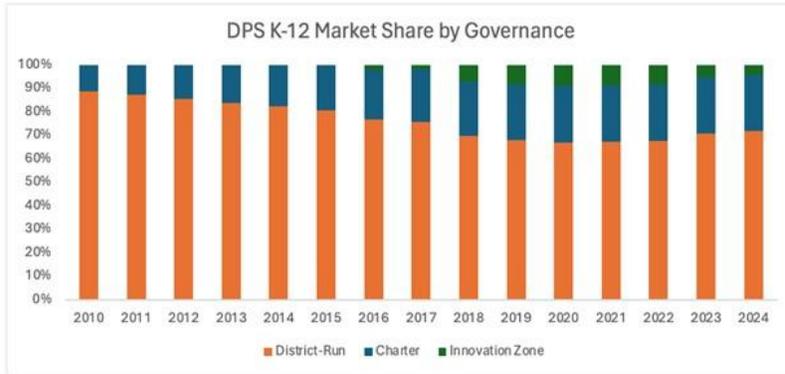

Denver Public Schools serves ~90,000 students in 212 schools; much of the work we’ll discuss today happened during a period of enrollment growth

**In 2024-25:**

- **63%** of DPS students were eligible for free or reduced price lunch
- **41%** are multilingual learners (MLLs), with **28%** actively receiving supports
- **53%** are Hispanic / Latinx, **25%** White, **13%** Black

**DPS has long operated as a “family of schools”, with ~30% of students served in charter or innovation zone schools**

- **District-managed school:** Operated by DPS directly
- **Innovation school:** District-managed schools granted ability to waive certain requirements (e.g., schedules, hiring processes, curriculum)
- Innovation zone school:** Innovation schools formed together to be managed by independent non-profit boards.
- **Charter school:** Non-profit entities with own boards of directors responsible for school operations.

**DPS’ family of schools approach was seen as a key driver to meeting 2020 Denver Plan Goals**

➤ **By 2020, 80% of DPS students will attend a high-performing school, measured by region using the district’s School Performance Framework.**

## The family of schools work was codified through the flexibility strategy and the family choice/access belief in The Denver Plan 2020

### Flexibility Strategy Unpacked

- Empower schools with **flexible, school-based decision-making** and resource use.
- Expand high-quality choices across all communities through **differentiated supports, new school strategies, turnarounds, and strong accountability systems.**
- **Encourage innovation** and create environments that meet **academic and social-emotional needs, including personalized learning opportunities.**

## DPS developed systems to promote school-based flexibility while also relying on strong and consistent system-wide policies and processes

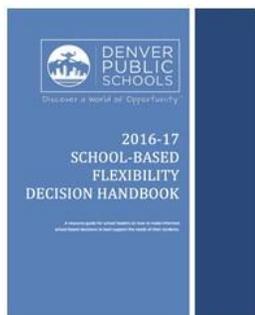

### School-level Flexibility

"...School leaders and their teams, working with their communities, should have a strong ownership of all that happens within their buildings, encouraging innovation, flexibility and differentiation."

AND

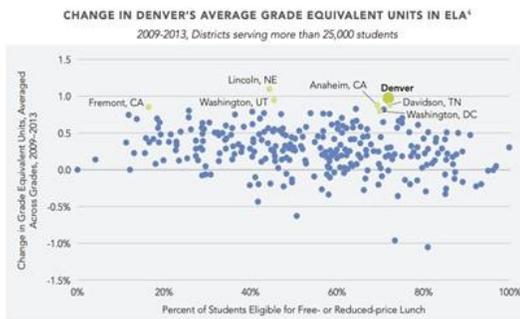

### Consistent Policies

DPS also developed a coherent and connected set of policies and practices to support, hold accountable, and make decisions about individual schools and the family of schools, again applying consistent policies and processes across governance types.

## While not sufficient to reach Denver Plan 2020 goals, multiple studies affirm the strategies led to significant outcome improvements

From 2006-2019, DPS made consistent and notable progress on a range of measures— including graduation and dropout rates, proficiency rates, student growth measures, and enrollment— thereby earning it national attention.

The study finds that compared to their matched peers in surrounding districts:

- DPS students who experienced two years of reform received the equivalent of at least six (6) months and as much as 18 months (2 years) of additional schooling.
- DPS students who experienced five years of reform received the equivalent of at least 18 months (2 years) and as much as 27 months (3 years) of additional schooling.

### FINDINGS: AMONG THE MOST EFFECTIVE REFORM STRATEGIES IN U.S. HISTORY

The study's robust statistical analysis of student outcomes found the following:

The overall effects of the reforms over 11 years are among the largest ever observed in educational research. These findings demonstrate that not only were the district's reforms among the most comprehensive in American history, they were also among the most effective in size, scale and duration.

## Denver's family of schools approach played a significant role in boosting the district's performance

- **2009-2014:** DPS closed 20 low-performing schools (including 10 charters)
- In the same period, DPS opened 51 new schools (including 28 charters)
- Many new schools introduced innovative models and became DPS's top performers
- By 2018, half of DPS's "Blue"-rated schools (its highest rating) didn't exist a decade earlier
- These schools offered diverse programs — IB, sustainability, college prep, science & technology
- Most opened as charter or innovation schools

Still today, many of DPS' top performers for students historically underserved are charter or innovation schools opened in that era

50	Resources

## Leveraging the flexibility strategy to make progress towards *Great Schools in Every Neighborhood* required both adaptive and technical work

### Sample policies, systems, and practices we'll dive into today:

- Checking progress: School Performance Framework (SPF)
- Supporting Schools: Flexibilities, Student Based Budgeting (SBB), and Tiered Support/Tiered Quality Assurance (TQA)
- Holding Ourselves Accountable: School Performance Compact (SPC)
- Starting New Schools: Strategic Regional Analyst (SRA) & Call
- Matching Schools with Communities: Facilities Allocation Policy (FAP)

All supported by the District-Charter Collaboration Compact and the Collaborative Council.

## Signed in 2010, the District-Charter Collaboration Compact committed to 3 equities and grounded all related policies and practices

Denver's "Three Equities": All DPS schools — district-run, innovation, or charter — share the same responsibilities to serve all students and are held equitably accountable.

1. **Equity of Opportunity:** All schools receive equitable per-pupil funding, district supports, and access to facilities.
2. **Equity of Responsibility & Access**
  - a. **Open access** for all students regardless of income, disability, or language.
  - b. **Shared district duties**, including:
    - i. Programs for students with severe disabilities
    - ii. Strong supports for MLLs
    - iii. **Common enrollment system** (SchoolChoice)
    - iv. Serving **mid-year arrivals and transfers**
3. **Equity of Accountability:** All schools follow the **same performance standards**, measured through the **School Performance Framework** and **School Performance Compact**.

In part as a result of these 3 equities, in SY23-24, little variance existed in the demographics of students served in district-run and charter schools

Attendance	All Schools		District-Run Schools		Charters Only	
	2023-23 Result	2023-24 Result	2023-23 Result	2023-24 Result	2023-23 Result	2023-24 Result
All Students	88%	88%	88%	88%	89%	89%
Black Students	87%	87%	85%	85%	90%	90%
Hispanic/Latine Students	86%	86%	85%	86%	87%	88%
Asian Students	91%	92%	91%	92%	92%	93%
Native American Students	83%	83%	83%	82%	85%	85%
Native Hawaiian/Pacific Islander Students	80%	81%	79%	80%	84%	85%
White Students	92%	92%	92%	92%	92%	91%
Students of Two or More Races	89%	89%	89%	89%	89%	89%
In-program Multilingual Learners (MLLs)	87%	87%	86%	87%	88%	89%
Students on Individualized Education Plans (IEPs)	86%	87%	86%	86%	87%	87%

## The Collaborative Council served as an advisory group to the Superintendent on relevant policies, frameworks, and systems

### Collaborative Council Overview

**Why:** Brings together charter leaders and DPS senior leaders to advise on policies and initiatives that address the realities of a mixed system of district-run and charter schools. Serves as an advisory body to the Superintendent, shaping policy and processes that impact both the charter sector and the broader education ecosystem—advancing a system of great schools for all students.

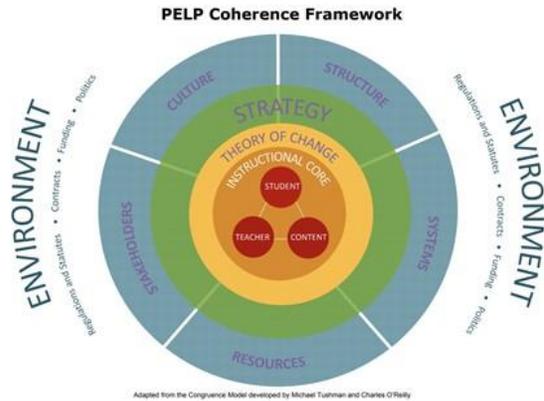

**What:** The Council (1) promotes Denver’s Three Equities (2) encourages collaboration and sharing of best practices and (3) protects charter autonomy. It also guides working groups of school and district leaders to solve shared challenges.

**Who:** Superintendent, 2 Cabinet members, 1 Board member, and 4 charter leaders elected or appointed by charter community.

**How:** Meets monthly to address complex policy issues and advise the Superintendent on topics such as:

- Mid-year “backfill” of students
- Equitable special education services
- Enrollment and family support
- Fair discipline policies
- Facilities access and maintenance

## Drawing on Collaborative Council recommendations, DPS' Superintendent and Board sought to create a coherent set of policies and practices

DPS attempted to create an integrated and coherent set of policies and practices focused on improving schools (and therefore the instructional core)

## The School Performance Framework (SPF) supported DPS in checking progress and served as the foundation for other policies

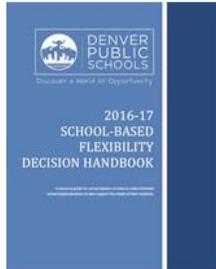

In 2008, the SPF was developed to assess the overall effectiveness of schools. Over time, the SPF served to ground regular progress monitoring and support DPS to:

- know how well schools were serving students and families against a consistent and governance-agnostic set of criteria;
- identify possible flexibilities and supports using a tiered support system;
- guide decisions about schools that have not shown improvement even after extra time and intense support;
- inform parents/guardians during the school choice process;
- assess progress on the overarching Denver Plan 2020 goal of great schools in every neighborhood.

## Based in part on SPF performance, DPS supported schools in both universal and tiered ways

2014-15 Innovation Budget/Innovation - Quality Addressed Scale

Category	Item	Value	Scale
Innovation	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100
	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100

	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100
Innovation	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100
	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100
Innovation	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100
	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100
Innovation	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100
	2014-15 Innovation Budget/Innovation - Quality Addressed Scale	100	100

Empowered all school leaders — not just charters or innovation — with flexibility to design responsive academic models.

Adopted student-based budgeting (SBB) to ensure funding follows students, shared revenue equitably, and offered added financial flexibility to charters and innovation zones.

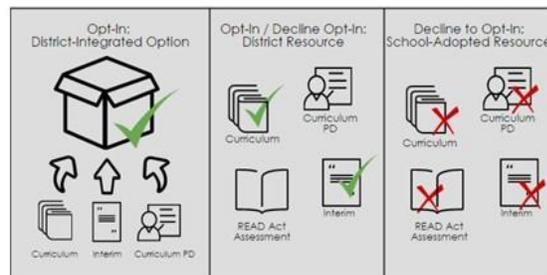

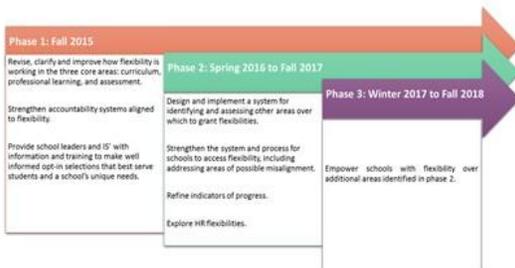

Provided tiered supports to all schools — district-run, innovation, and charter — based on overall quality and performance.

## DPS' Flexibility Handbook sought to empower leaders of direct-run schools to make decisions related to the instructional core

DPS staged the roll-out of system-wide flexibilities...

...starting with the levers closest to the instructional core: curriculum, assessment, and PD

While offering school-based flexibility, DPS also sought to ensure its centralized options were compelling, ultimately leading to 90%+ of schools opting into the district-integrated option

## DPS' Student Based Budgeting (SBB) sought to empower schools to make resource decisions aligned to their strategies & students

Based on the belief that funds belong to students and not schools or the district, through SBB money follows students regardless of the school—or the governance model—chosen

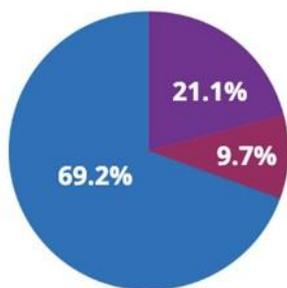

- Schools were allocated dollars based on their total number of students and the number of students who carried a specific weight or qualification. As an example, additional funds were allocated to schools on a per student basis for Free-Reduced Lunch (FRL), Language Learner, Mill Levy allocations\*, and Title I.
- While all school leaders had autonomy over the majority of funds, innovation and charter leaders likely had more flexible funding.
- School leadership teams, including from charters, could “purchase” district services off a menu.

\*Note: In 2013, through the recommendation efforts of the Collaborative Council and others, the DPS Board passed policy to distribute equitably on a per student basis mill levy funds (see fiscal management policy DEA.)

## Still today, the vast majority of DPS' budget goes directly to schools

**More than  
\$1.463 Billion**

### Our Budget

As part of building out an equitable and transparent system experience, DPS continues to invest heavily in ensuring our schools and students have the support they need.

#### \$1,039.3 Million

School Budgets (e.g., salary, materials, etc.)

#### \$316.2 Million

Field Supports (e.g., facilities, transportation, safety, textbooks, etc.)

#### \$146.3 Million

Central School Supports and Headquarters (e.g., Family and Community Engagement, Career and College Success, Payroll, etc.)

# Historically, innovation school leaders had the opportunity opt in or out of a wider range of expense categories

2014-15 Innovation Budget Menu – Quick Reference Guide

Department	Service	Ability to Opt Out?	Replacement Requirements if Opting Out	Dollars Received for Opting out	Service Flexibility
Teaching and Learning	New Educator Institute	Yes	Yes. Schools must submit an alternative plan for approval to OSR and the Executive Director of Teaching and Learning. Mentor must be assigned to novice teachers; new to district teachers who hold a Professional License can opt out with principal approval.	\$180 per day for NEI (up to 4 days) for a total of up to \$720 per teacher	No
	Teacher Leadership Cohorts	Yes	The three-day standard institute is required, but schools can opt out of ongoing support.	\$0	No
Teaching and Learning	Summer Literacy Academy (READ Act)	Yes	Students who are identified as needing a READ Plan (reading significantly below grade level) should be provided one or more supports: summer school, tutoring, full-day kindergarten or direct intervention services.	\$0	No
Teaching and Learning	Textbooks	Yes	Yes. Funding must be used to purchase textbooks or textbook-related resources.	Depending on grade level (per student): ECE - \$ 517 6-8- \$95 9-12- \$100 \$115.91 per student	Yes
Postsecondary Readiness	High School Athletics	Yes	Yes. There are reporting and league membership requirements.	\$115.91 per student	No
Postsecondary Readiness	9 <sup>th</sup> Grade Academics	Yes	Yes. Funding must be used to support transition into HS. Must meet scheduling requirements and program guidelines.	\$65.78 per 9 <sup>th</sup> grade student	Yes
Postsecondary Readiness – College and Career Readiness	Career and Technical Education (CTE)	Yes	Yes. Must be a state approved program.	\$15 per student	Yes
	Concurrent Enrollment College Readiness Credit Recovery	N/A	N/A	\$0	Yes
Interdisciplinary Learning	Library Services	Yes	Yes. Funding must be used to purchase library books for a central library or classroom libraries.	\$7.03 per student	Yes

# Per state statute, charter schools can be charged for a range central office expenditures, up to 5% of per pupil revenue

FY26 Admin Fee		
<b>A. Central Administrative Overhead Costs (C.R.S. 22-30.5-11 (2)(a.5)(i))</b>	<b>FY23</b>	<b>FY24</b>
Total Central Administrative Overhead	\$ 18,866,101	\$ 18,130,811
Total District Funded Pupil Count (less RMSEL) (FYXX)	89,291	84,470
Per Student Cost	\$ 211.29	\$ 214.64
<b>B. Direct Costs (C.R.S. 22-30.5-112)(b.5)(ii))</b>		
1. Direct services to charter schools - employee salaries and benefits (GT removed FY24)	\$ 1,892,964	\$ 1,945,286
2. Portfolio and A&A services to charter schools - general non-salary expenses	\$ 28,306	\$ 31,160
<b>Total Direct Costs</b>	<b>\$ 1,911,270</b>	<b>\$ 1,976,447</b>
Total Charter School Enrollment (FYXX)	20,112	19,670
Per Student Cost	\$ 95.03	\$ 100.48
<b>C. Additional Costs</b>		
1. Safety and Security - Patrols, Emergency Response Training, Alarm Monitoring	\$ 2,408,926	\$ 2,532,537
2. Gifted & Talented (Universal Screenings in FY22 and FY23, shift in logic to all for FY24 - removed from Direct Costs)	\$ 355,056	\$ 1,287,367
3. Choice and Enrollment	\$ 1,435,205	\$ 1,259,956
<b>Total Additional Costs</b>	<b>\$ 4,199,187</b>	<b>\$ 5,079,860</b>
Total District Funded Pupil Count (less RMSEL) (FYXX)	89,291	84,470
Per Student Cost	\$ 47.03	\$ 60.14
<b>Total Admin Fee</b>	<b>\$ 353.35</b>	<b>\$ 375.26</b>

## Grounded in the three equities, all schools—including charters—pay a proportional share of net SPED expenses

FY26 Special Education Fee			
	FY25 SpEd Fee (updated calculations) (FY23 Actuals)	FY26 SpEd Fee (FY24 Actuals)	
<b>Special Education Revenues</b>	\$ 57,826,305	\$ 64,695,893	
State ECEA	\$ 33,365,836	\$ 37,173,134	
PPOR-Pre-K Special Ed	\$ 3,457,794	\$ 2,606,507	
State Transportation	\$ 1,266,000	\$ 3,424,262

SWAP	\$ 1,028,584	\$ 1,025,893	

## All schools located in district-owned facilities (the vast majority) contribute a pro-rata share of the net facility expense

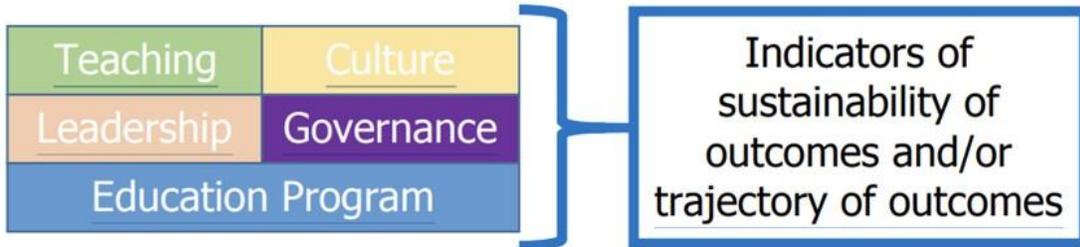

FY26 Facility Fee			
		FY23 Data	FY24 Data
		Applies to FY25 Fee	Applies to FY26 Fee
Utilities	<b>Total</b>	\$ 22,904,218	\$ 22,751,212
Maintenance	<b>Total</b>	\$ 17,821,370	\$ 25,564,170
Operations	<b>Total</b>	\$ 42,286,918	\$ 44,255,315
Facility Services	<b>Total</b>	\$ 1,604,238	\$ 2,378,733
Capital Projects	<b>Total</b>	\$ 4,370,978	\$ 4,863,753
Insurance - Property Premiums & Claims	<b>Total</b>	\$ 5,021,725	\$ 6,336,940
	<b>Gross Expenditures</b>	\$ 94,009,447	\$ 106,150,123
Mill Levy Credits	<b>Total Mill Levy Credit</b>	\$ (11,002,595)	\$ (11,002,595)
Admin Cost Offset	<b>Total Central Admin Credit (25% of above)</b>	\$ (533,504)	\$ (602,402)
	<b>Net Expenditures</b>	\$ 82,473,348	\$ 94,545,126
	<b>Total Students in District Facilities (FYXX)</b>	79,084	80,228
	<b>Facility Fee (Per-Pupil Amount)</b>	\$ 1,042.86	\$ 1,178.46

## In addition to required expense allocations, charter schools were also able to purchase optional services from the district

Service	Required/Optional	Cost
Special Education	Required	\$ 507.00 per funded student
Success Express	Required (if in a district facility)	\$ 61.85 per funded student - 1st year of participation
		\$ 80.41 per funded student - 2nd year of participation
		\$ 98.96 per funded student - 3rd year of participation
		\$ 123.71 per funded student - full rate 4th year and beyond
Transportation	Optional	\$ 5.35 per mile
PACE Behavioral Intervention	Optional	\$ 1,067.50 per referred student
Transitions Team / CYC	Optional	\$ 13.01 per student
CEC Middle College	Optional	\$ 800.00 per student per semester
Safety & Security	Optional	\$ 29.04 per funded student
Campus Security Officer	Optional	\$ 25,000.00 per year
ELA Professional Development	Optional	Varies by course
Teacher Effectiveness Coaches	Optional	\$ 36,000.00 0.5 FTE
Classroom/Professional/Video Library/Online Databases/Art, Music and P.E. Resources	Optional	\$ 1.00 per student
Library Online Databases Only	Optional	\$ 0.83 per student
LION Circulation, Online Catalog and Inter-School Loan	Optional	\$ 2,600.00 one time charge in year 1
LION Circulation, Online Catalog and Inter-School Loan	Optional	\$ 1,145.00 per year in years 2+
LION Networking via DoTS	Optional	\$ 207.21 per year
Cataloging of Library Materials	Optional	\$ 1.00 per item

## DPS tiered schools, allocated resources and supports, and made accountability decisions using multiple measures

## All DPS schools had access to tiered supports appropriate to their governance model

**Universal supports for charter schools:** All charter schools had the opportunity access supports

**Tiered supports for district-run schools:** Through Tiered Supports, DPS supported low-performing schools with extra resources, staff and time.

Increasing leadership capacity	Increasing Board capacity	Support with compliance and advocacy
<b>Thought partnership:</b> <ul style="list-style-type: none"> <li>Review of instructional program tools, and protocols</li> <li>Review of planning documents</li> <li>Co-observation of classrooms</li> <li>Informal site visits and debriefs</li> <li>Staff/student culture</li> <li>Data support</li> </ul> <b>Peer learning opportunities:</b> <ul style="list-style-type: none"> <li>Topic-based group school visits</li> <li>Targeted individual school visits</li> <li>Topic-based peer learning groups</li> <li>Connection with peer experts</li> </ul>	<b>Thought partnership:</b> <ul style="list-style-type: none"> <li>Feedback on governance protocols and practices</li> <li>School leadership oversight and support</li> <li>Feedback on Board meetings</li> </ul> <b>Peer learning opportunities:</b> <ul style="list-style-type: none"> <li>Referrals to peer experts</li> </ul> <b>Referral to resources:</b> <ul style="list-style-type: none"> <li>Colorado League of Charter Schools</li> <li>Other resources, texts, and best practices</li> </ul>	<b>Compliance supports:</b> <ul style="list-style-type: none"> <li>Directing escalation</li> <li>Communication/escalation concerning deadlines and district accountability expectations</li> </ul> <b>Referral to district resources:</b> <ul style="list-style-type: none"> <li>Grant opportunities</li> <li>District PD</li> <li>Technical assistance (i.e. referral to DoTS/CISS)</li> </ul>

## For district-run schools, tiered supports drove re-organization and re-prioritization of district resources and ways of working

2011-13

Tiered Support Framework used to guide identification for schools for Turnaround intervention

Regional turnaround networks: DSSN & WDN

Turnaround Federal Grants & implementation progress monitoring

2012-14

Expanded use of Tiered Support Framework for early identification of schools for strategic supports

Expanded needs analysis with DPS-aligned SQR rubric

Expanded support for school improvement planning

Expanded support for turnaround schools in EED and OSRI

2015-present

Formalized Great School strategy with Tiered Supports as a key component

Formation of the Tiered Supports and School Design team

Alignment of School Improvement funding strategies

Tiered Department Supports to prioritize highest needs schools

Turnaround Year 0 process

Turnaround Leadership development pipeline & IS role in supporting turnaround

Expanded TSF progress monitoring

DPS' tiered support framework (TSF) prompted central office departments to contemplate: How might district supports and departments better serve DPS' highest needs schools?

## Charter school tiers determined both accountability and support

Schools/Networks are tiered based on academic performance, organizational health, leadership/governance, and compliance identified through tools such as the School Performance Framework, Financial Performance Framework, and School Quality Framework. All schools/networks were placed into one of three tiers. Schools/networks at the higher tiers received both enhanced oversight, as well as additional opportunity for support

School Profile at Renewal	Schools with persistently low performance and poor leading indicators	Schools with uneven performance trends and leading indicators	Schools with strong but limited performance data and leading indicators	Schools with consistent and persistent track records of meeting academic expectations
<b>Continuum of Actions &amp; Supports</b>				
Potential Renewal Outcomes	Non-renewal	Short term (1-2 year) renewal with performance conditions and supports	Mid length (2-3 years) renewal with opportunity for extension with sustained performance	5 year contract

## The School Performance Compact committed DPS to taking action on any school persistently not meeting expectations

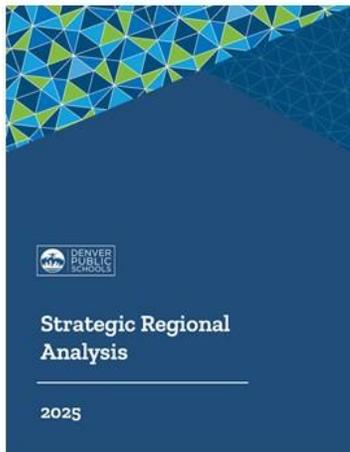

If a school continues its low performance over time, the DPS Board of Education votes on whether to restart or close the identified school using its School Performance Compact policy. Under the SPC, standards for charter schools and district-run schools are the same.

- Guides DPS in identifying the most persistently low-performing schools, both district-run and charter.
- Denver Board of Education uses policy to decide if the identified schools must be restarted or in rare cases, closed.
- For restarts, a Community Review Board will evaluate options and recommend provider. Board approves final provider determination.

## DPS' Strategic Regional Analysis (SRA) has long been a cornerstone of strong data-driven decision making

Denver's SRA is an annual report that both assesses current state and forecasts future states across 6 regions for enrollment, demographic trends, school capacity, and facility utilization, while re-publicizing current SPF ratings. The SRA is used for long-term strategic planning, including to inform DPS' "Call for New Quality Schools".

# Historically, the SRA focused both on capacity and quality, with the aim of ensuring all regions had sufficient and quality seats

## Introduction

The Strategic Regional Analysis (SRA) details the current state of enrollment, capacity, Choice behavior, and school performance by region and identifies gaps in each area that may require district intervention.

Using comprehensive enrollment data for both district and charter schools, the SRA is able to utilize the cross-functional data below to look thoroughly at enrollment trends and forecasts. This yields an understanding of where performance and service gaps exist and which areas will need facility support due to growth or will need strategies for managing enrollment declines. To this end, the 2018 SRA includes a special section that provides an in-depth look at trends in Stapleton and the Far Northeast, areas that are expecting a mix of high growth and steep declines.

The information in the SRA also informs progress toward district goals. In fact, the SRA is a key planning document that supports the Denver Plan 2020 goal of having at least 80% of students attending SPF green or blue schools in every region in the district.

## Summary of Key Insights by Region

Both the Central and Northwest regions will continue to experience enrollment declines. Significant performance gaps persist in both regions.

**Central**

- Surplus capacity at all grade levels
- Performance gaps exist at ES and MS levels. HS are primarily low performing this year
- Match rates are high since there are fewer students than seats
- Enrollment declines forecast to continue leading to more empty capacity at all grade levels

**Capacity:** Surplus will continue to be the norm in this region as enrollment declines at all grade levels due to rising housing costs and declining birth rates. School budgets are being impacted by low enrollment, creating risks to several schools in the region.

**Performance:** Academic gaps exist at all levels.

**Match Rates:** First choice match rates are among the highest in the city due to the surplus of seats at all grade levels.

**Forecast:** Continued enrollment declines in the region are likely to impact schools at all grade levels.

**Northwest**

- Excess capacity at all grade levels except at the most in-demand programs
- Large performance gaps at all levels
- Relatively low match rates at kindergarten, but high for 6<sup>th</sup> and 9<sup>th</sup>
- Enrollment declines to continue, but at a slower pace

**Capacity:** Surpluses will remain as enrollment continues to decline due to rising housing costs. Surpluses are the largest at the elementary level and school budgets will continue to be impacted as a result.

**Performance:** Performance gaps exist at all education levels in this region.

**Match Rates:** Kindergarten match rates are comparatively low due to competition for schools. 6<sup>th</sup> and 9<sup>th</sup> grade match rates are relatively high due to enrollment zones and excess capacity.

**Forecast:** Enrollment declines will continue in this region but at a slower pace than in previous years and with some areas starting to stabilize as DPS schools become more popular with families living in the region.

# Based on the SRA, DPS released a Call for New Quality Schools that identified specific regional and programmatic needs

## 2017 Call for New Quality Schools Document

A public document that transparently articulates forecasted needs for new schools or additional capacity in the district. Informed by the Strategic Regional Analysis planning document used; to determine where students are and are going.

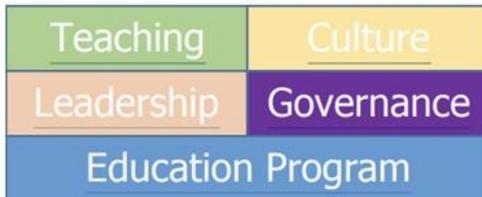

### Quality Review Process

Evaluates new school proposals, engages community and supports board decision-making to approve or deny applications.

### Community Matching Process\*

Open *only* to quality applicants seeking to serve in a district facility to meet priority needs defined in the Call document.

Regardless of governance type, new school applications were evaluated on the same criteria used for tiering and renewal

- Executive Summary
- 1. School Culture
- 2. Educational Program
- 3. Teaching
- 4. Leadership
- 5. Governance, Operations, and Budget
- Optional Sections and Appendices

## Passed in 2015, DPS' Facility Allocation Policy (FAP) ensures equity of opportunity to buildings

When need existed for one or more new schools based on the data in the SRA, **DPS provided access to facility support regardless of governance type.** Schools authorized through the new quality schools process were subsequently selected for facility placement through a community-based process.

The FAP aimed to ensure the equitable distribution of facilities based on school needs, community engagement, and fiscal stewardship, resulting in the vast majority of schools—including charters—being located in district owned and operated facilities.

80% of charter schools, representing 90% of charter school students, are located in district-owned facilities.

## DPS Board Policy EEAA outlines transportation eligibility, which varies by ed level, school type, and transportation type

### All Students

- All students can ride shuttle services in enrollment zones (E.g., Success Express in the Far Northeast)
- Transportation is provided as a related service through Individualized Education Programs (IEPs)
- Denver RTD "Zero Fare for Youth" program provides free rides on all buses and trains to anyone 19 years old and under

### K-5 students

- Eligible for yellow bus if attending the boundary/home school and live more than 1 mile from it

### 6-12 students

- Eligible either for yellow bus (6-8) or RTD (9-12) if attending the boundary/home school and live more than 2.5 miles from it

Charters in Denver who serve as the assigned boundary/home school or are part of an enrollment zone share equitable access to district-run transportation. While non-boundary charters can buy into yellow bus services, the expense is prohibitive for most.

## Table of Contents

- 4 Introduction
- 9 The why, history, and impact of Denver's "family of schools" approach
- 18 DPS' enabling policies and practices
- 48 **Lessons Learned**
- 50 Resources

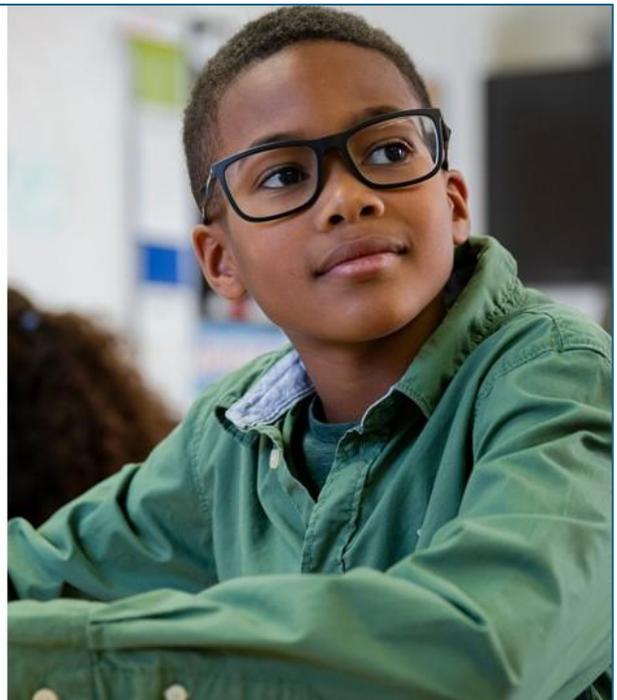

## Lessons Learned

- Creating quality schools and seats is the north star, regardless of governance type—particularly for students and families.
- Look around the corner to understand future portfolio needs based on an evolving landscape to ensure school viability and support quality.
- Transparently use a common data set and local context, not ideology, to drive policy and decisions.
- The journey is long. Pace the change.
- Sustained relationships matter. Attracting and retaining the right talent and codifying collaboration structures between and among schools and the community are essential.
- Less is more. Maintain as much equity and consistency across governance types as possible, differentiating when essential to preserving the essence of the governance model.
- Share benefits and responsibilities. Flexibility and autonomy at the site level must be balanced by responsibility and accountability to the system level.
- Engage broadly and deeply to set the vision, values, policy, and frameworks. Then, clarify which entity is responsible for executing against them and why.
- Build for coherence and integration between and among policies and practices.

## OUR SYSTEM RELIES ON EQUITABLE PER-STUDENT FUNDING, A UNIVERSAL LOTTERY, REGIONAL PUBLIC TRANSPORTATION AND FACILITIES SUPPORTS

### FUNDING

- The **Uniform Per Student Funding Formula** starts with a “foundation weight” set annually.
- **Multipliers** then add additional funding for specific categories of students, e.g.:
  - Economically disadvantaged
  - English learners
  - Special education (4 tiers)
- Funding **flows to the schools** based on enrolled students.
- This year the average was **~\$28,000 per student.**

### LOTTERY ADMISSIONS

- The **MySchoolDC** common lottery serves as a single point of entry to all public schools.
  - Students choosing to attend their assigned neighborhood school do not need to use the lottery.
- The lottery website provides a **school finder** to help families understand their options.
- Families entering the lottery can **rank up to 12 schools** in order of preference; a sophisticated algorithm delivers best options for the most families.

### TRANSPORTATION

- The **Kids Ride Free** program offers mass transit cards to all students for use on Metro bus and Metro rail.
- **Special Education transportation** provided by the State Education Agency.

### FACILITIES

- **“Request for offer”** process to provide empty school buildings to charters.
- Facilities **allowance.**

# OUR SYSTEM HAS BEEN DELIVERING RESULTS

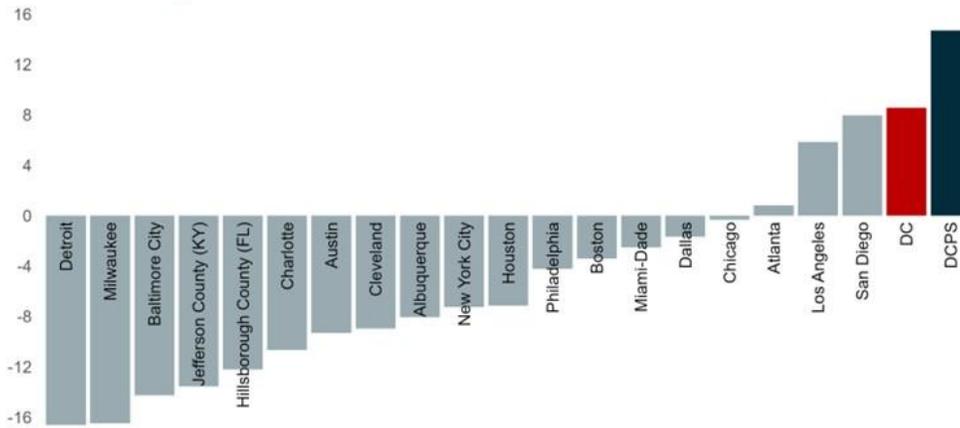

## Statewide Assessment Results

63

## DC IS THE FASTEST IMPROVING URBAN SCHOOL SYSTEM IN THE NATION

NAEP 4<sup>th</sup> Grade Reading Growth Between 2011 and 2024

U.S. Department of Education, Institute of Education Sciences, National Center for Education Statistics, National Assessment of Educational Progress (NAEP), 2011 and 2024 Reading Assessments.

6  
4

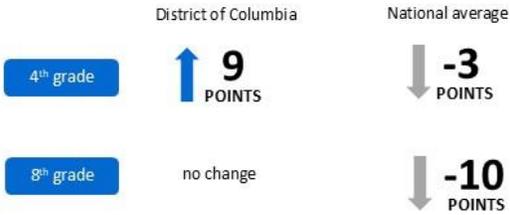

# THE NATION'S REPORT CARD

## NAEP RESULTS

2011 vs. 2024

While the national average fell, DC improved or stayed steady across all grades and tested subject areas.

### MATH

### READING

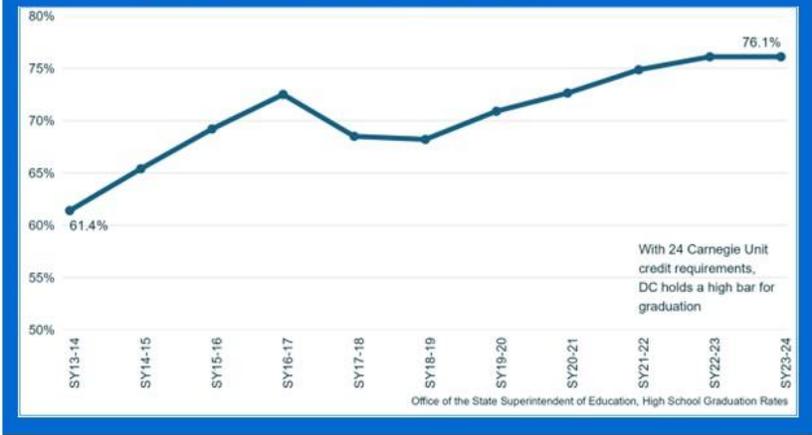

6  
5

# GRADUATION RATES

Graduation Rates Grew Almost 15 Points Since SY13-14

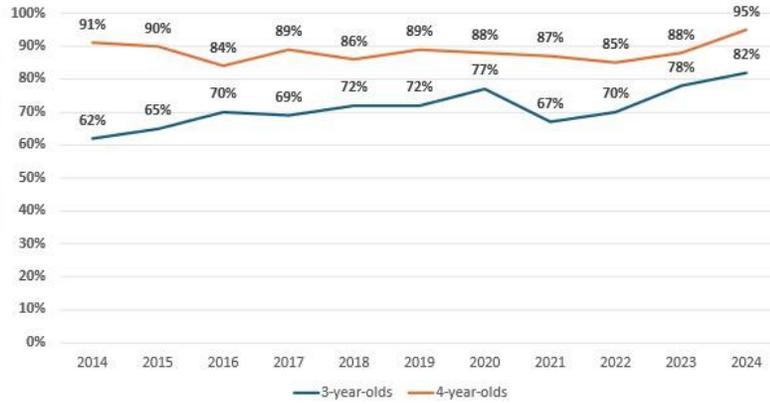

66

## DC HAS STRONG EARLY CHILDHOOD EDUCATION AND UNIVERSAL PRE-K

Percentage of 3- and 4-year-olds Enrolled in Universal Pre-K

6  
7

## DC'S PARENT SATISFACTION WITH THEIR CHILDREN'S SCHOOLS AND COLLEGE AND CAREER PREPARATION IS WELL ABOVE THE NATIONAL AVERAGE

In 50CAN's "The State of Educational Opportunity in America" survey:

DC ranked top of the nation in parental satisfaction.

**86%**

of families reported sufficient school choice options

**75%**

reported they would make the same school choice no matter where they live

**53%**

of DC's parents reported being "very satisfied" with their child's school, 8 points above the national average.

Overall,

**87%**

of parents were at least "somewhat satisfied."

68

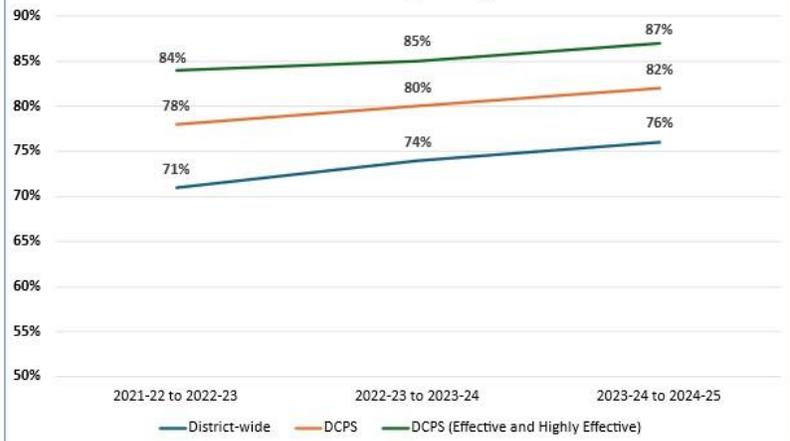

## DC OFFERS TOP TEACHER PAY, ATTRACTING AND RETAINING TALENT

### DC offers nationally competitive salaries

- The starting DCPS educator salary is **\$63,373** (#1 across states).
- Average DCPS educator salary is **\$109,802** (not including benefits or bonuses).
- Charter teachers receive comparable pay.

### More teachers are choosing to stay in their schools

## RECENT TRENDS SUGGEST A MATURING SYSTEM

The era of enrollment and school growth is ending.

True cross-sector collaboration has begun.

Institutional roles within our governance system are sharpening.

70

DME  
OFFICE OF THE DEPUTY MAYOR FOR EDUCATION

GOVERNMENT OF THE DISTRICT OF COLUMBIA  
MURIEL BOWSER, MAYOR

## LESSONS LEARNED: GOVERNANCE

- **Unified governance allows for more coherence:** a coordinated vision and strategic investments and policies/interventions to drive academic progress.
  - DC has made significant education investments under mayoral control, in people, programs, and buildings.
- **Accountability** is necessary at all levels; hard choices require strong infrastructure.
- **Consistency** through time is vital.
- The **quality of teachers** makes the biggest difference.
  - We have seen growth thanks to IMPACT and high teacher pay.
  - The charter sector attracts talent alongside the improvement we've seen in the traditional unionized environment.
- **Representation matters at the local level.**
  - There is a real need for charter school board capacity and training.
  - A strong nonprofit sector can be helpful (e.g., DC Charter Alliance).
  - Strong PTOs and school advisory boards help and are hard to build.

71

## LESSONS LEARNED: LEADING A TWO-SECTOR SYSTEM

- **A rising tide lifts all boats:** A strong charter sector drives improvement in the traditional public system while also delivering innovation.
- **Coordination takes work:** Getting the two sectors to think as “one ecosystem” has taken decades. Coordination becomes even more critical in times of limited resources and population stagnation.
- **Pay attention to scale:** Having a large number of LEAs, including single site LEAs, can create challenges, especially around coordination and sustainability.
- **Stay innovative in the face of headwinds:** At a certain point, systems move toward entropy and bureaucracies form; leaders need to be intentional to reignite the promise of public schools.
- **Student and family experience is key:** While there can be vocal advocates for each sector, most families do not differentiate between traditional and charter schools – they just want a great school.

72

# ILEA Q&A

73

## Public Comment Procedure

For everyone to have a fair chance to speak and be heard, please observe the following rules:

**First**, each speaker will be limited to **1** minute. When the timer sounds, please conclude your statement.

**Second**, please ensure comments are reasonably related to the work of the ILEA and address the alliance as a whole.

**Finally**, please avoid repeating what a prior speaker has said so that we may hear from as many people as possible.

74

## Public Comment

75

### Tentative ILEA Roadmap

- **July/August:** Review current landscape, identify priority data around academics, transportation, facilities, etc.
- **September/October:** Issues deep dive to identify potential challenges and consider draft recommendations
- **November/December:** Continued analysis and refinement of recommendations
- **December:** ILEA adopts final recommendations. Plan submitted to state and local leaders by 12/31.

76

## Closing

Next Meeting:

- 6 p.m., Wednesday, Nov. 19, 2025.
- Details and upcoming meeting schedule available at <https://www.indy.gov/activity/indianapolis-local-education-alliance>
- Contact [ILEA@Indy.gov](mailto:ILEA@Indy.gov) or [IPSEExternalAffairs@myips.org](mailto:IPSEExternalAffairs@myips.org) with questions or comments.

**Pre-Reading Material – Wednesday, September 24th, 2025**

# Alyssa Whitehead-Bust & Paul Kihn Bio

[www.bosepublicaffairs.com](http://www.bosepublicaffairs.com)

**Alyssa Whitehead-Bust**  
*Partner, Attuned Education Partners*

Alyssa Whitehead-Bust is a Partner at Attuned Education Partners, where she leads high-impact strategy engagements with state education agencies, school systems, and nonprofits. She supports senior leaders through executive advising, strategic planning, program design, and facilitation -- particularly in moments of start-up, scale, or transition. Alyssa's commitment to public education is deeply personal. As a student, teacher, and system leader, she has seen both the promise and the deep inequities in our schools. She is driven by the belief that all students, especially those furthest from opportunity, deserve rigorous, joyful learning and the systems to support it.

To date, she has supported nearly 100 organizations and coached dozens of leaders to clarify vision, align structures, and improve outcomes for students. Her work helps partners navigate complexity, center equity, and sustain meaningful change. Her work is grounded in real-world results, including her leadership during a period when Denver Public Schools was recognized for achieving some of the most effective and sustained reforms in American public education. That experience shapes Attuned's approach to school design, HQIM implementation, and system-wide transformation.

Earlier in her career, Alyssa served as a cabinet-level leader in Denver Public Schools (DPS), where she held roles as Chief Academic Officer and Chief of Innovation and Reform. In those positions, she led the district's academic strategy, oversaw its school portfolio, and launched one of the nation's first district-run innovation labs for personalized and blended learning. She was also the founding principal of Highline Academy Charter Schools and facilitated Colorado's State Council for Educator Effectiveness in implementing Senate Bill 191. Alyssa holds a B.A. from Wesleyan University and an Ed.M. from Harvard Graduate School of Education. She is an alum of the Broad Academy and the Building Excellent Schools Fellowship.

Outside of work, Alyssa finds joy in hosting gatherings and creating spaces where people feel seen and connected. She loves bringing people together and creating spaces where others feel seen and connected, whether around a dinner table, on a long hike with her husband and daughters, or over a great cup of coffee.

# Denver & DC Handout Overview

[www.bosepublicaffairs.com](http://www.bosepublicaffairs.com)

**Overview**

[Denver Public Schools](#) (DPS) operates a unified system that includes district-run, innovation zone, and charter schools under a shared framework for enrollment, facilities, and accountability. Beginning in the mid-2000s, DPS adopted a portfolio management model. The district uses a centralized enrollment process known as *SchoolChoice*, allowing families to apply to any public school—district or charter—through a single application.

DPS also implements shared use of facilities between district and charter schools and applies a consistent performance framework to evaluate all schools. These structures are part of the district’s portfolio management approach, designed to align school operations, accountability, and access across the system.

**Key Features of the DPS Model****Centralized and Unified Enrollment – [SchoolChoice](#)**

- DPS operates a single application system that allows families to rank preferences among both district-run and charter schools.
- The system is designed to ensure equitable access for all families.
- Enrollment rounds, guides, and online tools help families compare and select schools.

**Portfolio Management and Facilities Sharing – [Portfolio Management Services](#)**

- DPS oversees traditional, innovation, and charter schools under one portfolio management framework.
- Vacant or underutilized district buildings are repurposed to house charter or innovation schools.
- This approach maximizes use of district resources and supports the growth of high-performing schools.

**Performance Accountability and Oversight – [University of Colorado Denver Report](#)**

- All schools—district, innovation, and charter—are evaluated using a consistent performance framework.
  - Schools that persistently underperform receive tiered support and may undergo closure, redesign, or intervention.
  - Charter and innovation schools maintain operational flexibility while remaining accountable to district standards.
- 

#### **Reported Outcomes and Evidence**

- Independent studies, including one by the [University of Colorado Denver](#), found improved student outcomes and increased family satisfaction under the DPS model.
  - Coverage from [Chalkbeat Colorado](#) highlights evidence that school closures and accountability efforts were linked to higher academic performance.
- 

#### **Aspects Relevant to Indianapolis**

- **Unified Enrollment:** A single-application process simplifies school access for families (Similar to Enroll Indy).
  - **Shared Facilities:** Using district properties for both charter and district schools optimizes space and resources.
  - **Equal Accountability:** Common academic standards ensure fairness and transparency across all schools.
  - **Balanced Oversight:** Maintains district governance while allowing schools operational flexibility and innovation.
- 

#### **Implementation Considerations**

- The DPS model evolved over multiple years and required strong governance, stakeholder engagement, and sustained leadership.

- Success depends on robust data systems, transparent accountability measures, and consistent communication.
  - Facility-sharing and unified accountability frameworks require clear operational agreements and alignment across partners.
- 

### **Summary**

The Denver Public Schools model integrates district and charter schools into a unified system emphasizing equitable access, shared accountability, and efficient resource use. For Indianapolis, this model serves as a reference for how coordinated systems can operate effectively within a large urban district.

## Overview

The [public education system in Washington, D.C.](#) integrates both district-run schools (DCPS) and public charter schools under coordinated frameworks for enrollment, authorization, oversight and funding. Families can apply to many schools (district or charter) through a common application, and the city applies unified accountability tools. The mix of sectors creates shared governance and opportunity structures.

---

## Key Features of the DC Model

### Unified Enrollment – [My School DC](#)

- A single application and lottery system for many district and charter school seats. [My School DC+1](#)
- Allows families to apply to up to twelve schools in one application. [My School DC](#)
- In-boundary DCPS schools may be enrolled directly, but the lottery is required for many out-of-boundary and charter seats. [My School DC+1](#)

### Portfolio Approach – Charter & District Oversight

- Public charter schools are authorized by the District of Columbia Public Charter School Board (DC PCSB), while DCPS remains the primary district operator of traditional schools. [Wikipedia+1](#)
- Charter and district schools both operate in the city; about 48% of public school students attend charters. [edscape.dc.gov](#)
- Admission to charter schools is open to DC residents and uses a lottery when applications exceed seats. [D.C. Law Library](#)

### Performance Accountability & Oversight – [Performance Management Framework](#)

- DC PCSB uses a common framework (PMF) to evaluate charter schools annually on multiple domains such as student progress, achievement, and gateway indicators. [dcpcsb.org](#)

- Schools failing to meet performance standards may face closer oversight, renewal issues or closure.
  - District and charter funding is aligned through the city’s formula (Uniform Per Student Funding Formula) ensuring similar funding bases for both sectors. [DC Fiscal Policy Institute](#)
- 

### Reported Outcomes & Evidence

- Enrollment trends show that in school year 2024-25, about 52% of public school students were in DCPS schools and about 48% in public charter schools, reflecting growth in choice options. [edscape.dc.gov](#)
  - Funding research indicates both sectors are funded through the same per-student formula (UPSFF), which supports alignment between district and charter schools. [DC Fiscal Policy Institute](#)
- 

### Aspects Relevant to Indianapolis

- **Unified Enrollment:** The My School DC model simplifies access to multiple public school types under one application (Similar to Enroll Indy).
  - **Sector Choice + Oversight:** A mix of traditional district and public charter schools within the same city with shared funding and oversight frameworks.
  - **Equal Funding Infrastructure:** Use of a uniform per-student funding model that applies to both district and charter sectors strengthens equity.
  - **Accountability Frameworks:** A unified approach to monitoring school performance offers transparency and comparability across sectors.
- 

### Implementation Considerations

- The DC model relies on robust systems for common application, lottery management, school evaluation and funding allocation—these require secure infrastructure and policy alignment.

- While the enrollment system is unified in parts, not all schools participate equally and “in-boundary” rights for DCPS traditional schools remain in force.
  - Funding and facility issues can vary significantly between sectors—charter schools often lease or purchase facilities and must navigate market dynamics. [DC Fiscal Policy Institute](#)
  - Governance complexity increases when multiple authorizers and sectors exist; maintaining clarity for families and consistent standards is important.
- 

### Summary

Washington, D.C.’s public education system includes both **District of Columbia Public Schools (DCPS)**—the city’s traditional public school system—and **public charter schools**, which operate independently under the **D.C. Public Charter School Board (DC PCSB)**.

DCPS operates under mayoral control, with the Mayor overseeing the district through the Office of the State Superintendent of Education (OSSE) and the Deputy Mayor for Education. This structure was established under the Public Education Reform Amendment Act of 2007.

Families in D.C. can apply to both DCPS and public charter schools through a common enrollment system, **My School DC**, which manages a citywide lottery and application process.

## **Wednesday, November 19, 2025, Public Meeting**

The sixth full meeting of the Indianapolis Local Education Alliance was held on Wednesday, November 19th, 2025, and was a general organization meeting held at City-County Building, Public Assembly Room from 6:00 P.M. – 9:08 P.M with 30 minutes committed to public comment. 101 people were signed up to testify. Of attendance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, Barato Britt and Angela Smith Jones.

This meeting was devoted to the reports out from individual taskforces which included models for transportation, facilities, and governance.

### **Presentation – Wednesday, November 19<sup>th</sup>, 2025**

## Agenda

- Welcome and Opening Remarks
- Transportation Taskforce Model Overview
  - ILEA Member Discussion
- Facilities Taskforce Work Overview
  - ILEA Member Discussion
- Governance Discussion
  - ILEA Member Discussion
- Public Comment
- Closing and Next Steps

2

## Welcome and Opening Remarks

**While there has been some discussion externally about realigning the district boundaries, that topic will not be part of tonight's discussion.**

3

# Transportation Taskforce Overview

4

## Transportation Taskforce Assumptions Regarding Student Enrollment

### Assumptions Regarding Student Enrollment and Transportation Participation

Scenario	Total Student Enrollment	Estimated Transportation Users
Current IPS Students Incl. Innovation Network	30,000	16,000
Total Resident Public School Students (within IPS Boundary)	40,000	25,000

5

# Transportation Taskforce Transportation Scenarios and Fiscal Analysis

## Transportation Scenarios and Fiscal Analysis

The transportation analysis included five scenarios with different variations of service levels and choice transportation options for students. The scenarios and resulting fiscal impacts are summarized in the table below. More comprehensive definitions of the scenarios, along with explanatory rationale is included in the attached memo from IPS Operations staff. The total cost of transportation services for the expanded student population is estimated to range from \$48M - \$75M.

### Modeled Transportation Scenarios and Fiscal Impacts

Model	Description	Cost per Student	System-Wide Cost	Assumptions
1	Baseline-All Services	\$2,300	\$58 M	<b>Elementary:</b> Transportation Zones <b>High School:</b> Full Choice Includes extracurriculars, field trips, internships
2	Baseline – To/From School Only	\$1,935	\$48 M	Includes only to/from school; special education; internships. No extracurriculars.
3	Universal Choice (Conservative Estimate)	\$3,000	\$75 M	Full choice. Students transported to any school regardless of geography. Conservative estimate due to unknowns about trip lengths and school selection.
4	Partial Parent-Pay Extracurricular	\$2,200	\$55 M	Baseline services. Requires contribution of \$100 per student for extracurricular transportation.
5	Hybrid Zones + High-School Hubs	\$2,100	\$53 M	Maintain K-8 zones and implement hub and spokes for high school. Cap dynamic routing after three weeks per semester.

6

# Transportation Taskforce 7 Levers of Transportation

CONSIDERATION	DESCRIPTION	FACTORS
Safety	The likelihood of harm coming to a person or property and efforts to minimize that likelihood	bus behavior management, bus monitor staffing, mechanical safety, student tracking, neighborhood crime, geographic barriers or hazards, background checks, use of crossing guards
Compliance	Legal and policy matters that must be considered and/or to which we are obliged.	vehicle safety regulations, required school day length, special education law, homeless services, transportation law/policy
Optimization	How to get the maximum number of students on the least number of busses	number of tiers, number of potential riders, number of routes, runs and stops, number of IndyGo busses
Logistics	Issues that are not immediately part of the transportation system but impact its functioning	student mobility, student attrition, family relocation, bus driver and monitor staffing challenges, infrastructure challenges or changes, major community events, infrastructure changes, specialized transport needs
Efficiency	How to deliver the greatest amount of service in the shortest amount of time with the least number of staff	ride times/length of rides, timeliness of pick up and drop off, walker and rider distances
Rate	The cost of running transportation	fuel consumption, vehicular repair, staff salaries, insurance, cost of IndyGo passes, cost of specialized transport
Responsiveness	The use experience and our ability to make the client happy with extra services beyond simply taking children to and from school	school choice, parent concerns, policy consistency or inconsistency, ease of communication, provision of extracurricular and activity busses

# Transportation Taskforce

## Transportation Service Cost Estimates – Cost vs. Choice

# Transportation Taskforce

## Cost vs Flexibility

## Transportation Taskforce Cost Estimates – Cost vs. Choice

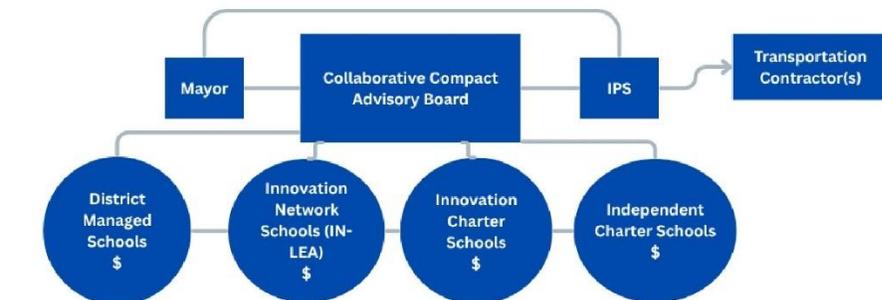

### Options to Taskforce Choose Not to Consider:

- **Special Ed. And McKinney-Vento Only**
  - This does not provide the level of transportation that meets the needs of our students & families.
- **IndyGo Plus Special Ed.**
  - IndyGo is currently not built out to accommodate this model, but may be an incremental part of a broader solution.
- **Parent Pay Extracurricular**
  - This model is not realistic for the families in our community. It would not provide equitable access to extra-curricular activities.
- **Universal Choice**
  - After examining the final cost of transportation, this model was deemed too expensive.

10

## Transportation Taskforce Transportation Model Option 1

### The Collaborative Compact Option

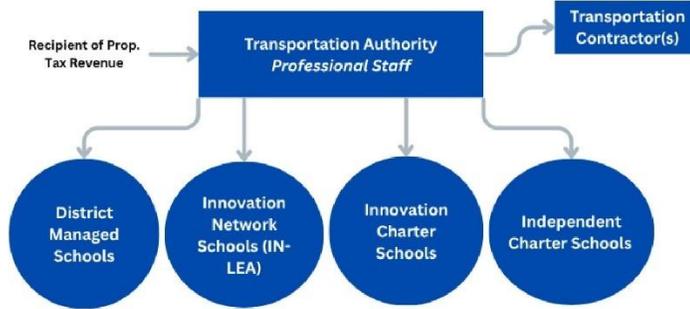

Transportation Districts/Walk Zones  
 Extracurricular Approaches to be determined  
 by voting members of the compact  
 Fee for service model from users/members of compact - dollars go to schools, schools pay for services  
 Access to operating revenues

11

# Transportation Taskforce Transportation Model Option 2

## Independent Transportation Authority Model

Authority makes decisions of districts/walk-zones, extracurricular transportation etc.  
Property Tax Dollars for transportation go to the Transportation Authority

12

## Transportation Taskforce Takeaways

13

## Transportation Taskforce Takeaways

- **Items of discussion under either of the transportation models – Task Force discussed, sometimes agreed and sometimes disagreed, but the following was mentioned as items to consider.**
  - Some of the Task Force believe if schools are receiving tax dollars for transportation or if a broader entity is created – either a collaborative model or an independent Authority, participation should be mandated.
  - Other members believe that the lack of an independent Transportation Authority would prevent them from supporting mandatory participation.

14

## Transportation Taskforce Takeaways

**Discussion of an Independent Authority directed us to a few questions:**

1. Who is operating?
2. What it means to rebuild vs. simply transfer the current model and team to conduct the work.
3. If an Independent Transportation Entity is established – general consensus of the Task Force is that the professional staff at IPS should be transitioned to that entity.

15

## Transportation Taskforce Takeaways

**Task Force wishes to include certain guidelines and guardrails with regard to transportation. There is not full consensus around these items.**

- Requirements around participation from schools.
  - Equity of access
  - Need for systems-level solution
  - Mandatory or opting out requires significant sacrifice of funding
- Local representation for leadership and/or any appointments.
  - Combination of district and charter representation
- Minimizing disruption for all students within the IPS boundaries.
  - No disruption of services for McKinney-Vento or students with IEP transportation accommodations
- Maintaining the assets of the current transportation system.
  - Institutional knowledge and expertise
  - Existing infrastructure
  - Consideration of smaller-scale transportation operators
- Time to plan for implementation.
  - Adjusting with the changing funding landscape and shift in property tax dollars
- Valuing transparency.
  - Clear decision-making processes with public input
  - Identification of potential conflicts of interest

## ILEA Member Discussion

## Facilities Taskforce Overview

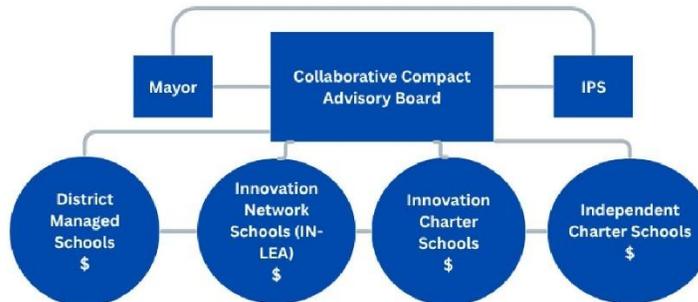

While the HEA 1515 charges with the ILEA with recommendations regarding Facilities – there is no guidance on how to deal with many details like bonded indebtedness, bond-holder rights – Independent Charter-Owned facilities – and many others. As we discuss facilities options – the Task Force acknowledges that many of those details will need to be resolved by statute.

18

## Facilities Facilities Model Option

- While this would shift ownership or operations of facilities to an existing entity, it does not answer the policy questions and need for governance clarity.

22

## ILEA Member Discussion

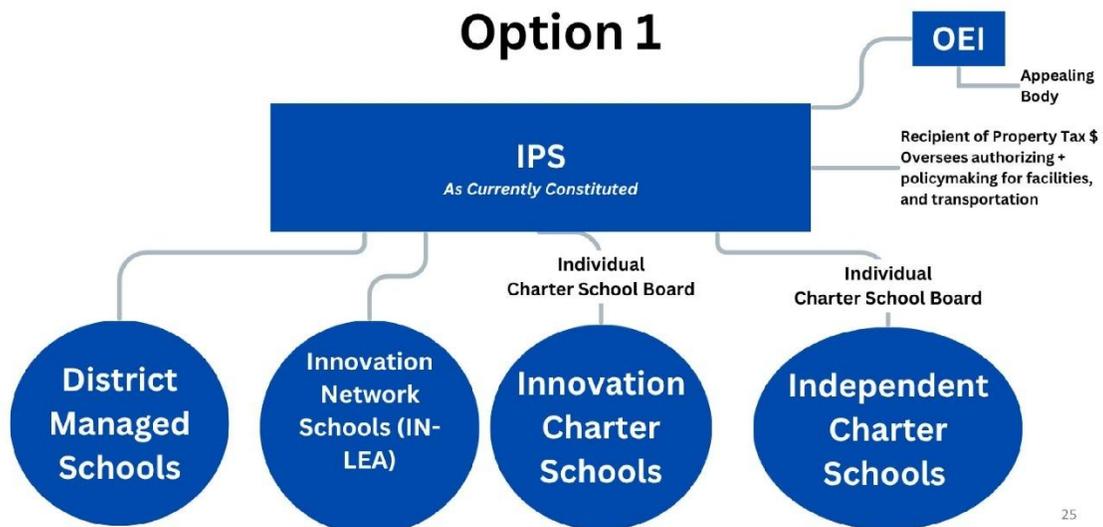

23

# Governance

The various models and options that you will see this evening represent a spectrum of options, some with minimal changes to the current practices, and some with dramatic changes. The point of this discussion is to think about where policy decisions should reside with regards to serving multiple school models who provide education in different ways to our children all over Indianapolis. That is the underlying framework for our discussion tonight

## **Wednesday, December 3, 2025, Public Meeting**

The seventh full meeting of the Indianapolis Local Education Alliance was an additional scheduled hearing held on Wednesday, December 3rd, 2025, at the City-County Building, Public Assembly Room from 4:00 P.M. – 5:11 P.M with 30 minutes committed to public comment. 45 people were signed up to testify. Of attendance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, Barato Britt and Angela Smith Jones.

This meeting was devoted to the Indianapolis Local Education Alliance narrowing the focus of consideration on two models in each category after an additional hour of public comment. The Indianapolis Education Alliance moved transportation 1 and 2 unanimously, facilities model 1 and 2 unanimously, and governance models 2 and 3 in a 7-2 vote (**Yays:** Indianapolis Mayor Joe Hogsett, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, Barato Britt and Angela Smith Jones. **Nays:** Dr. Aleesia Johnson, Tina Ahlgren). At the end of the meeting, Indianapolis Mayor Joe Hogsett announced two additional listening sessions that would be devoted to hearing community feedback on the models moved forward.

# **Wednesday, December 10, 2025, Public Listening Session 1**

A listening session of transportation model options 1 & 2, facilities model options 1 & 2, and Governance model option 2 & 3 from the Indianapolis Local Education Alliance was held on Wednesday, December 10th, 2025, at KIPP Legacy High School from 6:00 P.M. – 8:00 P.M.

Over 100 people partook in the breakout sessions and were of attendance. Of attendance from the Alliance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, Barato Britt and Angela Smith Jones.

In the public listening session, members of the public convened in the KIPP Indy Legacy Gym for instructions of the breakout sessions as well as a general conversation of the purpose behind the listening session. The public listening session transitioned to breakout sessions each all focused discussions. The Facilities breakout session consisted of Barato Britt and Angela Smith Jones with facilitation support from Bill Murphy, Chief Operations Officer, at Indianapolis Public Schools. The Transportation breakout session consisted of Tina Ahlgren and Andrew Neal with facilitation support from Deitra Taylor, Director of Transportation, and Zach Mulholland, Executive Director of Operations from Indianapolis Public Schools. The Governance breakout session consisted of Bart Peterson, Maggie A. Lewis, and Toby McClamroch with facilitation support from Shaina Cavazos, Director of the Office of Education Innovation, Andrew Strobe, Deputy Superintendent, Indianapolis Public Schools, and Michael O'Connor, Project Manager, Bose Public Affairs Group.

Stakeholders were asked to assist to guide productive, authentic dialogue of any topics of specific interest. The Mayor and Superintendent were encouraged to move among groups and

share dialogue. At 7:30 P.M., the group reconvened with next steps, opportunities for final input, and final schedule facilitated by Shaina Cavazos and Michael O'Connor.

# Notes from Meeting – Wednesday, December 10th, 2025

# Indianapolis Local Education Alliance

## Listening Session 1 Notes

### Transportation

#### Overview

- 24 attendees for first half, an additional 3 came at mid-way point
- 2 of the attendees were children
- Attendees were self-arranged in discussion groups across 8 tables
- Conversation began at 6:30pm, facilitated by Andrew Neal and Tina Ahlgren

Tina & Andrew explained how the two transportation models were developed and noted that the models were high-level and lacked consensus among the 9 ILEA members. Therefore, participants were asked to provide “additional guidelines and guardrails around these models.”

The various topics and items that have been discussed in developing the models, include:

- Requirements around participation from schools
- The idea that there should be local representation for leadership and any appointments, with a combination of district and charter representation
- Minimize disruption for all students within IPS boundaries, particularly those experiencing homelessness or housing insecurity as well as those requiring transportation accommodations
- Maintain the assets of the current transportation system, with institutional knowledge and expertise carrying over
- Discussion groups were then directed to take 12 minutes and discuss at their tables the answer to the following prompt: “What should be true about our transportation system within IPS boundaries, regardless of the model chosen by the ILEA?” Each table presented their thoughts.

**Table #1** – Public tax dollars should go to a publicly elected school board to decide what is best for our kids; efficient services and efficiency with time; ensure students

are safe however they get to school; sidewalks and crosswalks; lighted streets; can IndyGo help with our transportation problem?; dignify transportation, arriving dry and warm.

**Table #2** – Safety and on time; transportation should be provided for students regardless of school type; students receiving our tax dollars need to provide transport; believe in the value of the current IPS expertise; all models need checks and balances in place.

**Table #3** – If a school takes the money, they have to provide the service; should be no disruptions for any students, especially marginalized students; equitable access to transportation and programs.

**Table #4** – Bilingual interpreters; always make sure there is an assistant for drivers, not just smaller ones but also bigger ones; be respectful to all kids and mindful of their differences and home situations.

**Table #5** – Better means of transportation for those who lack; transportation into charter schools opens up better education.

**Table #6** – Shorter walks; partner with City on sidewalks and intersections; funding out of school extracurricular activities; safety and on time; equitable.

**Table #7** – Realistic system that focuses on reliability and safety; access to students outside the zone of their school choice; more streamlined system for families to navigate; better communication; treat all students fairly; hold public schools accountable.

**Table #8** – Access to everyone; little to no disruption; clear communication; safety and compliance.

### **Transportation Model 1**

The facilitators then shared an overview of the two models and asked the discussion groups to review and comment on Model #1. Comments made regarding Model #1 were the following:

- **Individual #1** – We don't know what the service packages will look like; could they choose cheaper options and keep funds for other uses?
- **Individual #2** – The fundamental flaw is that the money is going to the schools; charters already “choose their students” by no offering transportation and could use the money as a “soft form of discrimination”
- **Individual #3** – Believe that if you take the money you have to offer transportation; a pro is that elected officials would be choosing the appointees, adding a layer of accountability
- **Individual #4** – A con is if the money flows to schools it keeps us where we are or potentially sets us further back; appointments could become about politics

### **Transportation Model 2**

- **Pros**
  - Could grow access
  - Could create equitable funding for school's vs it being up to school
  - \$ go to authority first, not schools -> more equitable
  - Requires participation
  - Can only access funds through services
  - Sole focus is of authority is transportation
  - Everyone would know that transportation is available
- **Cons**
  - Who appoints? Not clear yet.
  - No accountability to the public when the transportation the authority spends public money
  - Vagueness of what the authority will be
  - Leaves open the possibility of domination by charter schools and/or the Mayor's office
  - Loss of IPS expertise and infrastructure therefore more expensive to implement

- No elected board and public oversight
- Added layer of bureaucracy added costs
- **Questions**
  - Who appoints?
  - How would we perverse existing expertise?
  - Need funding transparency, report it act. Make budget public.
  - What determines level of funding and service?
  - Where does the accountability to the public come in?
  - Why is IPS not the authority if we are “preserving” our professional staff?
  - Are we saying IPS isn’t staffed with professionals? Are we comfortable saying this because of the race and gender of IPS leaders?
  - Can a version of this be done in which IPS is the contractor?
  - Will staff/representation who appoints them on the Authority accurately reflect the percentage of students attending traditional schools + charter schools?
  - How will checks and balances be created and maintained?
  - What is wrong with:

## Facilities

Facilitated by Angela Smith Jones and Barato Britt

### Barato:

- Last meeting looked at a couple of models
- Neither models are finalized
- All have elements of something effective in space
- Has to connect to governance structure
- Mr. Murphy from IPS and Joe Bowen from Englewood are here

Q: From a facilities standpoint, what are some of your concerns?

Q: We see the two options; can you provide more context as to what the options mean?

A: (Barato)

- The collaborative compact option maintains an ownership structure that is standard.
- Doesn't speak to IPS or charter ownership
- It speaks to agreed upon expectations all need to abide by
- Statutory authority may dictate other pieces
- We talked about what facilities can do to help stimulate uniform expectations on usage and occupancy.
- Option 2 gives more teeth to structure
- Both options offer a potential opportunity to equitable approach
- Option 1 offers more collaborative agreement
- Option 2 means all parties need to be devoted to authority

A: (Angela)

- Option 1 is more like Denver
- They pay back for services being utilized in the space
  - Probably calculated per student
- Option 2 is more of an independent off boarding like the Indianapolis Building Authority
- All governing and managing of facilities would be there instead of individual schools
- Independent authority gets all the money

Q: Some are confused about the difference in funding. Is the independent authority not responsible for funding per basis?

A: Depends on the structure. Neither of these are absolute.

Q: With model 2 if they are independent, how will we be able to hold them accountable?

- 1 seems like an advisory board
- I don't like the idea of an independent building authority

- Will they have any knowledge on how schools run?
- Model 2 scares me and it seems like we don't know who is running or who gets to choose them

A: (Barato)

- This is theoretical right now
- Everything continues to funnel back to the potential governance
- The interest in this building is also up for consideration
- We love the idea of an equitable school system, but independent advisory makes me nervous. Our children won't be valued

Barato:

- This option 1 preserves the level of ownership that everyone is comfortable with
- We want to get to the most equitable choice
- Objectively, we have a lot of control on what happens here, and we have responsibility to everyone else
- What has to be true for one has to be true for all of us. If something applies to one, it applies to everyone
- An independent authority can drive more equity.
- We have existing model of how facility resources can be distributed equitably
- IPS is affiliated with 75% of schools in the city
- About 1/3 is the innovation schools
- Is it safe? (Structurally, regardless of kind of school)
- Is it inhospitable?
- Is it historically disenfranchised space?
  - Ex: CFI 70 has historically received more and George Julien has less. If we prioritize Julien first, we can get equal footing
- All innovation schools can have access in theory
- We have menu of support options
- Can choose to supervise custodians themselves
- Challenge: An Innovation School boiler system will cost \$18mill to replace. They can buy a building for \$1 and be fine until the boiler fails. Now, we planned for their boiler to potentially break, and it's built into the capital plan. We treat all schools the same to make sure schools are properly maintained

- We provide some of the property management services and they have some of the custodial
- Their rent helps us pay mortgage on property
- I'm trying to still define the models

Q: For model 2, there's one landlord that owns all buildings... and all per pupil money comes together and distributes the rest of funding?

A: It does centralize those resources, there is a difference between ownership and stewardship.

Q: What if there is an organization that wants to gift a building will that impact whoever is managing the operations of the building? Will it affect the budget? Even if the donation is just a playground?

A: I don't know how to best answer that right now. Under Model 2, it would likely relinquish some authority on some of these aspects. I would speculate if they were under Model 2 and it's still used for public space, they'd have to conform.

Q: Is this model for all public schools in the state?

A: No.

Q: When we talk about facilities, were still saying the facilities for minority students have to be specially organized. We're still saying our people don't deserve a Fishers High School. I disagree. So, the legislature gets to decide how we build facilities and transport our students? How are we really going to educate? I'm concerned and don't know why this sounds like 1927 to me.

A: There are very real historical impacts of this. I would suggest that you have a fair point, our mandate doesn't necessarily keep all students in mind. There are a lot of districts not being considered. IPS is and has been treated unfairly. Facilitating a conversation about what to do doesn't make it a fair process. We're trying to create something that can build upon the strong foundation of the district. If we don't come with recommendations, we are leaving it to the state. What we think was legislated unfairly affords opportunity to correct wrongs.

Q: Is the downside of collaborative compact that it won't be able to repeal the dollar law?

A: This handout is just my own personal opinion on the benefits of the models.

Q: Who would be on the board?

A: It's up to the governance piece that isn't finalized right now.

Q: I heard Dr. Murphy mention bonds, you mentioned equity, there are some other charter schools that own their buildings. The authority feels like ownership. In IPS we can ask for bonds, but a traditional charter school may not be able to. How clear can that get if we're talking about an authority?

A: We're still dealing with a high-level structure. You are correct there are currently debts. For Model 2 to work there would need to be attorneys and financial experts working to unwind the securities and reestablish the authority. Details into how that would be done would be with finance authorities and attorneys. It would take quite a lot of hours for those specialists to unwind that.

Q: Follow up, when it comes to equity, would someone with equity need to vote to support or remain owners? I think about Crystal House ownership; there's a lot of money there and there's a board governing. What would that look like? Wouldn't the equity peace require some relinquishment?

- I agree there is so much time and money that would need to go into that.
- It would say the Crystal House can continue to operate, but you won't get the higher funding per pupil.
- There could be the creation of financial incentives to convince them to sell to the building authority.
- Taking all facilities into one pot then, you'll get a higher reimbursement rate per pupil.

Q: Could you have authority to host this tonight, or would you have to go through the building authority?

Q: We don't know what this means in terms of Innovation School. How do we stop someone from opting out?

A: There is a prospect for equitable arrangement here in Option 2. Relating to the piece of how schools' function, we see there are too many buildings and not enough students. We need to think about the future. There has to be things put in place to make sure neighborhoods can protect themselves. I don't know if I'm super confident on either of these.

Q: Were these questions brought up when they put the legislation together?

A: I don't know.

Q: How is all of this improving student outcomes?

A: I think that all students should be able to afford access to facilities. I wasn't too mad about IPS 69 because it was a poor configuration. It was not conducive to student consideration. We need to make sure these children have good safe buildings with ethical standards across the board. That's one less challenge for educators to address.

Q: Will Model 1 work from where we are unlike the unwinding needed in Model 2? Do they need to restructure like model 2?

A: What option 1 entails needs just as much legal wrangling.

- Option 1 is more of an agreement
  - All leaders would agree to opt into collaborative contract
- Whoever owns the building would still own it, but operators still get it back.
- Option 2 restructures the authority legally
- There still needs to have terms outlined

Q: Can option 1 be viewed as deciding as a collective property management agreement? Would we all be deciding what property management would look like together, instead of becoming tenants to a new landlord?

A: We can create something with that more collaborative approach. But, that language can go into Option 1 or 2 because we are still deciding the governance model.

Q: ILEA needs recommendations by the end of the month, how is that possibly enough time to give one? We all don't trust the legislature to not try and dismantle that.

A: They won't. There's too much complexity and detail. We are coming up with frameworks from a high level. When I was approached with the prospect of this, I knew 6 months wasn't enough. However, I am pleased with our progress. When we get beyond the noise, I find there are common elements that each sector agrees with. If we build on those and speak to high level core values, I will take my chances with that.

Q: We talked about the dollar law and trying to get rid of it. Neither of these options speak to me really. The dollar law is to prevent vacant buildings. Can we consider the collaborative compact taking underutilized schools and deciding what happens with buildings that they own? Can't there be a mix of the two options to serve all students? Some of these things look good on paper and the details are critically important. I don't want the details to not be fleshed out and left up to the legislature.

Q: They can have a collaborative accountable system to be in agreement

A: The compact wasn't just considering closures. We hadn't thought about parsing out that specific scope.

Q: At this point there's so many different ways for a charter to become charter, should the idea be to minimize and not keep adding on?

A: Do I believe we need to rethink charter authorization and oversaturation? Yes. Charter schools are a solution not the solution. I think some type of smarter approach is necessary. Just like we don't want the state to make these decisions, we feel the same about the authorizers. Another reason we get scared of a mayor running everything. People forget that back in 2001 public districts could authorize

themselves. IPS should be the authorizer as well. This could be a good way to think more holistically.

Q: The question was raised in the governance breakout: Why is option 1 no longer an option? Mike kept saying it's to create efficiency and synergy. This is just more of the same. How do we get back to a more synergized focus? In the governance component?

A: This is a good point. Your questions are great and probative. We hear that this isn't clear. As we're working through this in the next week, we'll keep this in mind. I don't have an answer, but appreciate the question

Q: What about independent charters in churches?

A: We can relate this to Englewood.

- The charter schools in churches don't usually own their buildings.
- They could continue in their spot
- To reside in IPS schools, they need to be an innovation school.
- If the rule was lifted, you could move out of the church and into a portion of the building.
- When Englewood was built, the idea was they didn't need a football field. Now they want one but cant on that piece of land. We could rent these out for schools to function in the space.

### **Student Feedback**

- Want them to choose something for the people
- Public should have input
- When we take away the people's word it will be looked at as a dictatorship
- Gun violence is the most prominent issue in our schools
- Safety is built through systems of trust in schools
- An appointed school board that the charter schools want won't be good for the students and teachers of our schools
- Need to make sure we keep out school board public
- My school needs better transportation
  - Some have to take the IndyGo

- Staying after school late means I take IndyGo late at night
- With more funding student mental health can improve safety
- Advocate for more gun control
- Safe community creates safe schools
- Transportation can contribute to safety issues
- Every school needs security and safety precautions, not scare tactics
- Staff members should be trained on safety
- Transportations for all students is important
- Put forth effort to keep students safe
- Getting home shouldn't feel risky
- Students who participate in extracurricular activities don't have reasonable transportation
- Shouldn't have to choose between being safe and being involved at school
- Students are late to class because they don't have transportation
- We don't see changes in the actual classroom
- Need leadership that puts students first
- We need to invest into replicating our model to get access to high quality education
- Students are prevented from being involved because of a lack of transportation
- Options we have been given are unpopular
- Appointed school board is not favored
- Option 1 seems to be the most democratic
- Common theme of safety, want to feel safe
- Safety and transportation go hand in hand

## **Governance**

### **Introduction**

*Michael O'Connor*

We are here because of legislation filed last year, HB 1163, to dissolve IPS and create an all charter district. HEA 1515 was alternative legislation that passed and created ILEA, tasked with returning recommendations to the Indiana General Assembly by Dec 31. ILEA has held several public meetings and listening sessions over the past six months. There was an hour of public comment at almost every meeting, heard from leaders at multiple school systems to discuss how traditional and charter schools operate alongside one another

Have to consider the significant negative financial impact from SEA 1 and operating referendum that rolls off end of calendar year 2026. Need to think about long-term financial sustainability for schools in the district, both public and charter schools.

In each of these models, we're not impacting how boards run their schools, whether independent chart school boards or IPS school board. Governance is focused on operation of a system of schools regardless of type, with uniform accountability. Each model includes independent decisions making in terms of curriculum, teachers, etc.

ILEA started with two options and have narrowed it down to two. Both option address changes sought by the legislature, while honoring local decision making. These are not final decisions, but recommendations to the legislature on how to structure a financially sustainable future within the Indianapolis public school district and charter schools that operate within it.

Explanation of remaining models under consideration and seeking feedback, option 2 and option 3.

#### Governance option 2

- Collaboration Compact Advisory Board (CCAB)
- Based on Denver Public Schools
- Regional assessment, but individual oversight
- CCAB doesn't have binding authority or ability to collect property taxes
- Schools would have the choice to participate in the CCAB

#### Governance option 3

- Indianapolis Education Authority
- Does not change elected school board, or independent charter school boards
- Entity created by legislature, have ability to collect property taxes tied specifically to transportation and facilities
- Entity would be responsible for determining if schools meet operating standards

## **Public Comment**

### *IPS Parent*

Goal is to make the system more sustainable, effective, and efficient – both of these models do not reflect that from the parent perspective. Under both models, parents have to attend multiple board meetings every month - IPS school board meeting, CCAB board meetings, independent boards for transportation and facilities. How does this save us any money? There is no streamlining, just creating more bureaucracy and hoops for parents to jump through to be heard.

To be informed parents, we must know what's going on with transportation and facilities, not just education and curriculum.

Response (O'Connor): Models are trying to bring more people and dollars into the system. Decision making about day-to-day operations of system, teachers, curriculum, etc. is made by each designated school board. These are designed to bring more and better transportation to students

### *IPS Parent*

Most parents can't attend board meetings. We are looking for the IPS school board to talk with the CCAB and coordinate information so parents could go to one place to get the information, rather than multiple board meetings.

### *IPS Parent*

Why have we decided to move to these models in the first place?

Response (O'Connor): There was a bill filed last year to dissolve IPS and make it an all charter system. The legislature asked ILEA to come up with a system that works for all schools across the district, so they are held to the

same academic performance standards. That would require changes to the current governance structure and needs community input..

*IPS Parent*

Tax dollars go into private schools, why aren't part of the discussion?

Response (O'Connor): Private schools and vouchers are outside of the scope and authority of ILEA and the legislation.

*IPS Parent*

There is public funding that is not going to public schools.

*IPS Parent*

IPS parents do not want invisible operators in the school system. They want accountability and transparency. We have a city that is going through a revitalization process. Many neighborhoods are seeing growth and young families choosing to stay in those areas and go to schools in the IPS district. Parents are giving time and money to support the schools.

Talking about a model that works in Denver for their demographics is a waste of time. Families may stay in the district for elementary, but they won't stay for middle school and high school because there is no guarantee of quality education. Parents are asking for a publicly elected board and transparency. The models being proposed operate in the shadows and those serving are not elected by individuals in their district.

*IPS Parent & Education Advocate*

Confused by the models. Option one looks like the current model. These don't address the challenges we're facing.

*IPS Administrator*

Who is going to hold the advisory boards accountable if they aren't elected by taxpayers? We have a model that shows partnership between traditional public schools having their board and innovation schools that have their own boards operating separately. Why wouldn't we just expand that, mostly reflected in option 1? Shows oversight of facilities and transportation but keeps autonomy of IPS schools. Who is going to hold these group accountable?

*IPS Teacher*

Had a horrible experience working at a charter school. There was no school board to take concerns to. It was operated by a Florida based for-profit that did not have the best interests of students, parents, and teachers. Individuals appointed to board should live in IPS boundaries.

Why are we perpetuating a system where elected choice is diluted?

Response (Shaina and Bart Peterson): That school was under state takeover, so it was a different structure. Charter schools not under state takeover have a board that meets regularly. IPS reached out to not-for-profit charter asking them to take over running that school. It was a uniquely bad situation.

*IPS Parent*

Important to consider that schools transition to primary/single authorizer model to increase accountability. Allow an appeal process. It doesn't make sense where schools are placed geographically and having multiple authorizers. Would like to hear from ILEA why they didn't move forward with option one?

*IPS Parent*

Overwhelming the public comment has been to preserve the IPS board. Research shows voters favor elected schools boards as the preferred model of governance. Major cities moving away from Mayoral control. It's not based in research, and there isn't evidence that mayoral control is viable reform option. Rise Indy paid for a study in which a survey in IPS, the responses asked for a unified structure. How

does this make sense for a city with 11 school districts? In this model, the Superintendent is only responsible for 44 of 110 schools. Charter school parents also deserve to hold public school board members accountable. The problem with companies overseeing charter schools don't have accountability to students and parents through their privately elected board.

Response (Bart Peterson): Charter schools were created as an option/alternative to offer a choice to parents who wanted their child to receive education in a different environment. IPS is a school district that offers a lot of options and choice. Charter schools are accountable to the authorizer and have state regulations they have to follow. If they receive state money, they must be accountable for every dollar. We need charter and public schools to work together and share the challenges of urban education and a declining fiscal environment. I didn't favor model one because IPS has never granted a charter, despite being an authorizer since 2001. IPS School Board should continue to oversee IPS schools and charters operating within their authorizer, but we must come together over shared resource challenges.

Response (Maggie Lewis): These two models provide an opportunity to continue the conversation and force us all to work together to make movement between the two and create something meaningful.

#### *Parent and IPS Teacher*

Our school system is failing students because we keep coming up with new structures that don't care about learning in the classroom. I'm confident these will fail. Parents, students, and teachers care about good education. If our system is not focused on creating one type of school, one type of structure, and one speed of education it will fail. When students fail in one system, they move to the other. We keep blaming one structure over another. We need a unified system.

#### *IPS Parent*

This board of individuals isn't focused on the goal of education children. We can't compete in the global market, because students are failing. We're not equipping our children to get good jobs. We should have a school system that includes everyone

and a governing body who is selected by the people. Taxes should be equally divided. Expectation of children is low because our educational system is in disarray. We're competing on who is in charge, rather focusing on the end results of educating children.

*IPS Parent*

I don't see accountability or quality. Parents should have a choice, but regardless of the choice there should be quality. Why are schools that are failing our children still open? We need to make sure our children are prepared to go out into the workforce. They should be prepared for a career, not a job. The right people need to be on the board to hold people accountable. We need to be thinking about the families and listen to the community. You're making decisions for communities that you don't live in. It's a shame this discussion is coming from the Statehouse. It should be coming from the community.

*Independent Public Charter School Director*

Support creating a shared transportation and facility system. Protect school choice. Allow multiple authorities and no moratorium on charter schools. Create a system of accountability. Not advocating for a lot of charter schools opening, but there are parts of the community that are interested in having a charter school. A shared transportation system leveraging economies of scale would help families with transportation. A lot of those are accomplished with these two models.

*Community Member*

The city already has a lot of boards with appointees who already do not represent our residents well. Appointed boards have historically not worked well for our city. They protect the interests of the people who appoint them, rather than the citizens.

*IPS Parent*

I do not understand how charter schools are funded. Option three seems to create more involvement of other people. Prior ILEA meetings discussed how the current system is fragmented and chaotic. Model three does not seem to be clarifying anything. It looks more confusing. Does Denver have similar structure as

Indianapolis - multiple districts in their city, a Uni-gov model with city/county, townships not wanting to participate in their city public school? We all just want kids to get a good education. Don't disagree that we need choice and charters. Public schools can innovate. We are talking about independent charters schools that are receiving public money. The level of funding that has been poured into school board elections have made it harder to get appropriate representation from your community. Most community members cannot afford to run for school board. This process has fractured our community and pitted parents against each other for the choices they make.

*IPS Parent*

Consistently at ILEA meetings everyone is asking for accountability and transparency. Accountability looks like an elected board. If not the IPS school board, it can be another board but still elected by the residents to represent them and be accountable to the voters.

*IPS Parent*

If we need a unified transportation system, then we need a unified accountability system. Elected school board could do both and resolve a lot of the issues.

*Parent and Education Advocate*

This model does not increase coordination and collaboration between IPS and charter schools to replicate models that close the opportunity gap and ensure kids get a quality education. The politics of IPS are failing children. The models are a little confusing. We should be making systems simpler for families to navigate and know who to go to.

*Closing, Toby McClamroch*

ILEA has not defined the problem very well or defined the solution very well. The problem is sustainability. Historically, IPS had over 100,000 students, that has

been declining over the years. IPS operated schools has decreased 24% since 2017. Last year the number of students was 18,000, this year dropped to 17,000. We have a utilization/capacity issue in IPS operated schools, 58%. At the first ILEA meeting, we were told financial deficient was \$18M and this year it's projected to be \$44M deficit. And in 2027 \$75M dollar deficit. This problem doesn't relate to the classroom so much as it related to the demographics of the district. Enrollment is declining. What we're proposing is that IPS continue to exist and the IPS school board remain elected. This proposal takes facilities and transportation to create a unified system to bring resources of charter schools, innovation, and IPS to provide transportation and buildings at a lower cost. This is all about collaboration. Bringing together the resources so that IPS can continue to exist. Legislature is seeing declining enrollment in IPS, budget deficit, and they provide tuition support.

## **YOUTH VOICE**

### **Student #1**

The community should have input and a say on what happens in our school system. We should always lead with the word of the people and the choice of the people. We should be choosing what is right for our students.

### **Student #2**

Gun violence and safety is the most prominent issue. Safety is built through system of trust in the school. Community input is important, and we should have an elected school board.

### **Student #3**

I must take IndyGo because my school doesn't have adequate transportation. I must stay after school for activities, and leaving late at night to ride public transportation isn't safe. More funding is needed to improve student mental health at schools.

**Student #4**

Students deserve to feel safe from all threats, but we must speak up about gun violence. Schools shouldn't be losing money to protect kids. A safe community creates safe schools.

**Student #5**

Transportation is important for safety. When students stay after for activities, it can create unsafe situations for students who must walk in the dark. Every school should have a certain amount of security and safety measures to protect all students. It has a significant impact on student mental health, especially in a small school.

**Student #6**

Transportation impacts safety. Especially in the winter when it gets dark early. It's harder for students who want to participate in after school activities. Students should have to choose between being safe and being involved at school.

**Student #7**

Students live with the consequences that politicians and adults in power make. Every day students struggle to get to school on time due to transportation issues. We need real resources, transportation that works. Safe classrooms and schools that care about students. The students deserve to have a real voice. Until adults start listening to students nothing will ever change. We need to put the students first.

**Student #8**

Equitable access to funding and transportation is a barrier for quality schools expanding. Students miss out on opportunities and activities because of lack of transportation. All schools regardless of who they have the ability to impact a child and all schools should provide transportation.

**Student #9**

The options we have been given are unpopular and do not address the issues. An appointed school board is not the answer. The only option that seems reasonable is option 1. Decision are being made without the voice of the students. Housing instability and transportation are real issues that many students struggle with. Safety is all that kids care about. They want to feel safe coming to school, knowing that adults care about them. Safety and transportation go hand in hand.

## **Wednesday, December 15, 2025, Public Listening Session 2**

A listening session of transportation model options 1 & 2, facilities model options 1 & 2, and Governance model option 2 & 3 from the Indianapolis Local Education Alliance was held on Wednesday, Over 24 people were of attendance. Of attendance from the Alliance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, Barato Britt and Angela Smith Jones.

In the public listening session, members of the public convened in the Madame Walker Legacy Center Ballroom for instructions of the breakout sessions as well as a general conversation of the purpose behind the listening session. The public listening session transitioned to breakout sessions each all focused discussions. The Facilities breakout session consisted of Barato Britt helping facilitate the discussion and Toby McClamroch. The Transportation breakout session consisted of Tina Ahlgreen helping facilitate the discussion and Angela Smith Jones. The Governance breakout session consisted of Bart Peterson, Maggie A. Lewis, and Andrew Neal with facilitation support from Michael O'Connor, Project Manager, Bose Public Affairs Group.

Stakeholders were asked to assist to guide productive, authentic dialogue of any topics of specific interest. The Mayor and Superintendent were encouraged to move among groups and share dialogue. At 1:15 P.M., the group reconvened with next steps, opportunities for final input, and final schedule facilitated by Shaina Cavazos and Michael O'Connor. The meeting adjourned at 1:30 P.M., with one-off conversations occurring with Indianapolis Local Education Alliance members and the public afterwards.

**Presentation – Wednesday, December 15th, 2025**

# Indianapolis Local Education Alliance

Listening Session  
December 15, 2025

## Facilities Model Option 1

1

### The Collaborative Compact Option

Shared Metrics for Opening/Closing & Schools

- Accountability & Performance Standards - set as policy by Voting Members of the Compact
  - Money goes to the school & a fee for services is paid
    - Statutorily created so that compact decisions are binding
- Questions remains about how charter schools would have access to debt absent a governance discussion.

## Facilities Model Option 2

2

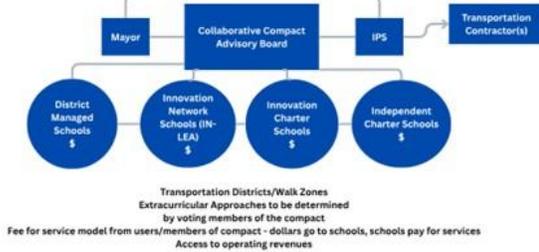

### Independent Buildings Authority Model

1\* Question remains about how to do that absent a governance discussion.

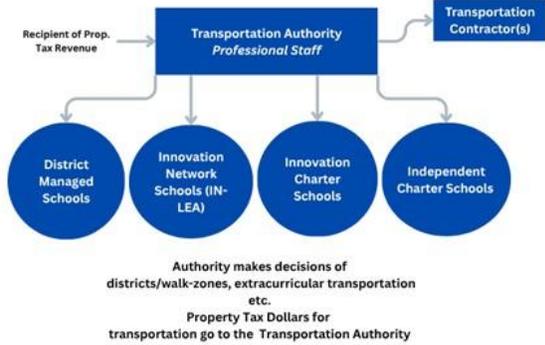

### Transportation Model Option 1

The Collaborative Compact Option

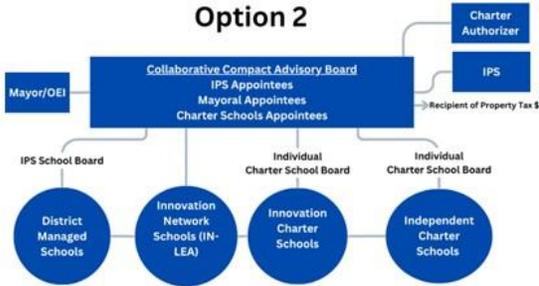

### Transportation Model Option 2

Independent Transportation Authority Model

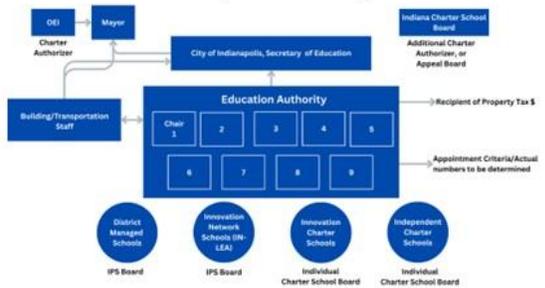

### Governance Model Option 2

### Governance Model Option 3

Indianapolis Education Authority

## Closing

Next Meeting:

- **Indianapolis Local Education Alliance Meeting**
  - 6 p.m., Wednesday, Dec. 17, 2025.
- Details and upcoming meeting schedule available at <https://www.indy.gov/activity/indianapolis-local-education-alliance>
- Contact [ILEA@Indy.gov](mailto:ILEA@Indy.gov) or [IPSExternalAffairs@myips.org](mailto:IPSExternalAffairs@myips.org) with questions or comments.

5

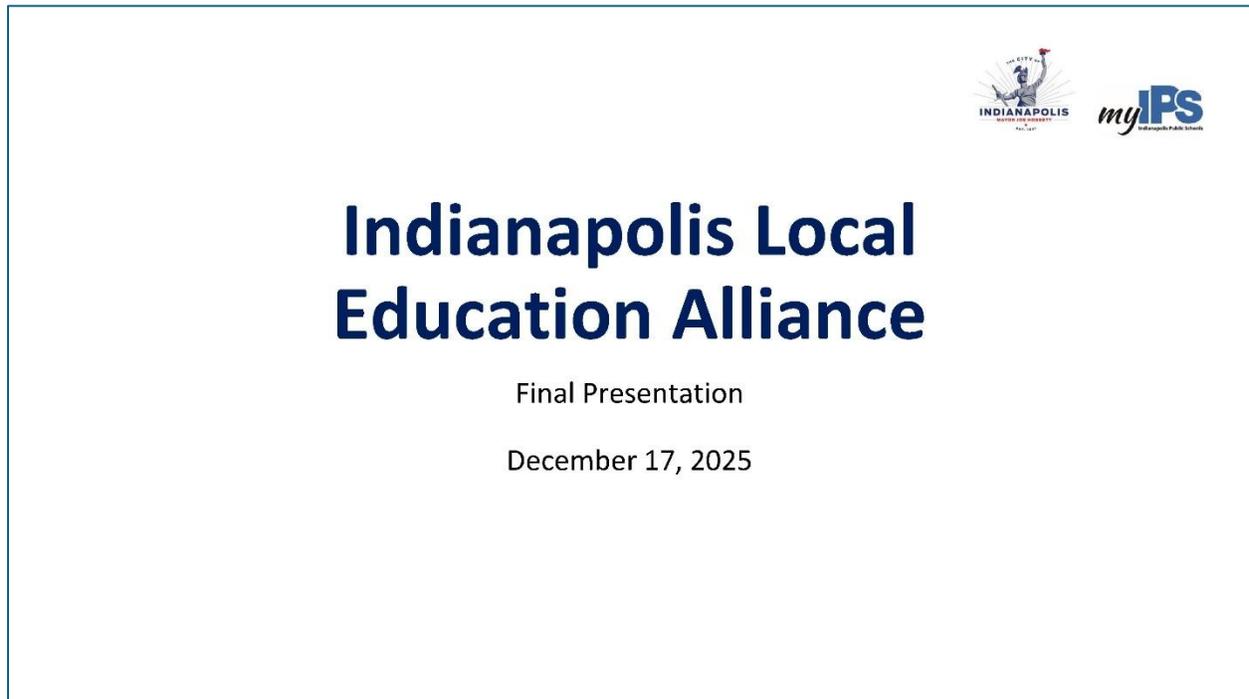

## Wednesday, December 17, 2025, Full Member Meeting

The eighth and final full meeting of the Indianapolis Local Education Alliance was held on Wednesday, December 17th, 2025, at the City-County Building, Public Assembly Room from 6:00 P.M. – 7:50 P.M with one hour committed to public comment. 63 people were signed up to testify. Of attendance was, Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Tina Ahlgren, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, Barato Britt and Angela Smith Jones.

The Indianapolis Local Education Alliance met to consider final recommendations to the Legislative Council. The Indianapolis Education Alliance first heard public comment for an hour. Indianapolis Mayor Joe Hogsett, motioned for the review of the final recommendations, which was seconded by Barato Britt. The Alliance members then moved to a slide deck summarizing both an overview of the Alliance’s work from July to December as well as final

recommendations/considerations presented by Michael O’Connor. After the presentation, Alliance members shared remarks about the model. Indianapolis Mayor Joe Hogsett motioned for the vote of the final recommendations, seconded by Barato Britt. In a 8-1 vote, the proposed final recommendations were passed. (**Yays:** Indianapolis Mayor Joe Hogsett, Dr. Aleesia Johnson, Maggie A. Lewis, Tobin McClamroch, Andrew Neal, Bart Peterson, Barato Britt and Angela Smith Jones. **Nays:** Tina Ahlgren). Indianapolis Mayor Joe Hogsett adjourned the meeting following the vote.

## **Presentation – Wednesday, December 17<sup>th</sup>, 2025**

The slide features the Indianapolis City logo and the myIPS logo in the top right corner. The main title is "Indianapolis Local Education Alliance" in a large, bold, blue font. Below the title, it says "Final Presentation" and "December 17, 2025" in a smaller, black font.

## **Agenda**

- Welcome and Opening Remarks
- Public Comment
- ILEA Final Recommendation Vote
- Closing

## **Welcome and Opening Remarks**

## Public Comment Procedure

For everyone to have a fair chance to speak and be heard, please observe the following rules:

**First**, each speaker will be limited to **1** minute. When the timer sounds, please conclude your statement.

**Second**, please ensure comments are reasonably related to the work of the ILEA and address the alliance as a whole.

**Finally**, please avoid repeating what a prior speaker has said so that we may hear from as many people as possible.

**Public Comment**

## **Charge to the Indianapolis Local Education Alliance by the Indiana General Assembly**

### **Facilities and Transportation**

- “Develop a facilities and transportation implementation plan...”
  - Best practices in facilities management and operation
  - “A system to track qualitative and quantitative data to gauge the success of the plan”
  - “Ensures the provision of uninterrupted transportation services for homeless students or students in foster care as provided by the McKinney-Vento Homeless Education Assistance Improvements Act (42 U.S.C. 11431 et seq.)
  - Sec. 4: “The alliance may...include the following recommendations in the implementation plan...special education policies”

## **Charge to the Indianapolis Local Education Alliance by the Indiana General Assembly**

### **Governance**

- Sec.4: “The alliance may...include the following recommendations in the implementation plan:
  - “the governance structure for a collaborative school system”
  - “uniform school performance frameworks for all schools within the collaborative school system”
  - “an approach in which schools located within the geographic boundaries of the school city will participate or opt into participation in the implementation plan and at what service level the schools may participate or opt in”

## Charge to the Indianapolis Local Education Alliance by the Indiana General Assembly

### Statutory Submission Requirements

“Not later than December 31, 2025, the alliance shall submit the school facilities and transportation plan to the following:

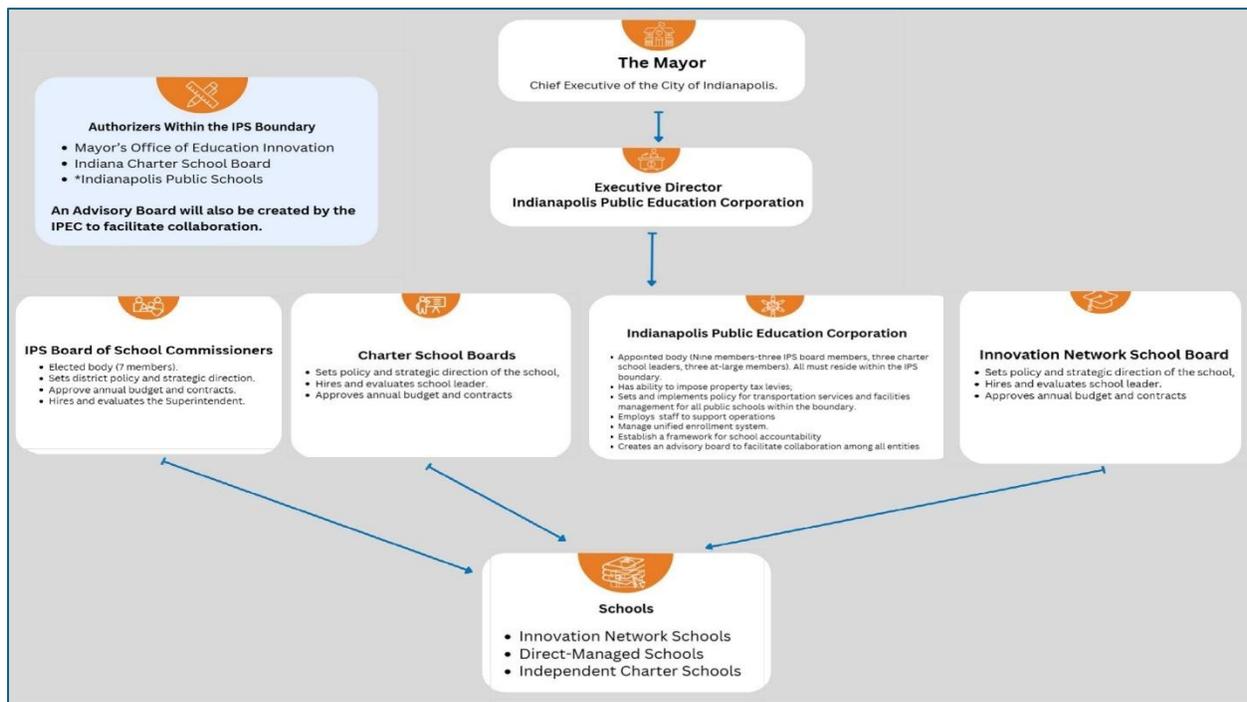

- (1) The secretary of education.
- (2) The board.
- (3) The mayor described in section 2(b)(2) of this chapter.
- (4) The legislative council in an electronic format under IC 5-14-6.”

## Where we've been

- **10** meetings and listening sessions
- **15** different presentations
- Over **14 hours** of public comment
- **Hundreds of citizens** have engaged during the multiple meetings of the Indianapolis Local Education Alliance

# Framing the Issue

Within the IPS boundary, there has been a **lack of decision-making coherence** across different school types which has led to uneven experiences and opportunities for students and families. With the change in how local funding is distributed, we must **build a more coherent system** that maximizes efficient use of tax payer dollars, respects the decision-making rights of individual schools and systems, and, most importantly, creates the best conditions for **student learning and success**.

## The Mayor

Chief Executive of the City of Indianapolis.

**Executive Director**  
**Indianapolis Public Education Corporation**

### **Authorizers Within the IPS Boundary**

- Mayor's Office of Education Innovation
- Indiana Charter School Board
- \*Indianapolis Public Schools

**An Advisory Board will also be created by the IPEC to facilitate collaboration.**

## **IPS Board of School Commissioners**

- Elected body (7 members).
- Sets district policy and strategic direction.
- Approve annual budget and contracts.
- Hires and evaluates the Superintendent.

## **Charter School Boards**

- Sets policy and strategic direction of the school,
- Hires and evaluates school leader.
- Approves annual budget and contracts

## **Indianapolis Public Education Corporation**

- Appointed body (Nine members-three IPS board members, three charter school leaders, three at-large members). All must reside within the IPS boundary.
- Has ability to impose property tax levies;
- Sets and implements policy for transportation services and facilities management for all public schools within the boundary.
- Employs staff to support operations
- Manage unified enrollment system.
- Establish a framework for school accountability
- Creates an advisory board to facilitate collaboration among all entities

## **Innovation Network School Board**

- Sets policy and strategic direction of the school,
- Hires and evaluates school leader.
- Approves annual budget and contracts

## Schools

- Innovation Network Schools
- Direct-Managed Schools
- Independent Charter Schools

## Review of Recommendations to Move Forward

- **Indianapolis Public Education Corporation.** Create an independent public municipal corporation known as the Indianapolis Public Education Corporation (the Corporation). The functions and responsibility of the Corporation will be as follows:
  - Control the management and operations of buildings serving as public schools within the boundaries of the Indianapolis Public Schools District.
  - Lead and oversee the provision of transportation of students to and from public schools within the IPS District boundaries.
  - Levy property taxes within the IPS District boundaries. The collection and distribution of property taxes in Indiana is extremely complex and requires consultation with fiscal experts at the Indiana General Assembly. The ILEA wants to assure that a fair, equitable and efficient system is appropriately funded.
  - Enforce accountability standards that are applicable to all public charter schools and traditional public schools within the IPS District boundaries. Create an Advisory Board to promote collaboration between authorizers, IPS, and the Corporation in the development and implementation of the unified performance and accountability standards.
  - Manage a unified enrollment system applicable to all public-school students within the jurisdiction of the Corporation.

## Review of Recommendations to Move Forward

**Governance.** The Indianapolis Public Education Corporation will be led by a Board of Directors.

- There will be nine members of the Board. All nine members will be appointed by the Mayor of Indianapolis. Three members must be current public charter school leaders. Three members must be currently serving members of the Indianapolis Board of School Commissioners. The final three members should have expertise in areas such as facilities, management, capital planning, and transportation and logistics; or experience working with vulnerable student populations and communities. The mayor will designate the chair of the board. All members must reside in the IPS District.
- The terms of the members of the Board will be staggered with each member serving fixed terms.

## Review of Recommendations to Move Forward

**Accountability.** The Indianapolis Local Education Alliance recommends a single school performance framework across all public schools in the IPS District.

The framework should set clear expectations for school performance, be based on multiple measures (including state assessment outcomes, student discipline practices, and other key measures that are relevant to student success), and guide decisions for replication of instructional models that are achieving the best results for students - especially those who have been historically underserved throughout the system.

Implementation of the single school performance framework should focus on:

- Developing measures based on both the Mayor's Office of Education Innovation performance framework and the State's final A-F accountability rules.
- A commitment across all sectors to use data from the performance framework to make decisions around closing chronically low-performing schools (after a transparent public process with adequate time provided for struggling schools to make improvements).
- Developing metrics for the opening and closing of school facilities (i.e., physical condition of facility, number of enrolled students, deferred maintenance, regional and community analysis of need).

## Review of Recommendations to Move Forward

### **Unified System.**

All public schools within the IPS District boundaries will be required to provide transportation to students living within the IPS District boundaries through participation in the unified system.

For purposes of public-school building reuse, the Corporation will ensure that facilities will be provided to all public charter schools, innovation network charter schools and IPS schools on an equitable basis.

## Review of Recommendations to Move Forward

**Schools as Local Education Agencies (LEAs).** IPS will continue to exist as an LEA as will all public charter schools. With the exception of the responsibilities assumed by the Corporation for facilities, transportation, and uniform accountability standards, the Board of School Commissioners for Indianapolis Public Schools will continue to provide direction for the operation of all direct-run schools, as is currently the case, and the not-for-profit boards of all public charter schools will also remain in place with the same authority as is currently the case. The IPS Board of School Commissioners will continue in its current form with the current model of election of Board members.

## **Review of Recommendations to Move Forward**

### **Additional Key Recommendations.**

- Exempt the Indianapolis Public Schools District and all public charter schools contained within from the Indiana Dollar Law (Indiana Code 20-26-7.1-4).
- The only authorizers of new public charter schools to be located inside the IPS District boundaries will be the Mayor of Indianapolis through OEI and the Indiana State Charter School Board. Existing charter agreements authorized through other entities may operate until the end of their current contract terms. The IPS Board of School Commissioners may also choose to authorize schools through application to the Indiana State Board of Education.
- The Indianapolis Local Education Alliance asks the Indiana General Assembly for full funding of Special Education within the IPS district boundaries and suggests the need for additional work to determine the best model for equitable access and service for the Special Education needs across all public school types within the district boundaries. IPS currently provides full special education funding at a \$24 million annual deficit.
- A document will be attached to our final recommendations that details the multiple legal issues that will need consideration and review at the Indiana General Assembly.

## **Further Legal Analysis Will Be Required**

During our discussions around facilities and transportation, we have discovered several areas that need further legal analysis, legislative decision-making, and deeper fiscal review. We will highlight those concerns in a separate chapter of the final report.

## Discussion

The Indianapolis Local Education Alliance met on December 17<sup>th</sup>, 2025, in the Public Assembly Room of the Indianapolis City County Building at 6:00 PM.

After additional public comment the Indianapolis Local Education Alliance voted on the attached recommendations. The vote was as follows:

Voting for: Barato Britt, Indianapolis Mayor Joe Hogsett, Indianapolis Public Schools Superintendent Dr. Aleesia Johnson, Indianapolis City/County Councilor Maggie Lewis, Toby McClamroch, Andrew Neal, Bart Peterson, Angela Smith-Jones.

Voting Against: Tina Ahlgreen

The Indianapolis Local Education Alliance conducted their work over ten different public meetings from June 2025 through December 2025, taking over 14 hours of public comment from hundreds of citizens over that time period and these recommendations are based on both the charge given to the Indianapolis Local Education Alliance by the Indiana General Assembly in H.E.A. 1515 and the input from those hours of public comment.

The Indianapolis Local Education Alliance appreciates the opportunity the Indiana General Assembly has provided to give recommendations on this important work.

# Final Recommendations of the Indianapolis Local Education Alliance

- I. **Indianapolis Public Education Corporation.** Create an independent agency known as the Indianapolis Public Education Corporation (the Corporation). The functions and responsibility of the Corporation will be as follows:
1. Control the management and operations of buildings serving as public schools within the boundaries of the Indianapolis Public Schools District.<sup>1</sup>
  2. Lead and oversee the provision of transportation of students to and from public schools within the IPS District boundaries.
  3. Levy property taxes within the IPS District Boundaries. The collection and distribution of property taxes in Indiana is extremely complex and requires consultation with fiscal experts at the Indiana General Assembly. The Indianapolis Local Education Alliance wants to assure that a fair, equitable and efficient system is appropriately funded.
  4. Enforce accountability standards that are applicable to all public charter schools and traditional public schools within the IPS District boundaries. Create an Advisory Board to promote collaboration between authorizers, IPS, and the Corporation in the development and implementation of the unified performance accountability standards.
  5. Manage a unified enrollment system applicable to all public-school students within the jurisdiction of the Corporation.<sup>2</sup>

II. **Governance.** The Indianapolis Public Education Corporation will be led by a Board of Directors.

1. There will be nine members of the Board. All nine members will be appointed by the Mayor of Indianapolis. Three members must be current public charter school leaders. Three members must be currently serving members of the Indianapolis Board of School Commissioners. The final three members should have expertise in areas such as facilities, management, capital planning, and transportation and logistics; or experience working with vulnerable student populations and communities. The mayor will designate the chair of the board. All members must reside in the IPS District. <sup>3</sup>
2. The terms of the members of the Board will be staggered with each member serving fixed terms. <sup>4</sup>

III. **Accountability:** Indianapolis Local Education Alliance recommends a single school performance framework across all public schools in the IPS District.

1. The framework should set clear expectations for school performance, be based on multiple measures (including state assessment outcomes, student discipline practices, and other key measures that are relevant to student success), and guide decisions for replication of instructional models that are achieving the best results for students – especially those who have been historically underserved throughout the system.
2. Implementation of the single school performance framework should focus on:
  - a. Developing measures based on both the Mayor’s Office of Education Innovation performance framework and the State’s final A-F accountability rules.

- b. A commitment across all sectors to use data from the performance framework to make decisions around closing chronically low-performing schools (after a transparent public process with adequate time provided for struggling schools to make improvements.)
- c. Developing metrics for the opening and closing of school facilities (i.e. physical condition of facility, number of enrolled students, deferred maintenance, regional and community analysis of need).

#### **IV. Unified System**

- 1. All public schools within the IPS District will be required to provide transportation to students within the IPS District attending their schools at a level established by the Corporation.
- 2. For purposes of public-school building reuse, the Corporation will ensure that facilities will be provided to all public charter schools, innovation network charter schools and IPS schools on an equitable basis.

**V. Schools as Local Education Agencies (LEAs):** IPS will continue to exist as an LEA as will all public charter schools. With the exception of the responsibilities assumed by the Corporation for facilities, transportation, and uniform accountability standards, the Board of School Commissioners for Indianapolis Public Schools will continue to provide direction for the operation of all district-run schools, as is currently the case, and the not-for-profit boards of all public charter schools will also remain in place with the same authority as is currently the case. The IPS Board of School Commissioners will continue in its current form with the current model of election of Board members.

#### **VI. Additional Key Recommendations**

1. Exempt the Indianapolis Public Schools District and all Public Charter Schools contained within from the Indiana Dollar Law. (Indiana Code 20-26-7.1-4).<sup>5</sup>
2. The only authorizers of new charter schools to be located inside the IPS District boundaries will be the Mayor of Indianapolis through OEI and the Indiana State Charter School Board. Existing charter agreements authorized through other entities may operate until the end of the current contract terms. The IPS Board of School Commissioners may also choose to authorize schools through application to the Indiana State Board of Education.<sup>6</sup>
3. The Indianapolis Local Education Alliance asks the Indiana General Assembly for full funding of Special Education within the IPS district boundaries and suggests the need for additional work to determine the best model for equitable access and service for the Special Education needs across all public-school types within the district boundaries. IPS currently provides full special education funding at a \$24 million annual deficit.
4. A document will be attached to our final recommendations that details the multiple legal issues that will need consideration and review at the Indiana General Assembly.

---

<sup>1</sup> See legal memo attachment

<sup>2</sup> Currently performed by Enroll Indy.

<sup>3</sup> All elements of the new board structure to be defined in statute.

<sup>4</sup> All elements of the new board timing to be defined in statute.

<sup>5</sup> Requires action by the Indiana General Assembly to create this exemption

<sup>6</sup> The Indianapolis Public Schools Board of Commissioners has indicated they will pursue charter authorizing authority from the State of Indiana

## **Legal Considerations/Limitations to the Models by the Indianapolis Local Education Alliance<sup>1</sup>**

### **I. Transportation Services**

#### **a. Change in Transportation Services**

Indiana Code chapter 20-27-13 applies to all school corporations and expressly states what transportation must be provided and the process that schools generally must use when there are certain changes to transportation.

#### **b. Ownership of Busses**

Many school busses are leased by school corporations (and perhaps charter schools) instead of purchased. A due diligence piece in executing any plan is to evaluate whether buses are owned or leased and whether title or the lease can be transferred or assigned.

#### **c. Existing Contracts with Transportation Providers**

Should charter schools or Indianapolis Public Schools ("IPS") utilize contracts with independent transportation providers, then these should be examined as they may be a hinderance to any transition plan or require costly termination payments.

#### **d. Operations Fund Monies**

In 2017 and 2018 through legislation, the General Assembly merged property-tax based levies into one—the newly-created Operations Fund—effective January 1, 2019. Three of those prior property-tax levies now merged into the Operations Fund are the (i) capital project fund, (ii) transportation fund, and (iii) bus replacement fund. *See* Public Law 244-2017 (H.E.A. 1009 (2017)); Public Law 140-2018 (H.E.A. 1167 (2018)). Indiana Code limits uses of operations fund monies to capital project plan expenditures, transportation costs, bus replacement, overhead and

operational expenditures, historical societies or art associations, and for playgrounds expenditures. IND. CODE § 20-40-18-5.

**e. Transfer of Staff**

Transferring staff from IPS to another entity may require approval or input from any exclusive representative of established bargaining units of classified (or non-certificated) employees. Similarly, transfer of employees and any State retirement plan benefits may require statutory amendment to avoid adversely impacting retirement benefits of the transferred employees.

**II. Facilities**

**a. Overview**

The Indiana Constitution limits the ability of political subdivisions (including school corporations) to issue debt. Many school corporations utilize the process under Indiana Code article 20-47 or 20-48. Likewise, charter schools can obtain financing through other entities (the Indiana Bond Bank, Indiana Finance Authority, or the local economic development commission) that often includes mortgages on the property. Depending on the process used, transfer of title may not be possible by IPS or the charter school as title in the property may be held by another, private entity, subject to agreements with private financial institutions, or mortgages held by private financial institutions may prohibit transfer of title. Statutory changes may not achieve the desired outcome because the Contract Clauses of both the United States and Indiana Constitutions generally protect the contract rights of non-school entities and financial institutions.

**b. Capital Projects Referendum**

IPS obtained voter-approved capital projects referendum, which added a levy for IPS buildings beyond the State constitutional property tax levy limits. It is unclear if legal authorization exist to divert referendum funds for a broader purpose to benefit charter schools, when voters may not have approved the diversion at the ballot.

**c. Transfer of Staff**

Like the transfer of transportation staff, any transfer of facilities staff may require input or approval from the exclusive representative for any classified staff and statutory changes for pension or retirement plan purposes.

### **III. Governance Model**

Modifications of the authority structures for non-Innovation Network Charter schools (*e.g.*, Innovation Charter Schools and Independent Charter Schools) may require additional analysis. Presently, charter schools, and their authorizers, have established agreements between themselves and the State. Through Section 3 of Public Law 189-2023 (S.E.A. 391 (2023)), Indiana Code § 20-24-4-1(a)(5)(A) was amended to allow charters to be approved for up to 15 years (previously it was 7 years). To the extent that the new governance model impacts these contractual rights, legal analysis may be required.
